IMPLICATIONS ON PUBLIC HEALTH IN SINGAPORE**

Please note that the FAQs will be updated periodically. Please refer to the [Biosurveillance Research Programme 1st Grant Call website](#) and [IGMS website](#) for the latest version of the FAQs.

T4. CALL TOPIC 4

T4.1 Should proposals cover the entire country in its sampling scope, or could proposals just focus on a specific area? (12 February 2025)

As the research objectives seek to study pathogens in animal hosts and environment in Singapore, we encourage representative sampling across different areas in Singapore. A specific study site may be included if it would help to address specific research objectives and deliverables (e.g., studying a specific research hypothesis).
