

# a tapestry of excellence

National Parks Board Annual Report 2005/06

A photograph of a lush green landscape. In the foreground, a large, leafy tree with dark brown branches frames the view. The background shows a dense forest of green trees, a body of water, and a distant shoreline with buildings and hills under a bright sky.

**An excellent tapestry is a product of finely interwoven threads. It takes many sturdy threads of effort, planning and execution to make Singapore the green and flowering picture that it is today. To this end, NParks seeks to continually strengthen our green infrastructure, achieve greater and better landmarks in horticultural excellence, and bring the community to a greater appreciation of the natural richness that surrounds us.**
