

LOVING GREEN

ANNUAL REPORT
2009/10

A love of green brings us together. Whether we are representatives from business, industry, grassroots or government agencies, volunteers or staff; it is what unites us as a diverse community and spurs us to look beyond the present moment. More importantly, it is a love that transforms us into custodians of a Garden City, stewards of our country's natural heritage and ambassadors for conservation and a greener tomorrow.
