

# Know 10 Trees in Singapore!

## Angsana (*Pterocarpus indicus*) Family: Fabaceae (Leguminosae)

The flowers of the **Angsana** tree bloom for only one day, during which they are a beautiful yellow.

**Angsana** trees can grow up to 12 storeys high, and have distinctive drooping crowns.

### DID YOU KNOW:

An **Angsana** tree on Upper Serangoon Road is one of the largest roadside trees in all of Singapore!
