Members of your team :

Bukit Timah Nature Reserve South View Challenge.

What have you seen?– Tick the boxes when you have spotted the animals.

How many leaves of different shapes can you see? Draw them in the box below.

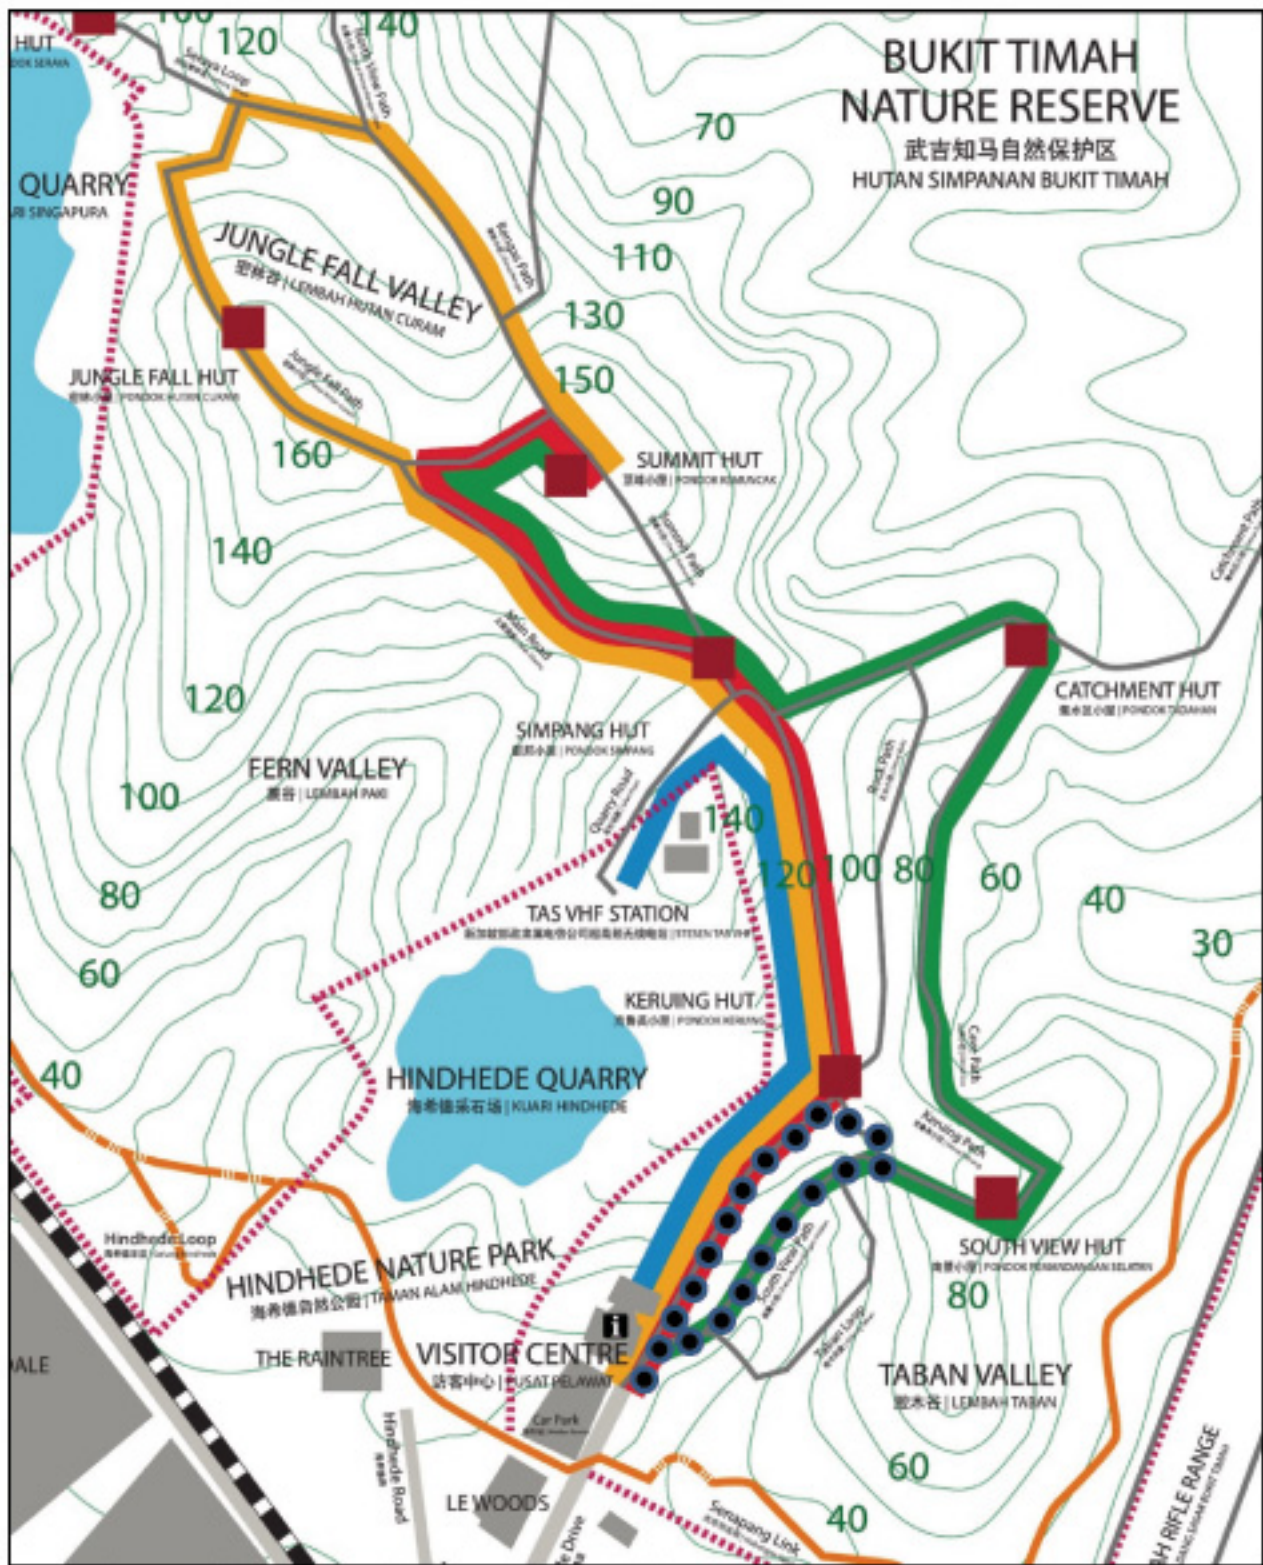

What have you learnt?– Try answering the following questions. You may find clues on the signs and in the huts along your route.

1	What is the name of the Heritage Tree along the South View Path?	<input type="text"/>
2	What does the Spiny Hill Terrapin feed on?	<input type="text"/>
3	Tell us an interesting fact about the mighty Keruing Tree.	<input type="text"/>
4	What are the uses of <i>Licuala ferruginea</i> ?	<input type="text"/>
5	Are all snakes venomous?	<input type="text"/>

Did you know...?

- The Cicada's song can reach 120 decibels, louder than a car horn.
- The Giant Forest Ant is one of the world's largest, growing up to 3cm long.
- The commonly seen Plantain Squirrel has a black and white stripe on each side of the body.
- The Common Sun Skink can often be seen sun-bathing in sunny areas.
- There are over 840 species of flowering plants and over 500 species of animals in this Nature Reserve.
