

BIOSURVEILLANCE RESEARCH PROGRAMME
GRANT CALL 1

FREQUENTLY ASKED QUESTIONS (FAQS)

**CALL TOPIC 6: RISK AND DRIVERS OF ZONOTIC DISEASE TRANSMISSION
FROM MAMMALIAN WILDLIFE IN SINGAPORE**

Please note that the FAQs will be updated periodically. Please refer to the [Biosurveillance Research Programme 1st Grant Call website](#) and [IGMS website](#) for the latest version of the FAQs.

T6. CALL TOPIC 6

T6.1 Should all animal species listed in the Call Topic be studied, or could single species be focused instead? (12 February 2025)

While it is not necessary for researchers to cover all animal species, we encourage researchers to incorporate study approaches in their proposals that may apply to multiple species.

T6.2 Are research objectives leaning towards non-invasive environmental sampling? (12 February 2025)

We strongly encourage non-invasive environmental sampling, including validation of such methods vis-a-vis conventional animal-based sampling to be incorporated into proposals.
