

**APPENDIX 1
COMPIRATION OF HISTORICAL MAPS**

HISTORICAL LAND USE REVIEW

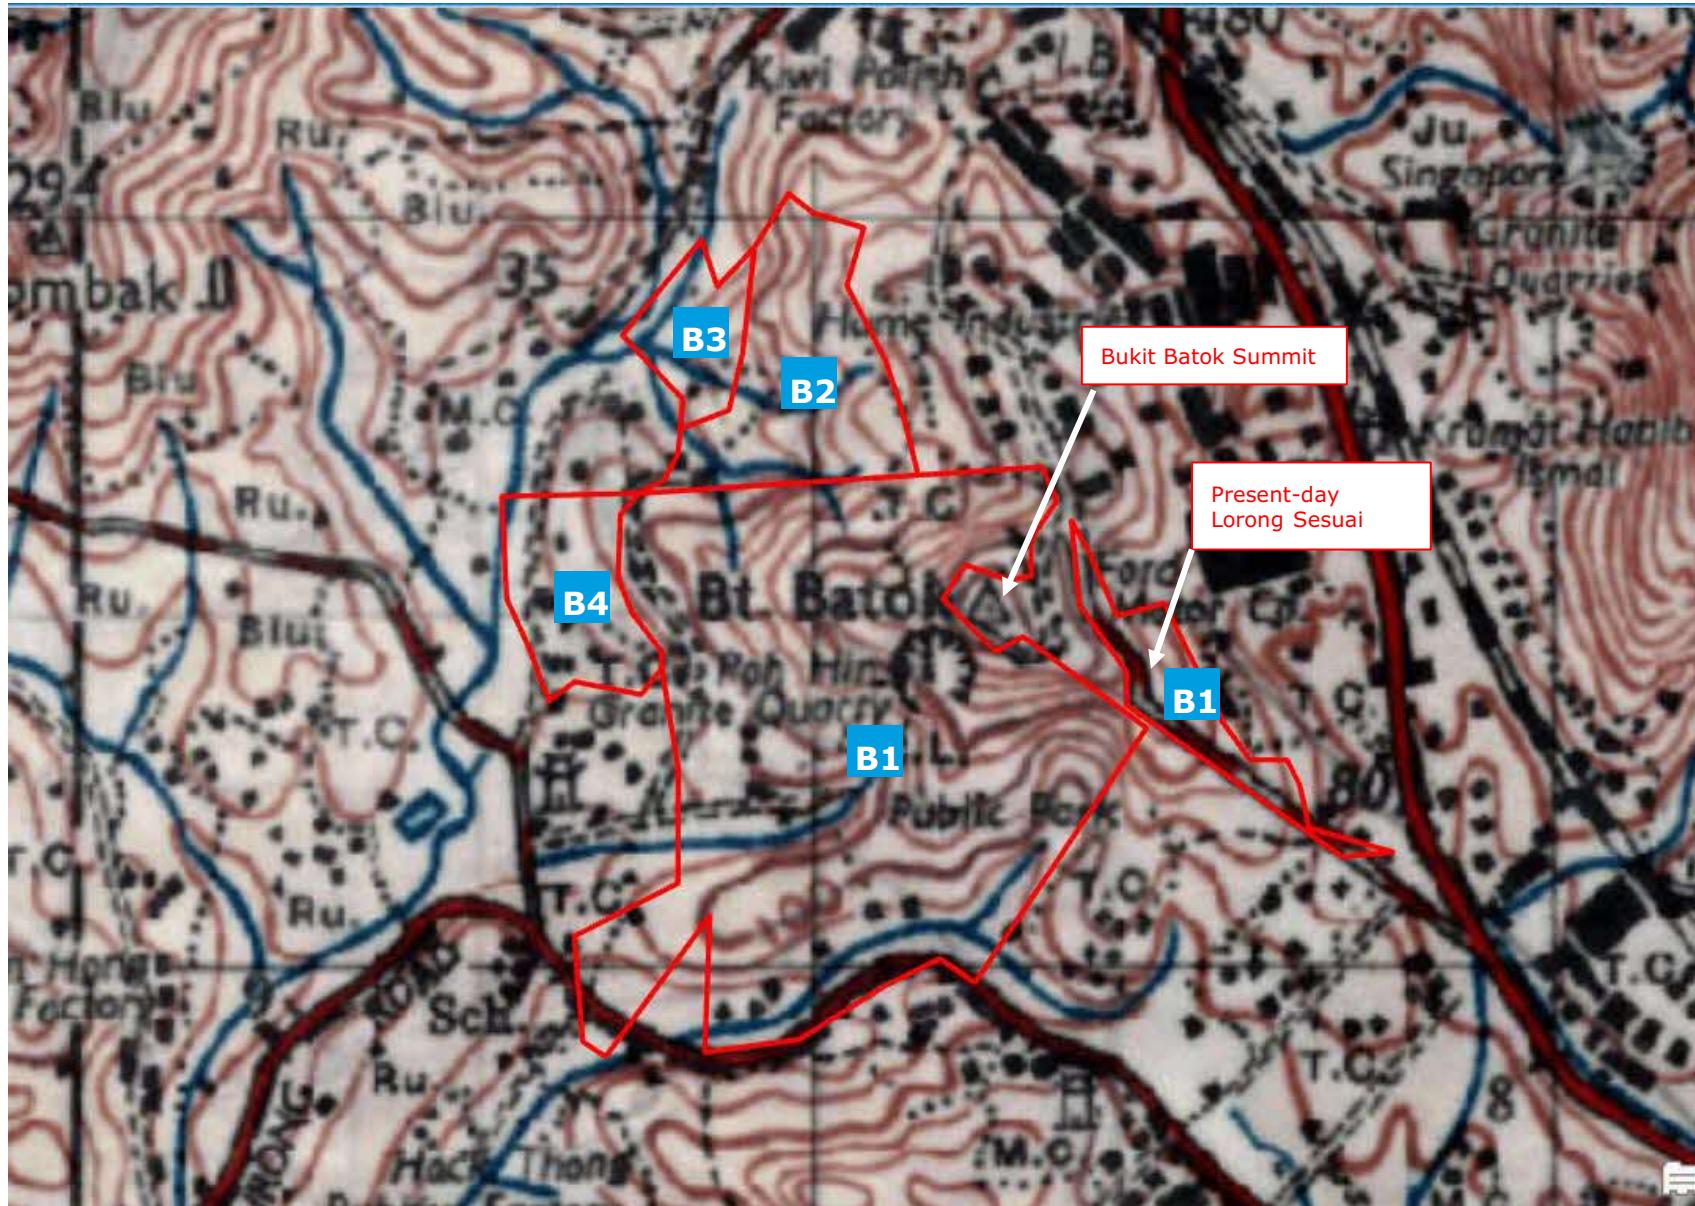

HISTORICAL LAND USE REVIEW

The following sources of information were reviewed:

- National archives from the National Archives of Singapore
<https://www.nas.gov.sg/archivesonline/>
- Information from National Library Board
<https://eresources.nlb.gov.sg/main>
- Historical Maps of Singapore, digitised by the Department of Geography, NUS <https://libmaps.nus.edu.sg/>
- Historical maps published by SLA OneMap
<https://www.onemap.gov.sg/hm/>
- Google Earth historical satellite images
- Review of other publicly available sources (i.e., blogs, etc.)

HISTORICAL LAND USE REVIEW – AREA B

STUDY AREA B (1953)

Area B1

- The present-day Lorong Sesuai is evident
- The Poh Hin/Poh Kim Granite Quarry is evident at the western side of Bukit Batok (Hill 345)
- The quarry started operations in the 1940s
- Southern part of B1 was marked as a public park

Areas B1, B2, B3 and B4

- Scattered structures, likely kampongs and roads are evident at areas around the quarry

STUDY AREA B (1963)

Area B1

- The present-day Lorong Sesuai remained evident at Area B1

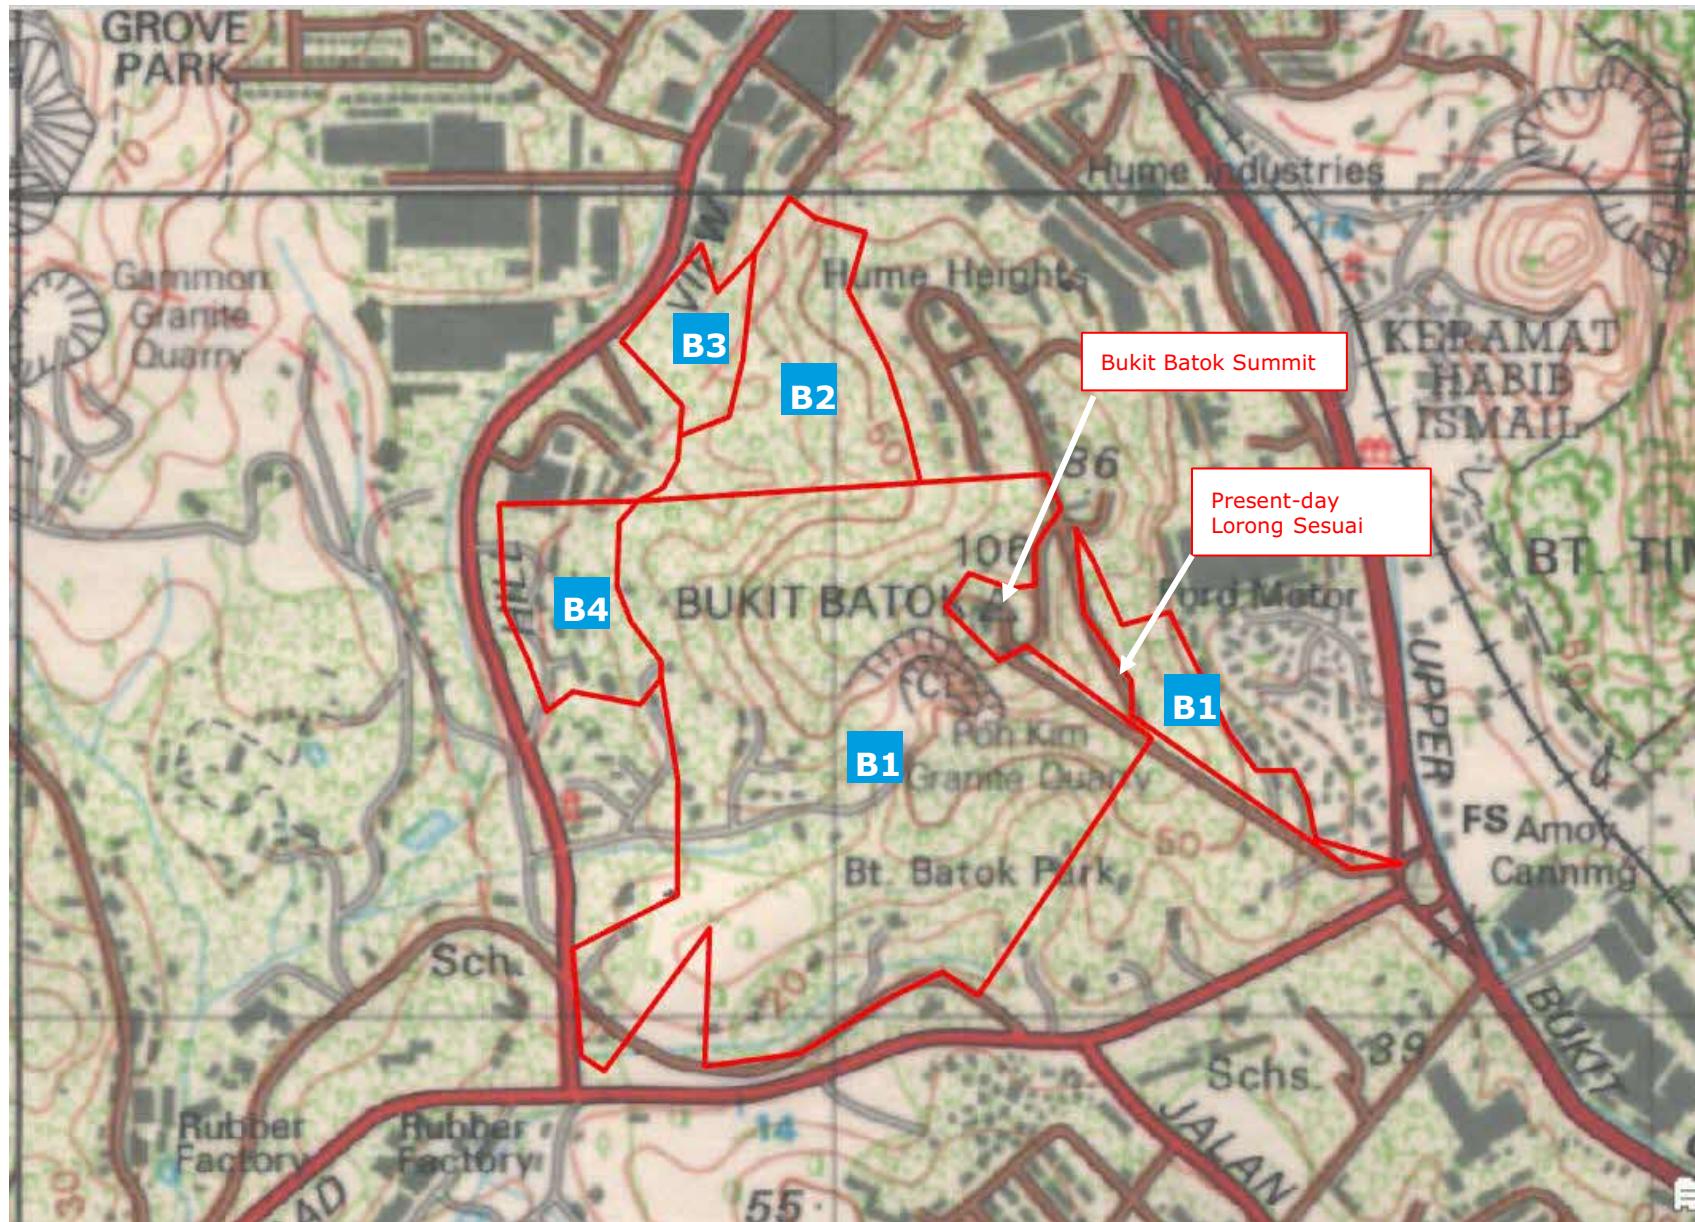

Areas B1, B3 and B4

- Access road were evident

Areas B1, B2, B3 and B4

- Scattered structures, likely kampongs remained evident at areas around the quarry

STUDY AREA B (1975)

Area B1

- The present-day Lorong Sesuai appeared to have been re-aligned

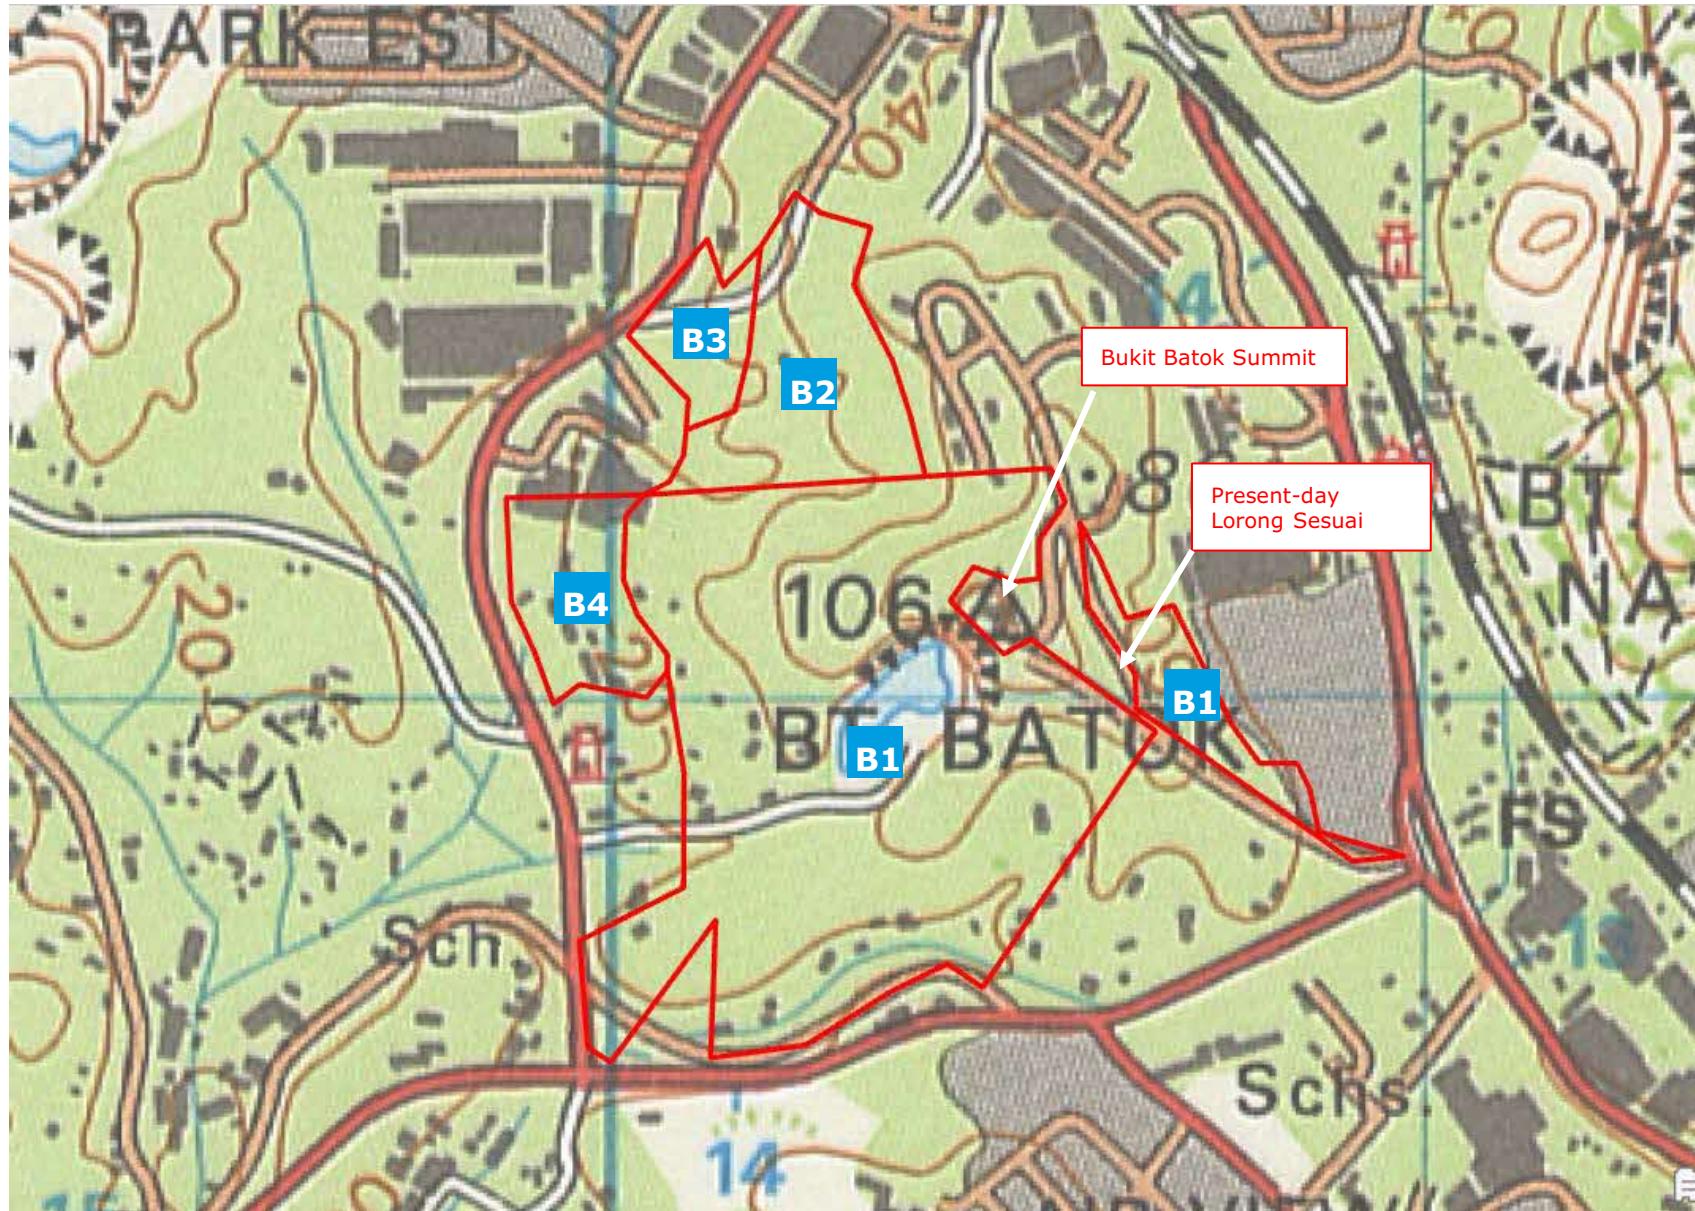

Areas B1 and B4

- More access roads were evident, leading towards the quarry

Areas B1, B2, B3 and B4

- Scattered structures, likely kampongs remained evident at areas around the quarry
- Most of the areas were covered by sundry tree cultivation
- Southwestern corner of Area B1 was covered by shrubs/lalangs

STUDY AREA B (1983)

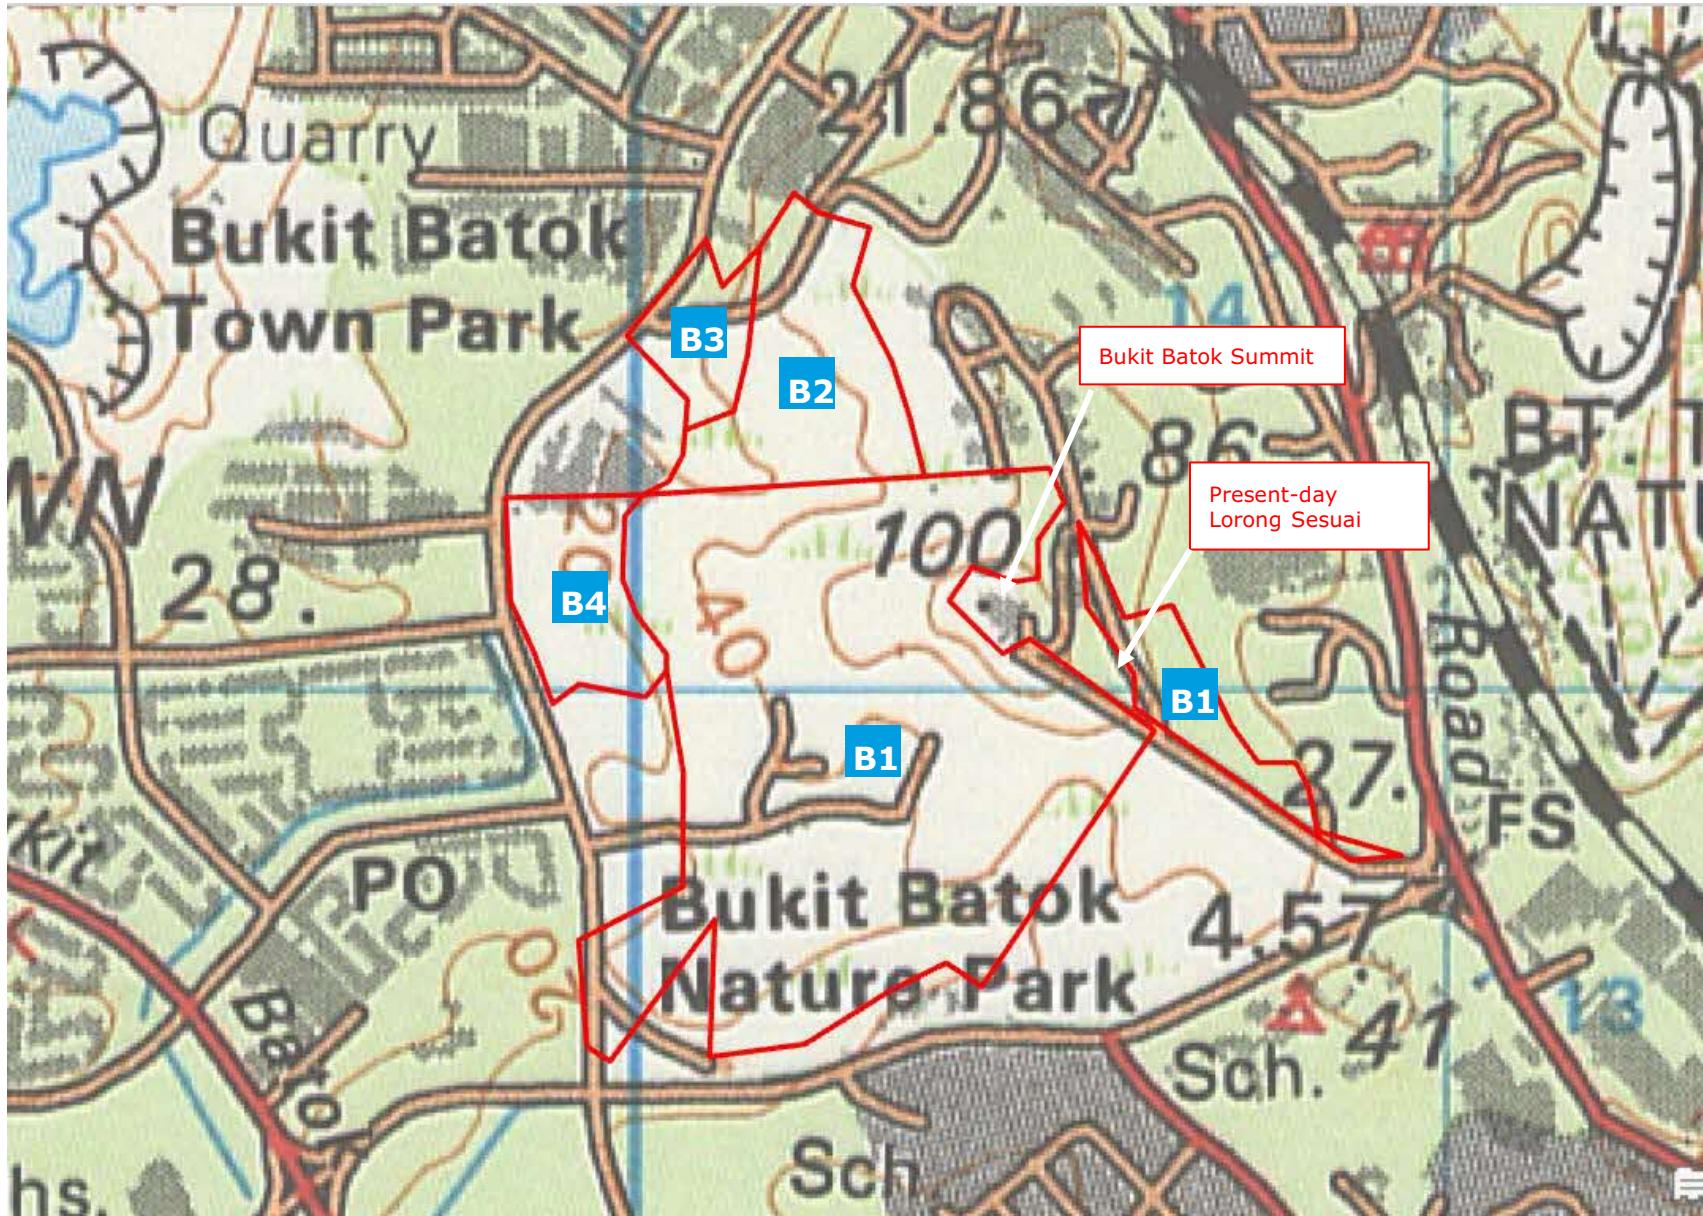

- Area B and surroundings generally remained unchanged
- The quarry ceased operations sometime between late 1970s and early 1980s

STUDY AREA B – POH KIM/POH HIN GRANITE QUARRY

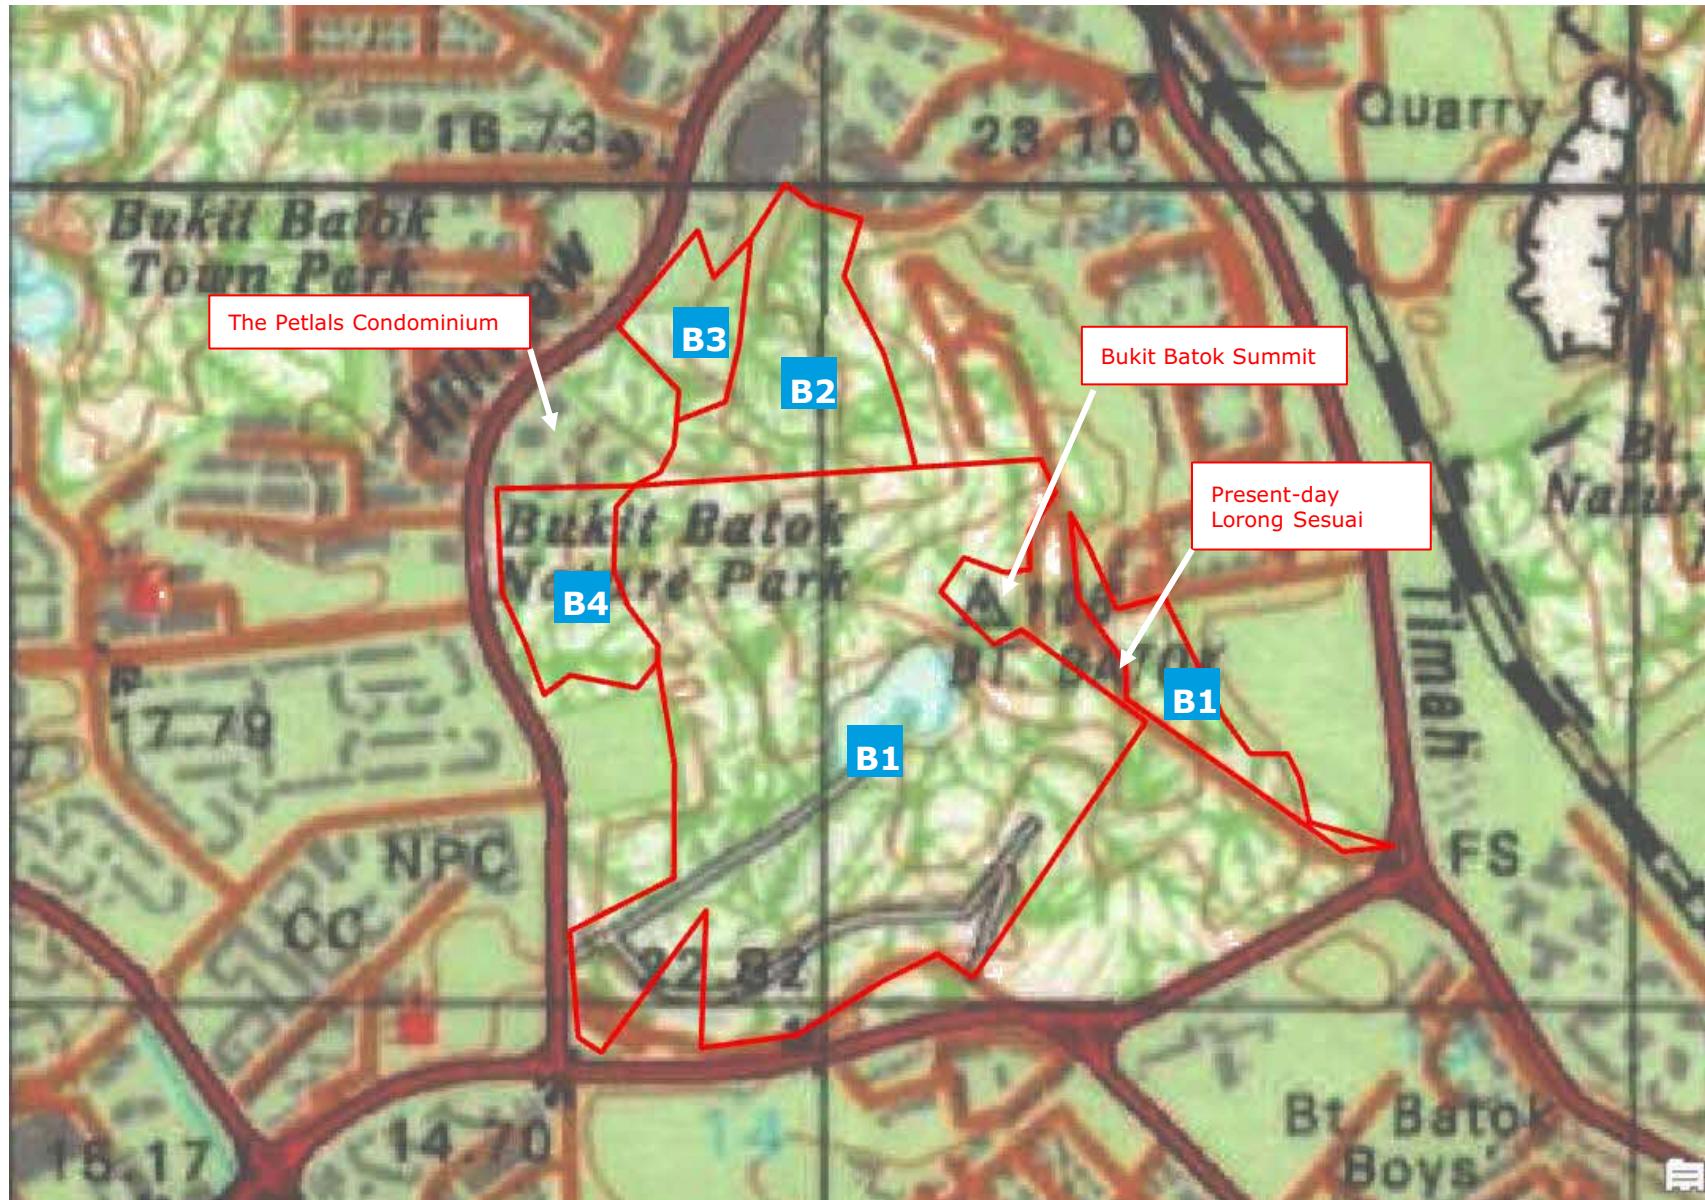

- An overview of the Poh Kim/Poh Hin Granite Quarry, located at the base of Bukit Batok Hill. Photo taken in 1980

STUDY AREA B (1993)

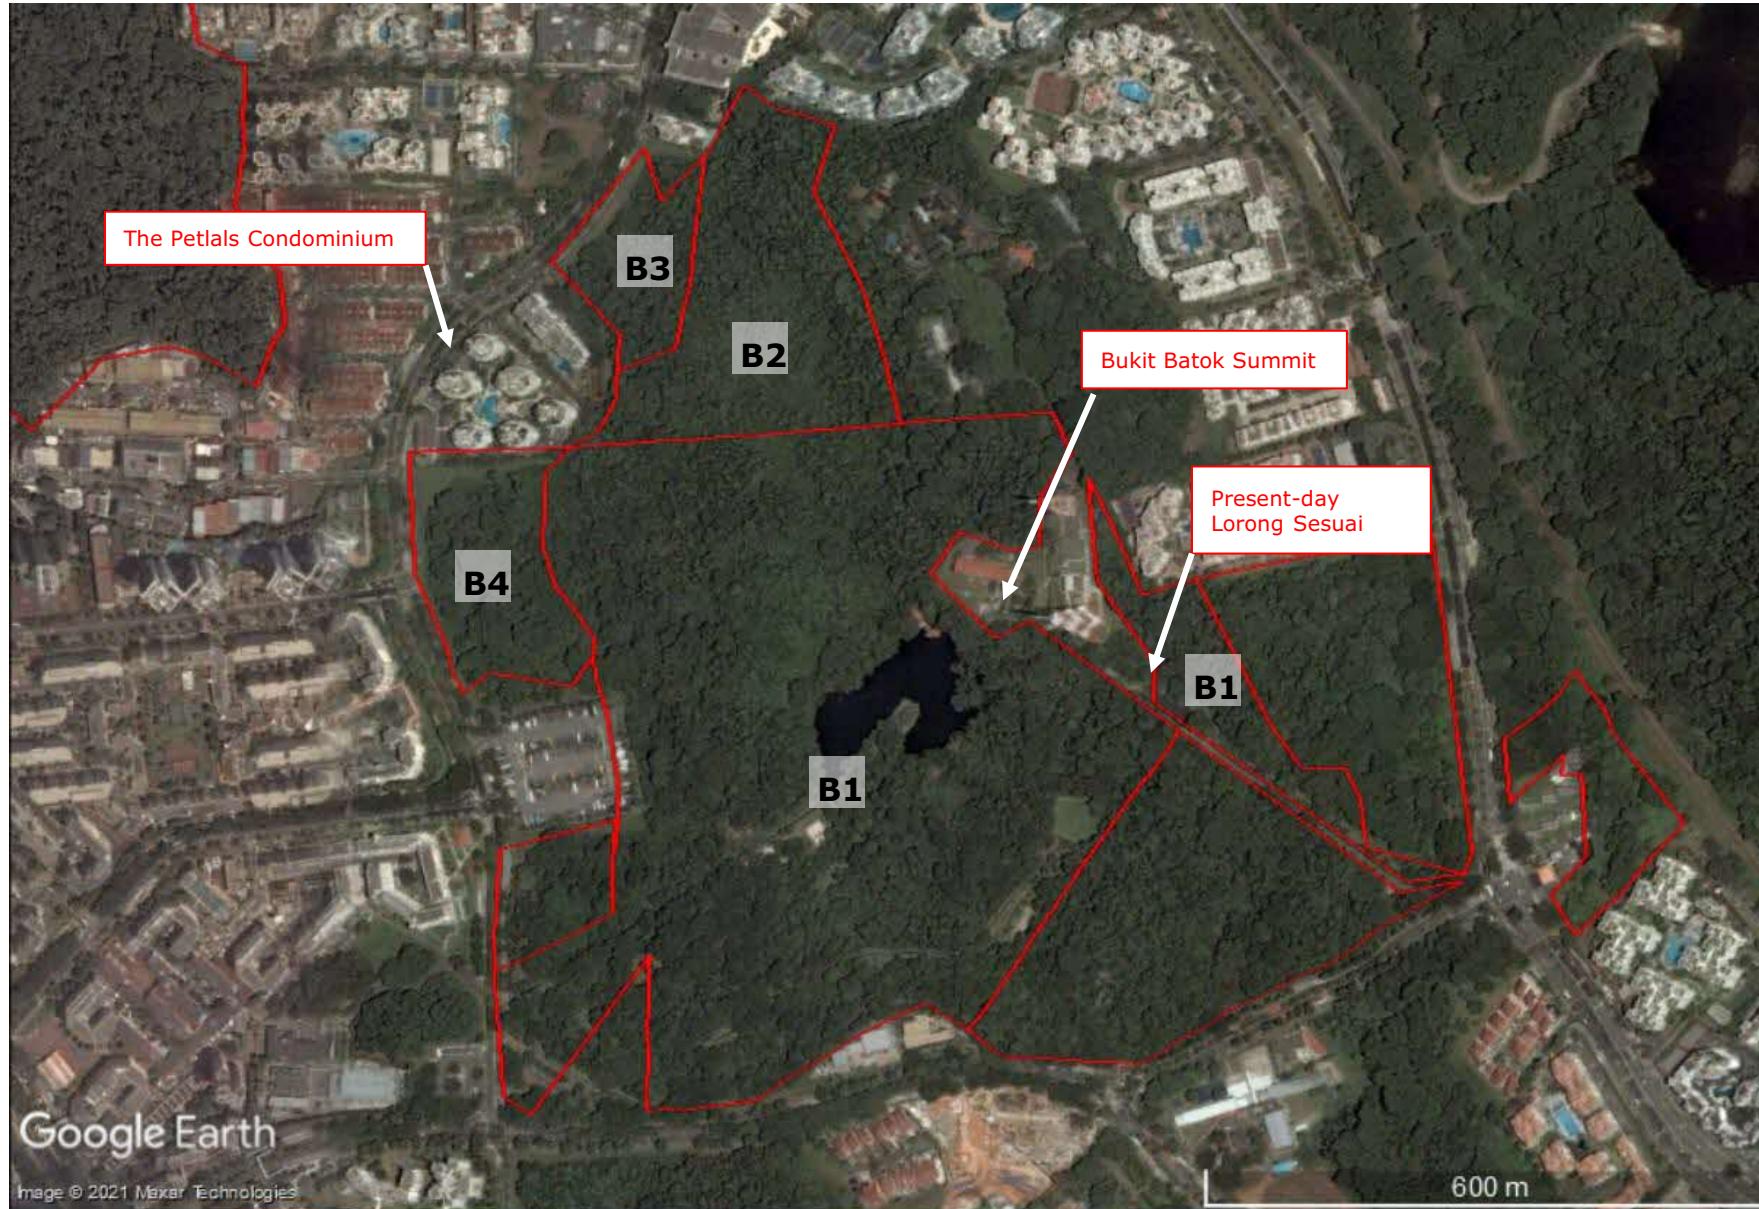

- The site was mostly marked as grassland
 - The disused quarry was subsequently converted to the Bukit Batok Nature Park in 1988
 - The clustered structures were no longer evident
 - Site surroundings generally remained unchanged

STUDY AREA B (2005)

- Study Area B was marked as a park
- Access roads were evident towards the southwestern corner to Area B1
- The Petals Condominium, which occupies part of the northern portion of Area B4, was constructed in 2002

STUDY AREA B (2009)

- Area B and surroundings generally remained unchanged

STUDY AREA B (2010)

- Area B and surroundings generally remained unchanged

STUDY AREA B (2019)

- Area B and surroundings generally remained unchanged

HISTORICAL LAND USE REVIEW – AREA C

STUDY AREA C1 AND C2 (1948)

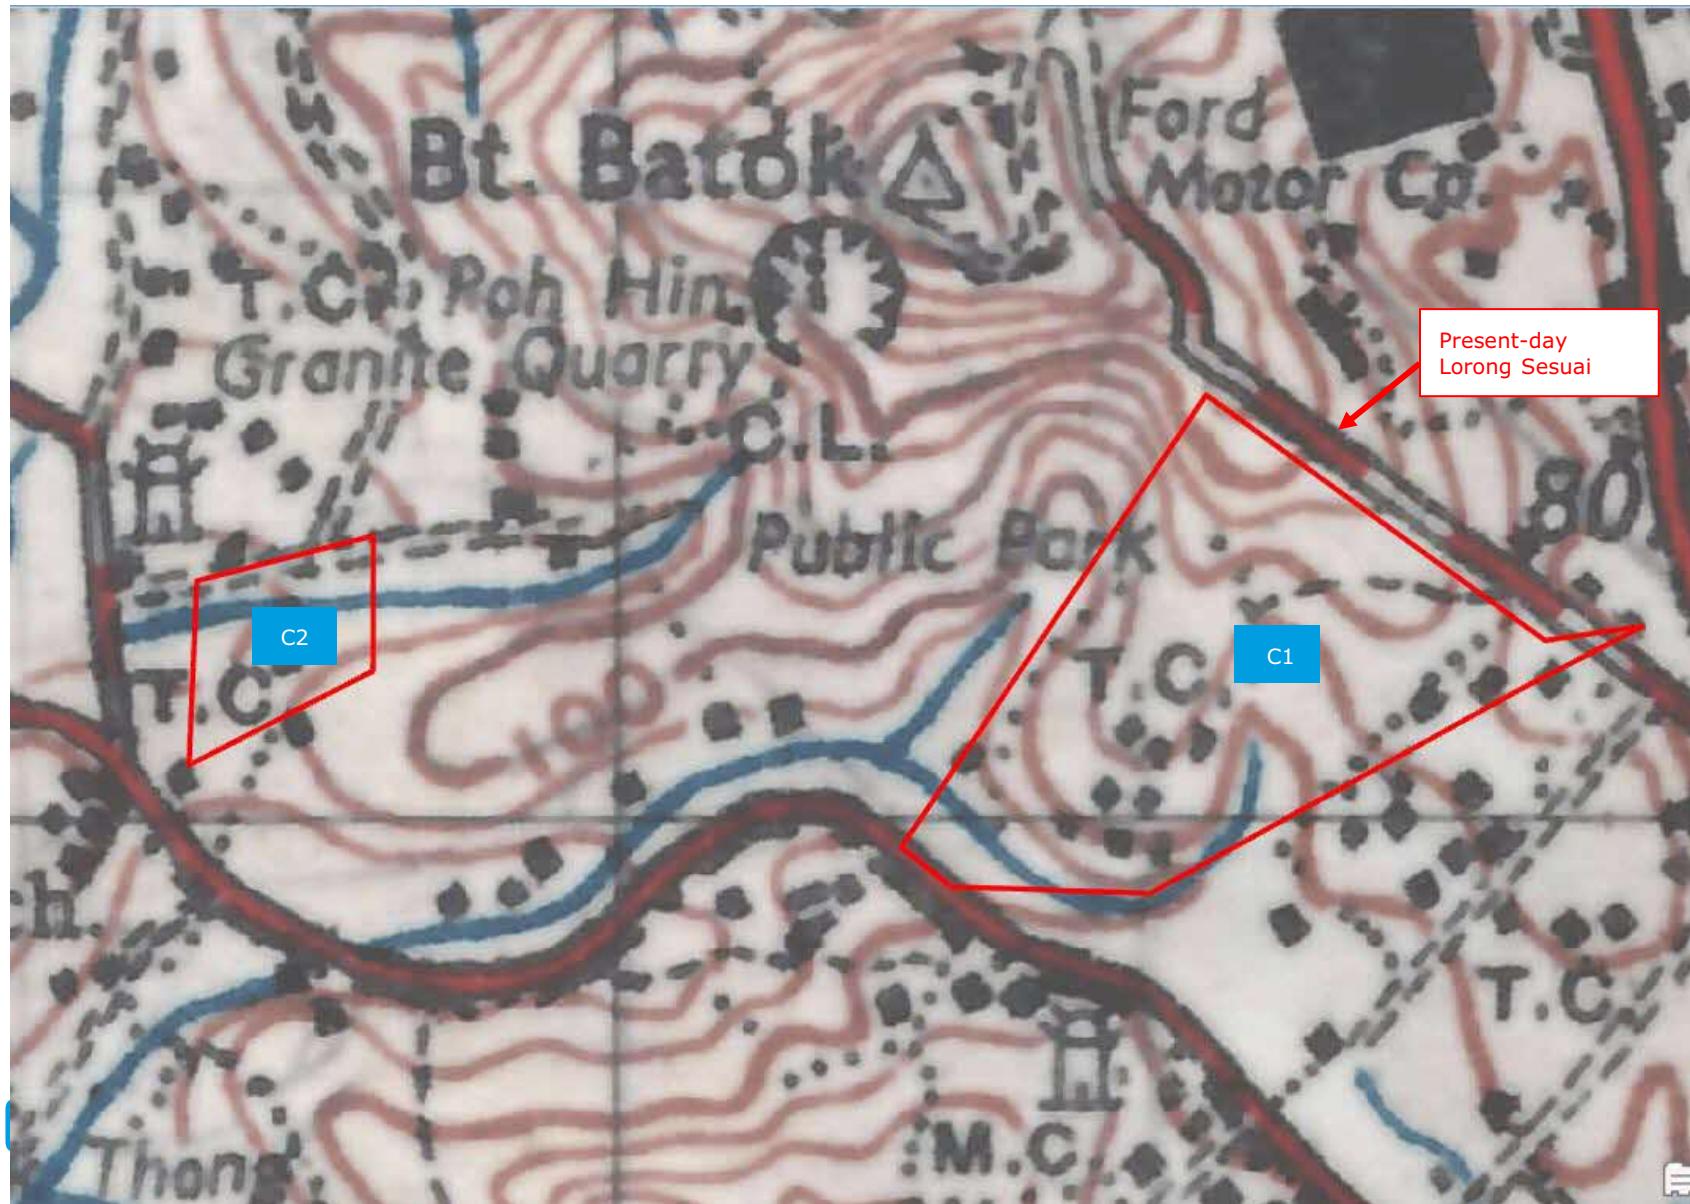

Area C1

- Clustered structures, appeared to be houses and roads are evident at the centre-south of Area C1
- The present-day Lorong Sesuai, leading towards the Bukit Batok Summit is located along the northeastern boundary of Area C1

Area C2

- Scattered structures, likely kampongs and roads observed with Area C2

STUDY AREA C (1953)

Area C1

- Site surroundings generally remained unchanged
- The surrounding areas were designated T.C. which indicates that it was used for Tree Cultivation – Unclassified and Mixed

Area C2

- Site surroundings generally remained unchanged
- The surrounding areas were designated T.C. which indicates that it was used for Tree Cultivation – Unclassified and Mixed

STUDY AREA C (1963)

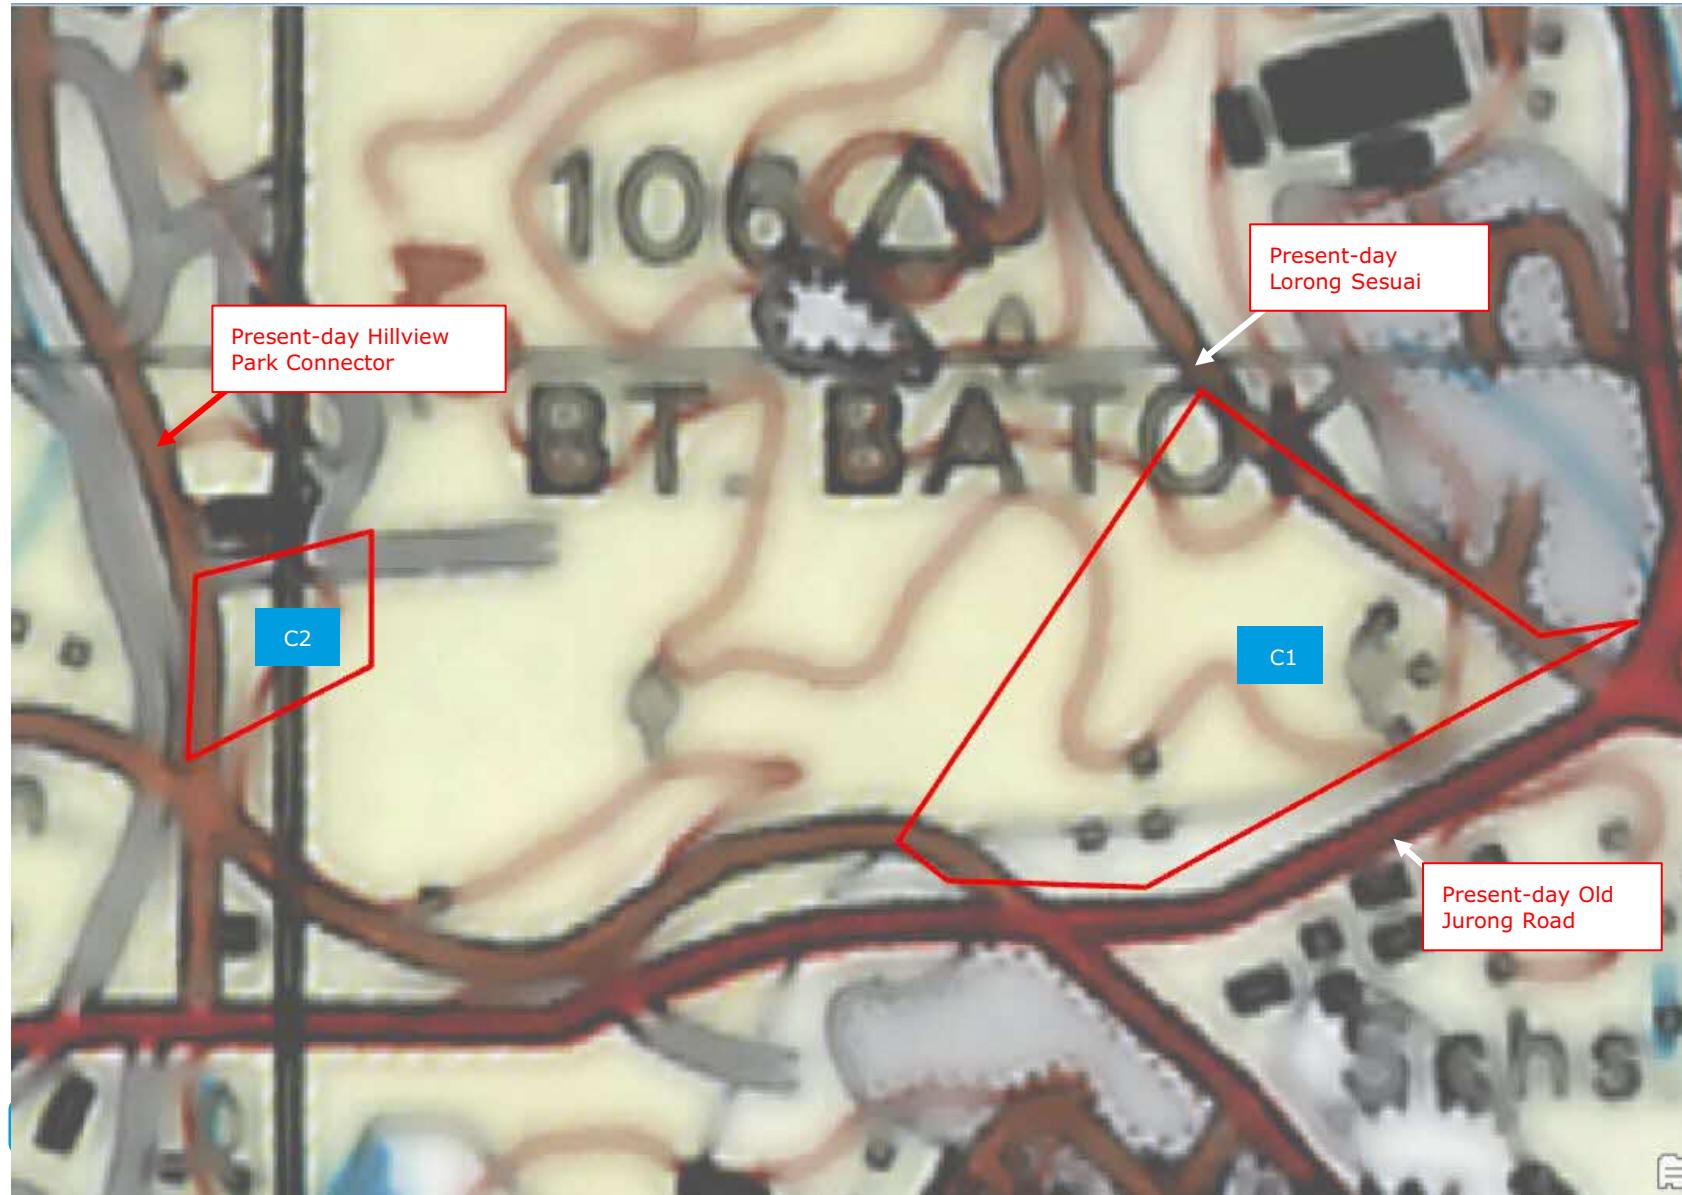

Area C1

- Site surroundings generally remained unchanged

Area C2

- The scattered structures previously observed in the 1953 top plan are no longer evident

STUDY AREA C (1974)

Area C1

- Site surroundings generally remained unchanged
- The present-day Old Jurong Road is evident along the southern boundary of Area C1

Area C2

- A new road (the present-day Hillview Park Connector) is evident along the western boundary of Area C2

Areas C1 and C2

The Poh Hin quarry ceased operations in the late 1970s

STUDY AREA C (1983)

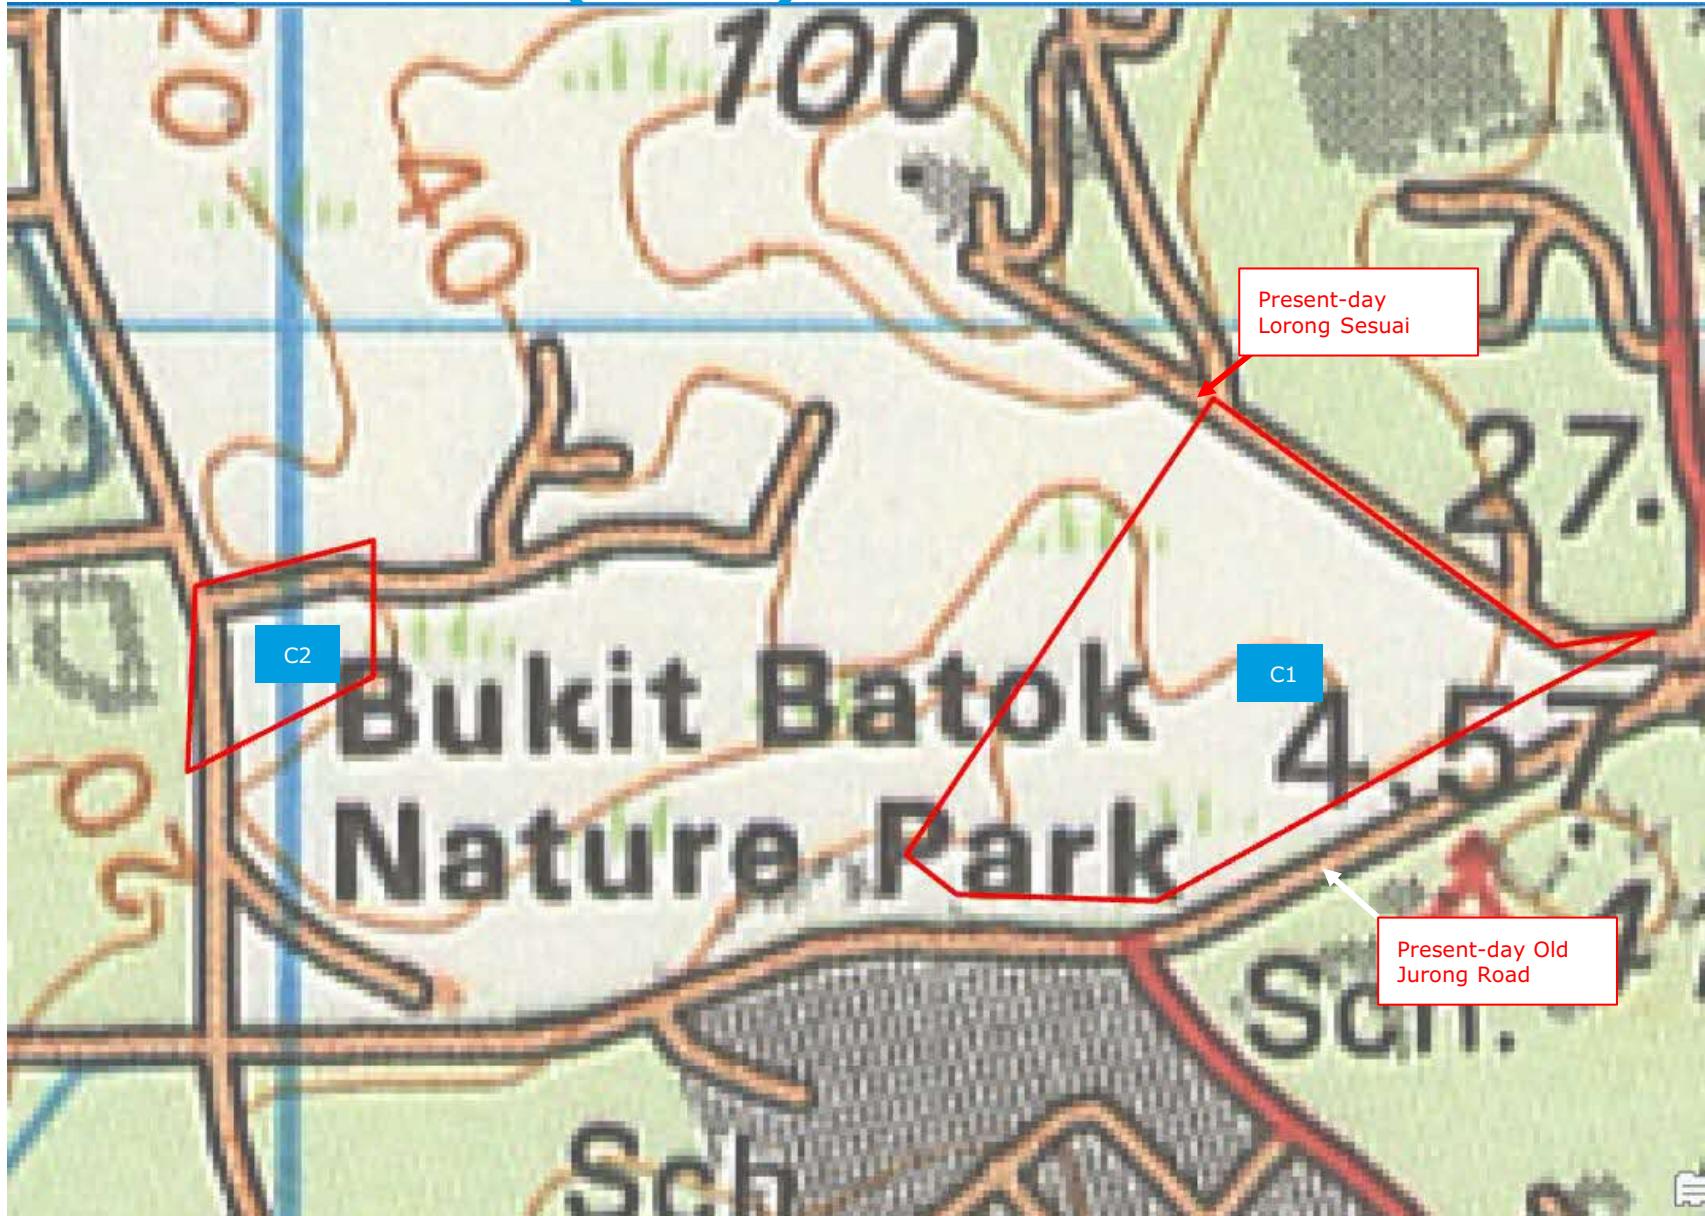

Area C1

- More clustered structures were evident towards the northwestern boundary of Area C1

Area C2

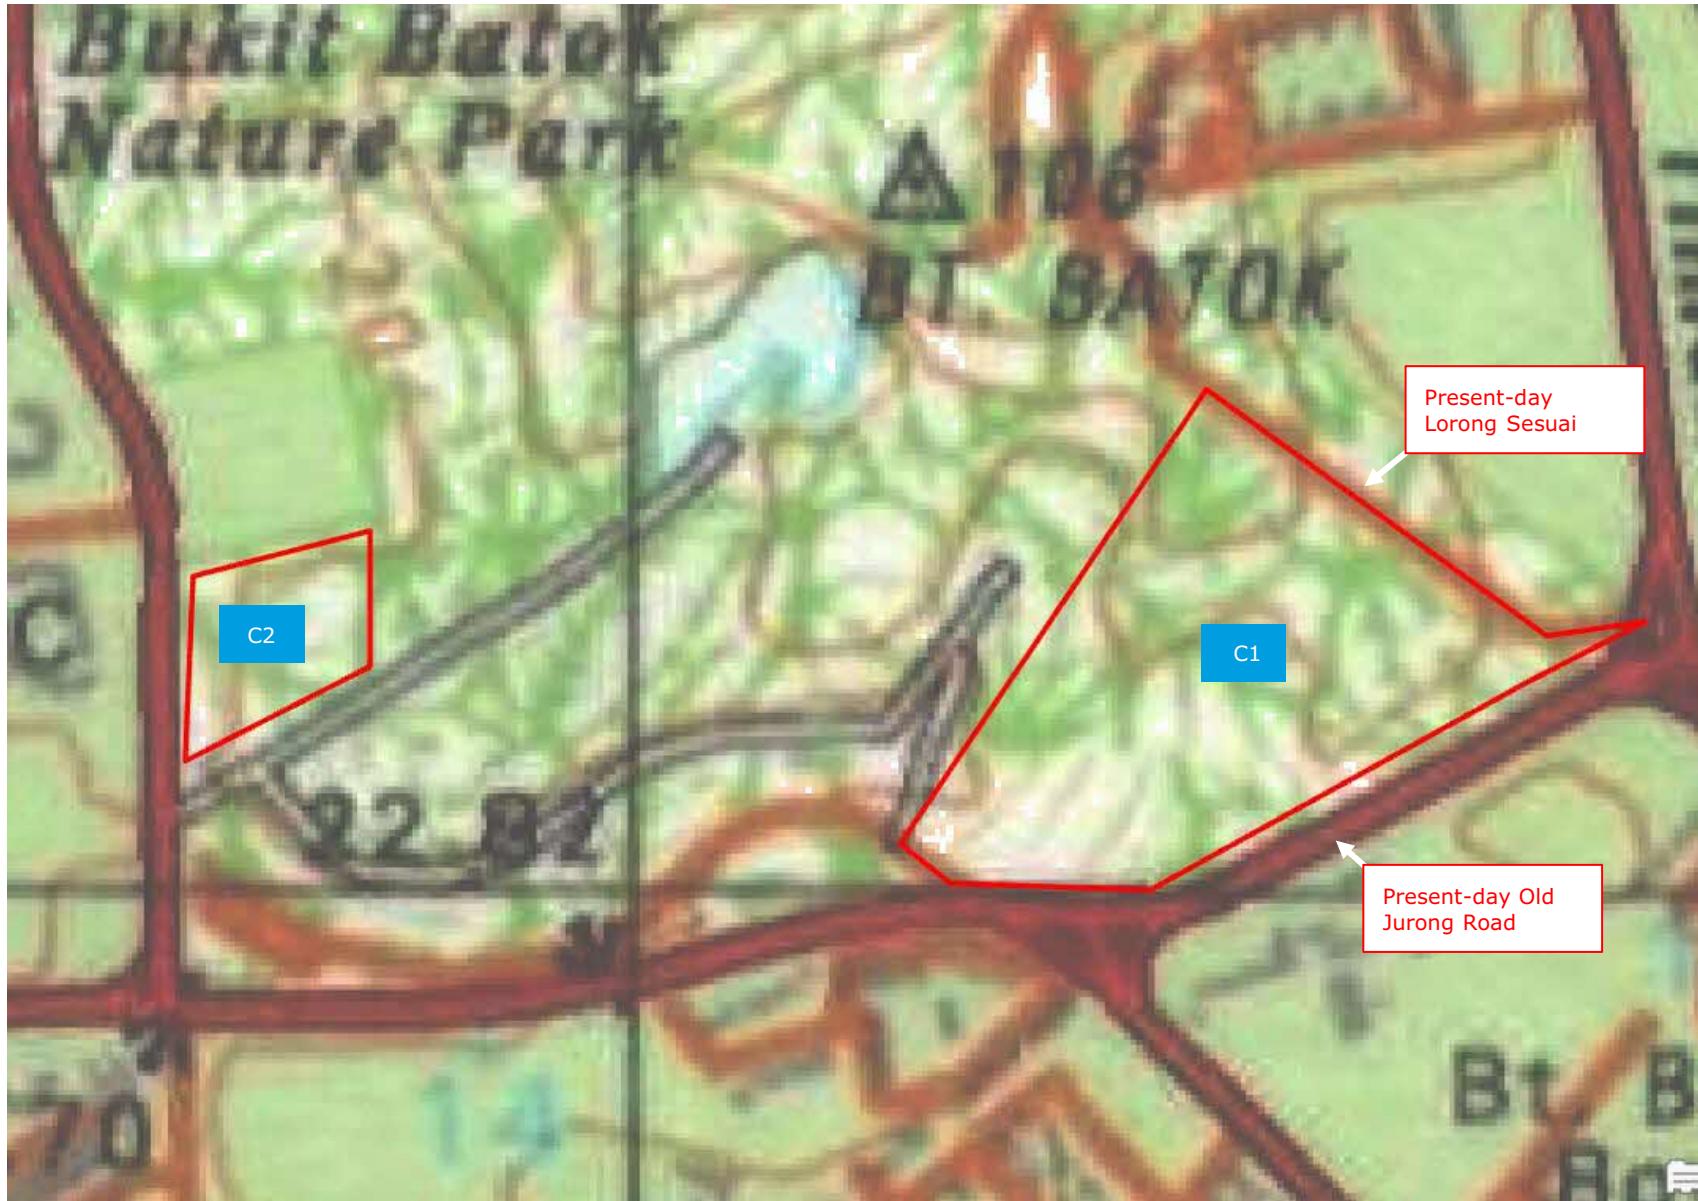

- Site surroundings generally remained unchanged

STUDY AREA C (1993)

- Site surroundings generally remained unchanged
- Area C1 and C2 were mostly marked as grassland
- The area was subsequently converted to the Bukit Batok Nature Park in 1988
- The scattered / clustered structures at C1 and C2 were no longer evident

STUDY AREA C (2005)

Area C1

- Access road was evident towards the northwestern boundary of C1

Area C2

- The previous access road running across Area C1 (west-east) were no longer evident
- A new road was evident to the south of Area C2, leading towards the quarry lake

Areas C1 and C2

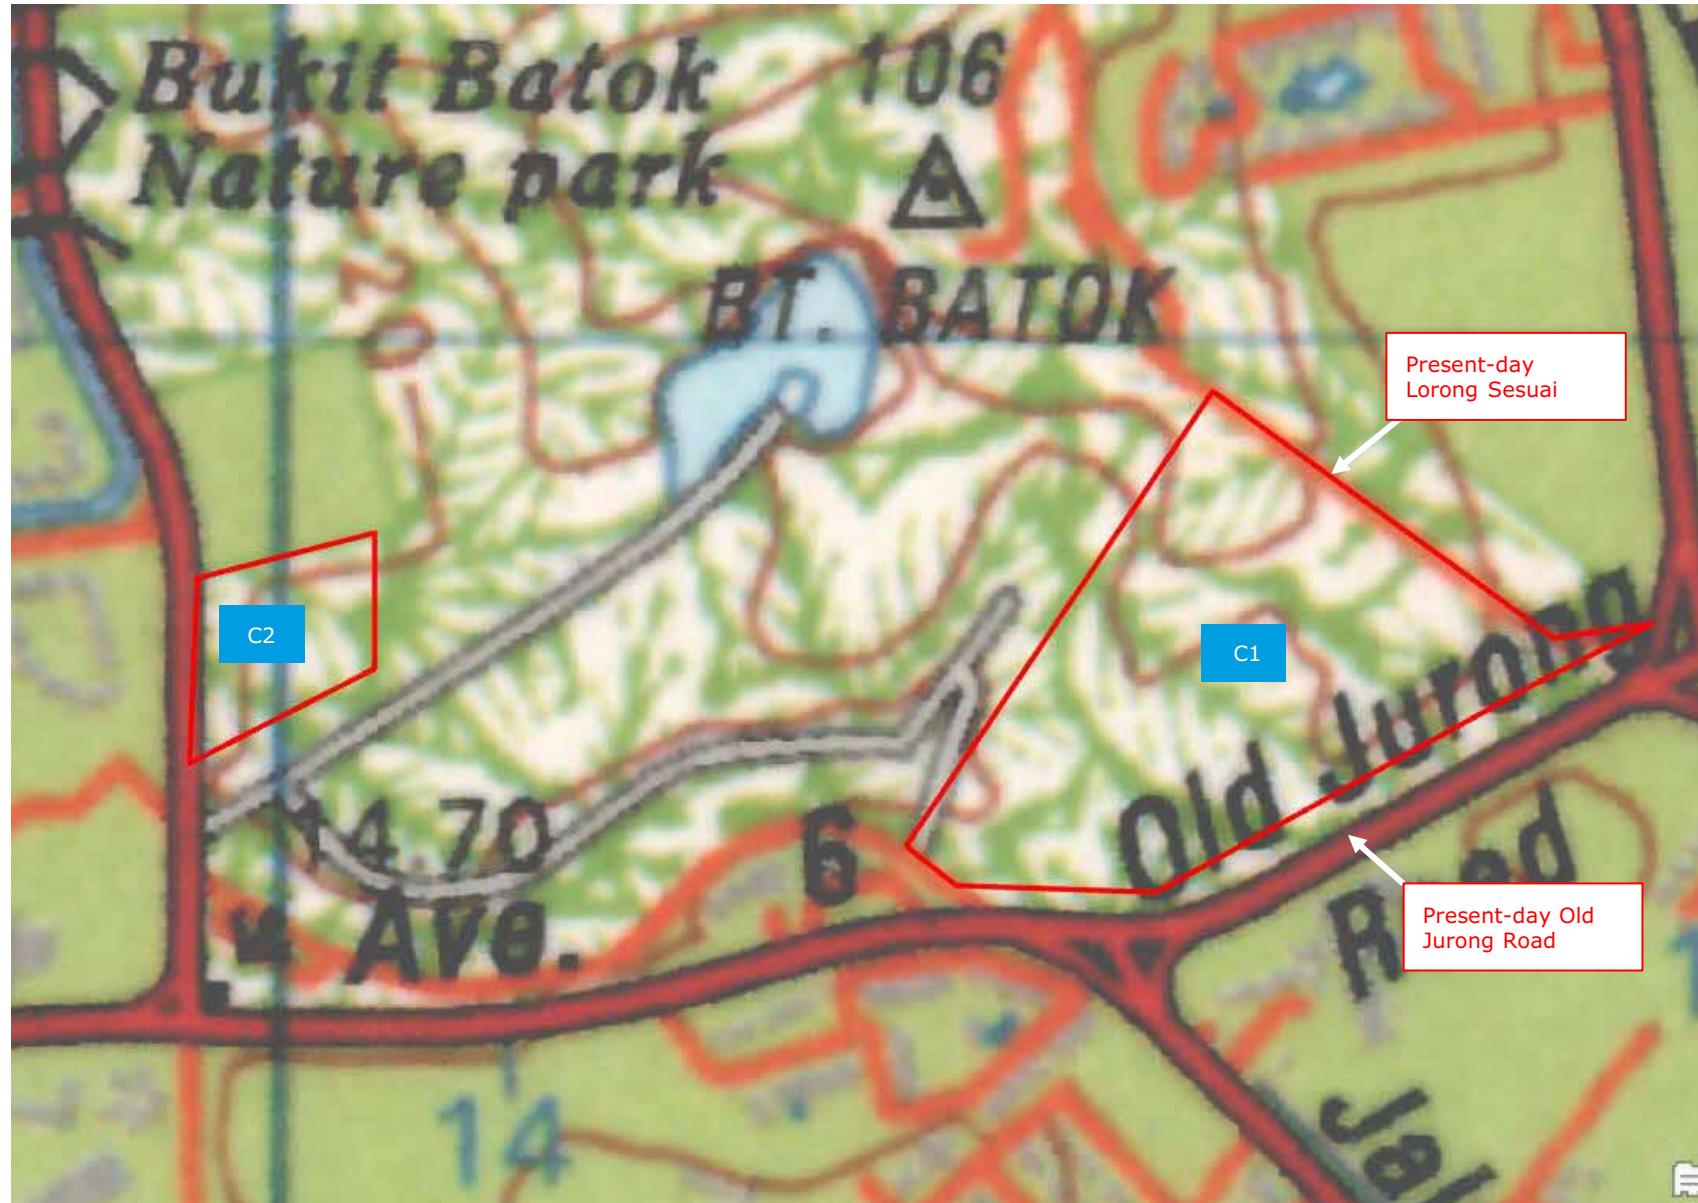

- Both Area C1 and C2 were marked as a park

STUDY AREA C (2009)

- Site surroundings generally remained unchanged

STUDY AREA C (2010)

- Site surroundings generally remained unchanged

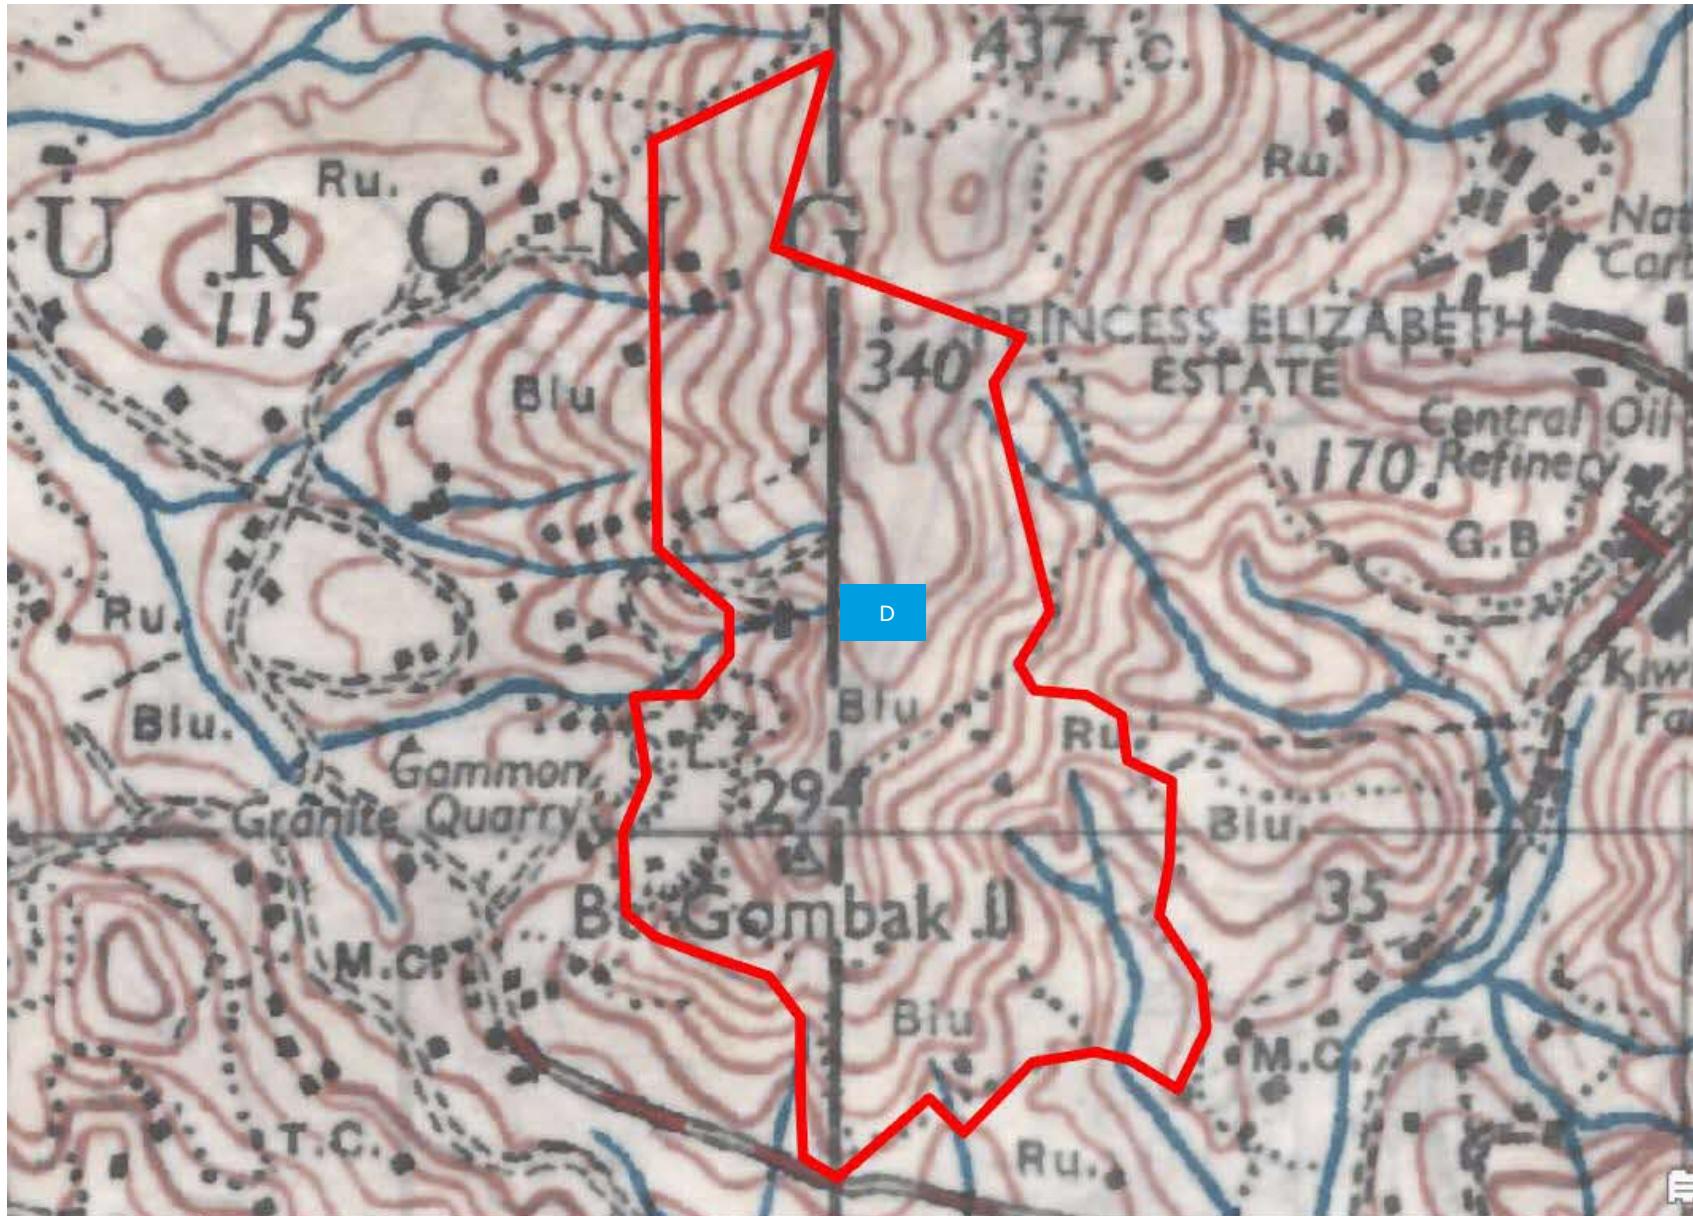

STUDY AREA C (2019)

- Site surroundings generally remained unchanged

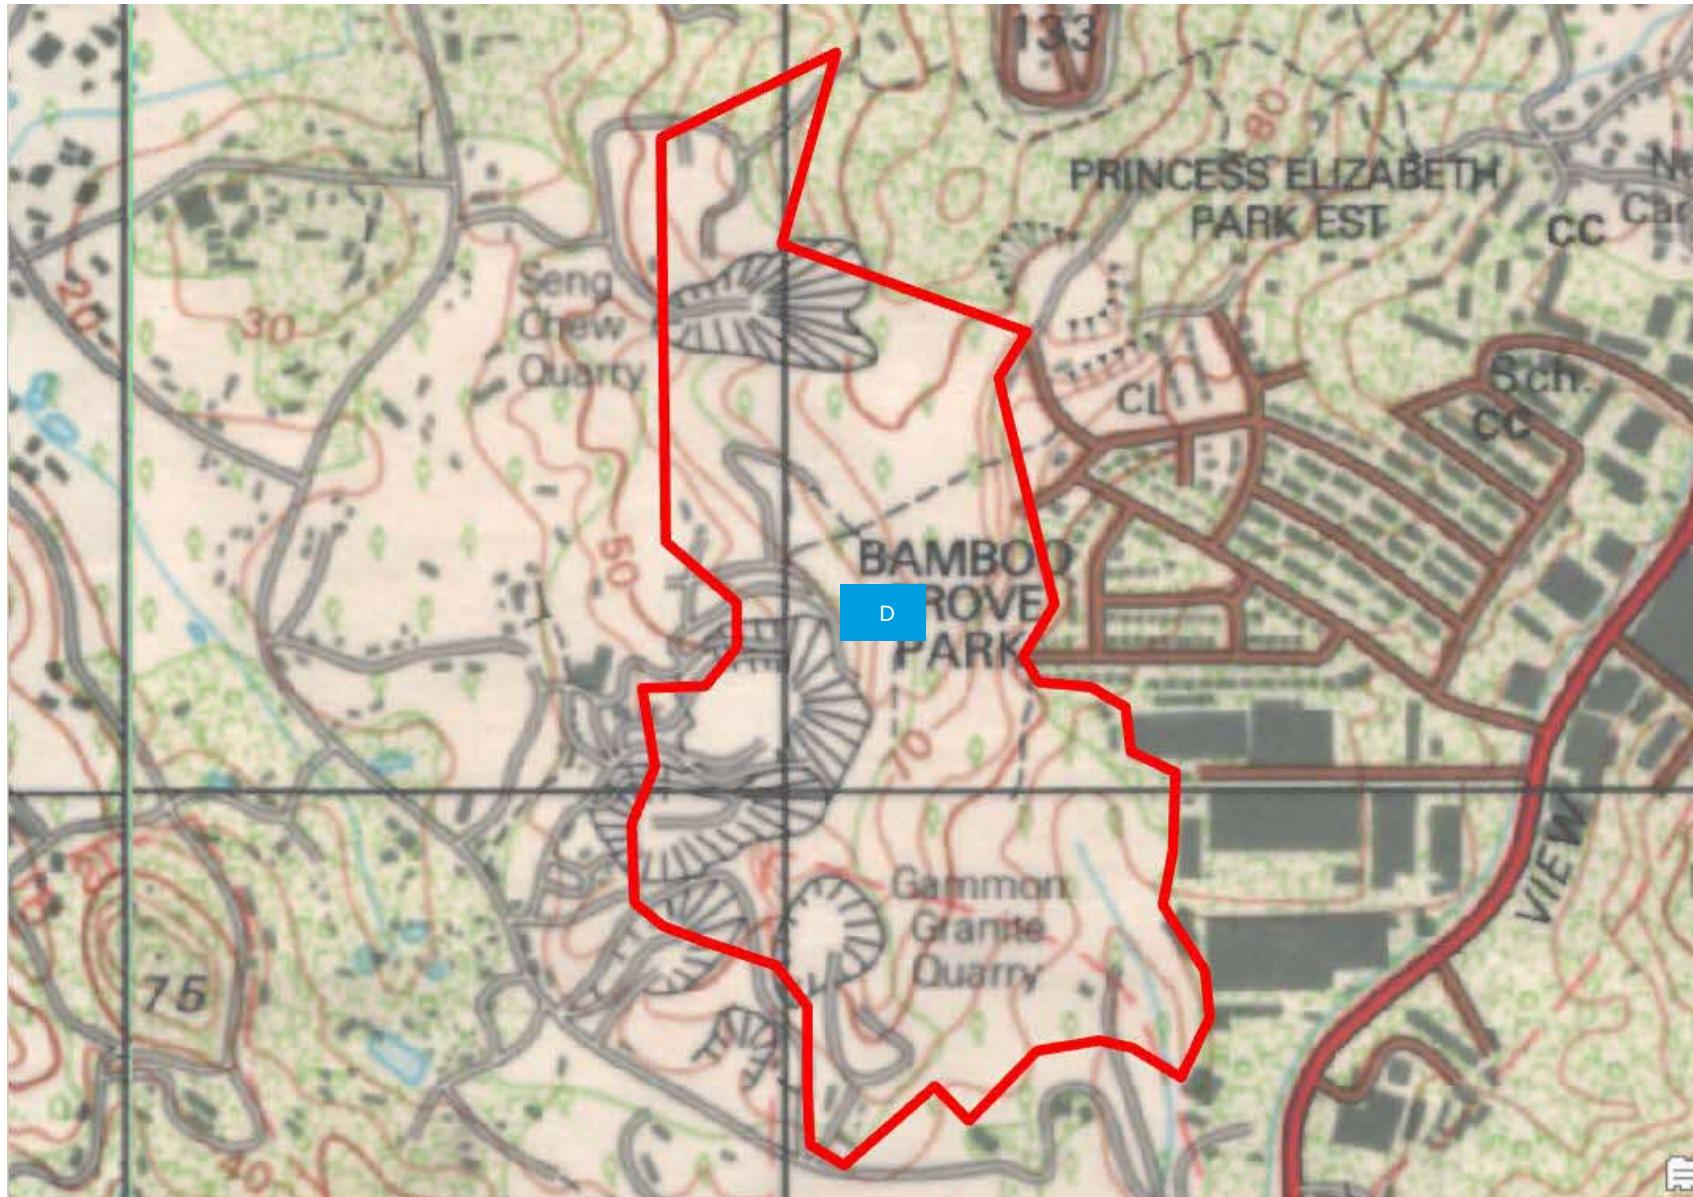

HISTORICAL LAND USE REVIEW – AREA D

STUDY AREA D (1953)

- The Gammon Granite Quarry (known as Little Guilin today) is evident towards the southwestern portion of Area D
 - The quarry most likely had started operations in the 1940s
 - Scattered structures, likely kampongs and roads were observed
 - The remaining areas were generally covered by belukar (bushes) and rubber cultivations

STUDY AREA D (1975)

- The Seng Chew Quarry to the north of Area D is present; it ceased operations in the 1970s
- The Bamboo Grove Park, a private residential development completed in 1968, was evident to the east of Area D

STUDY AREA D (1983)

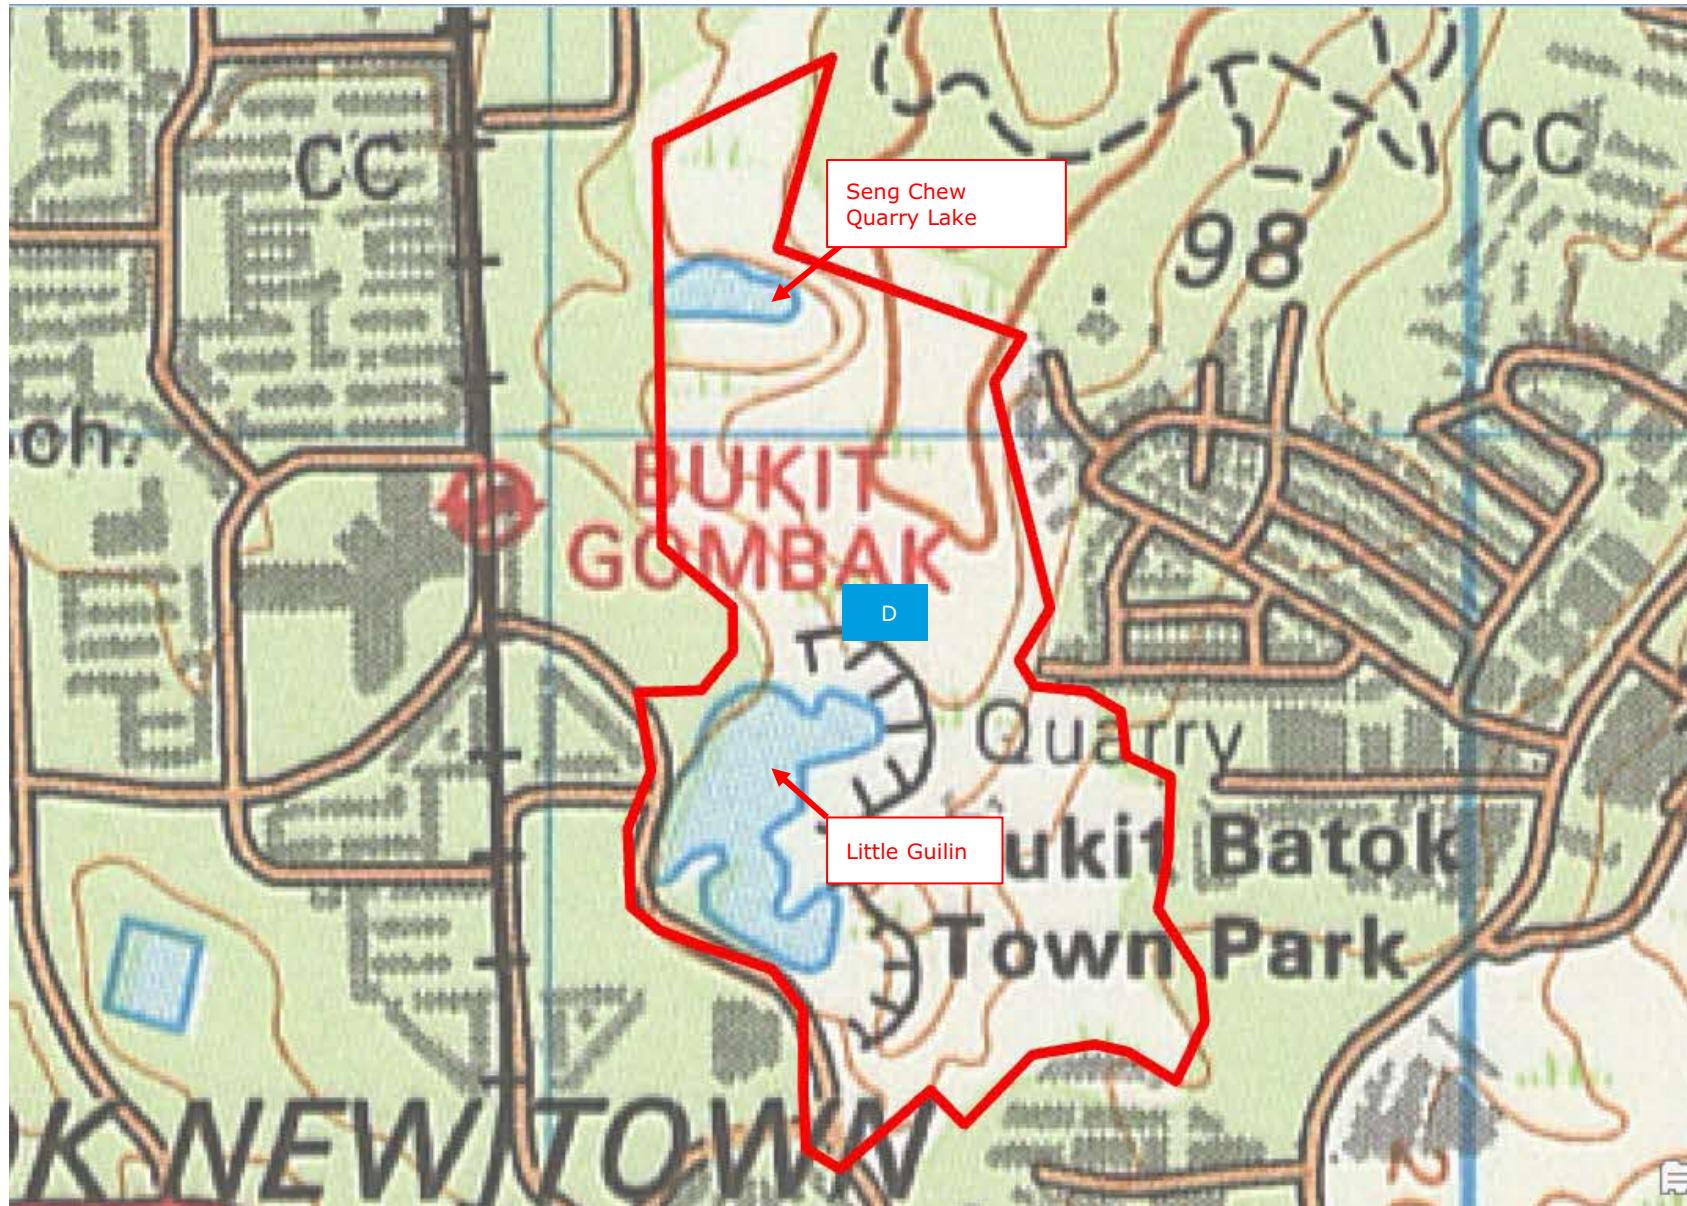

- The Gammon Granite Quarry ceased operations ~1984
- The area was subsequently converted to the Bukit Batok Town Park
- Most of the previously observed scattered structures and roads were no longer evident

STUDY AREA D (1984 VS 2022)

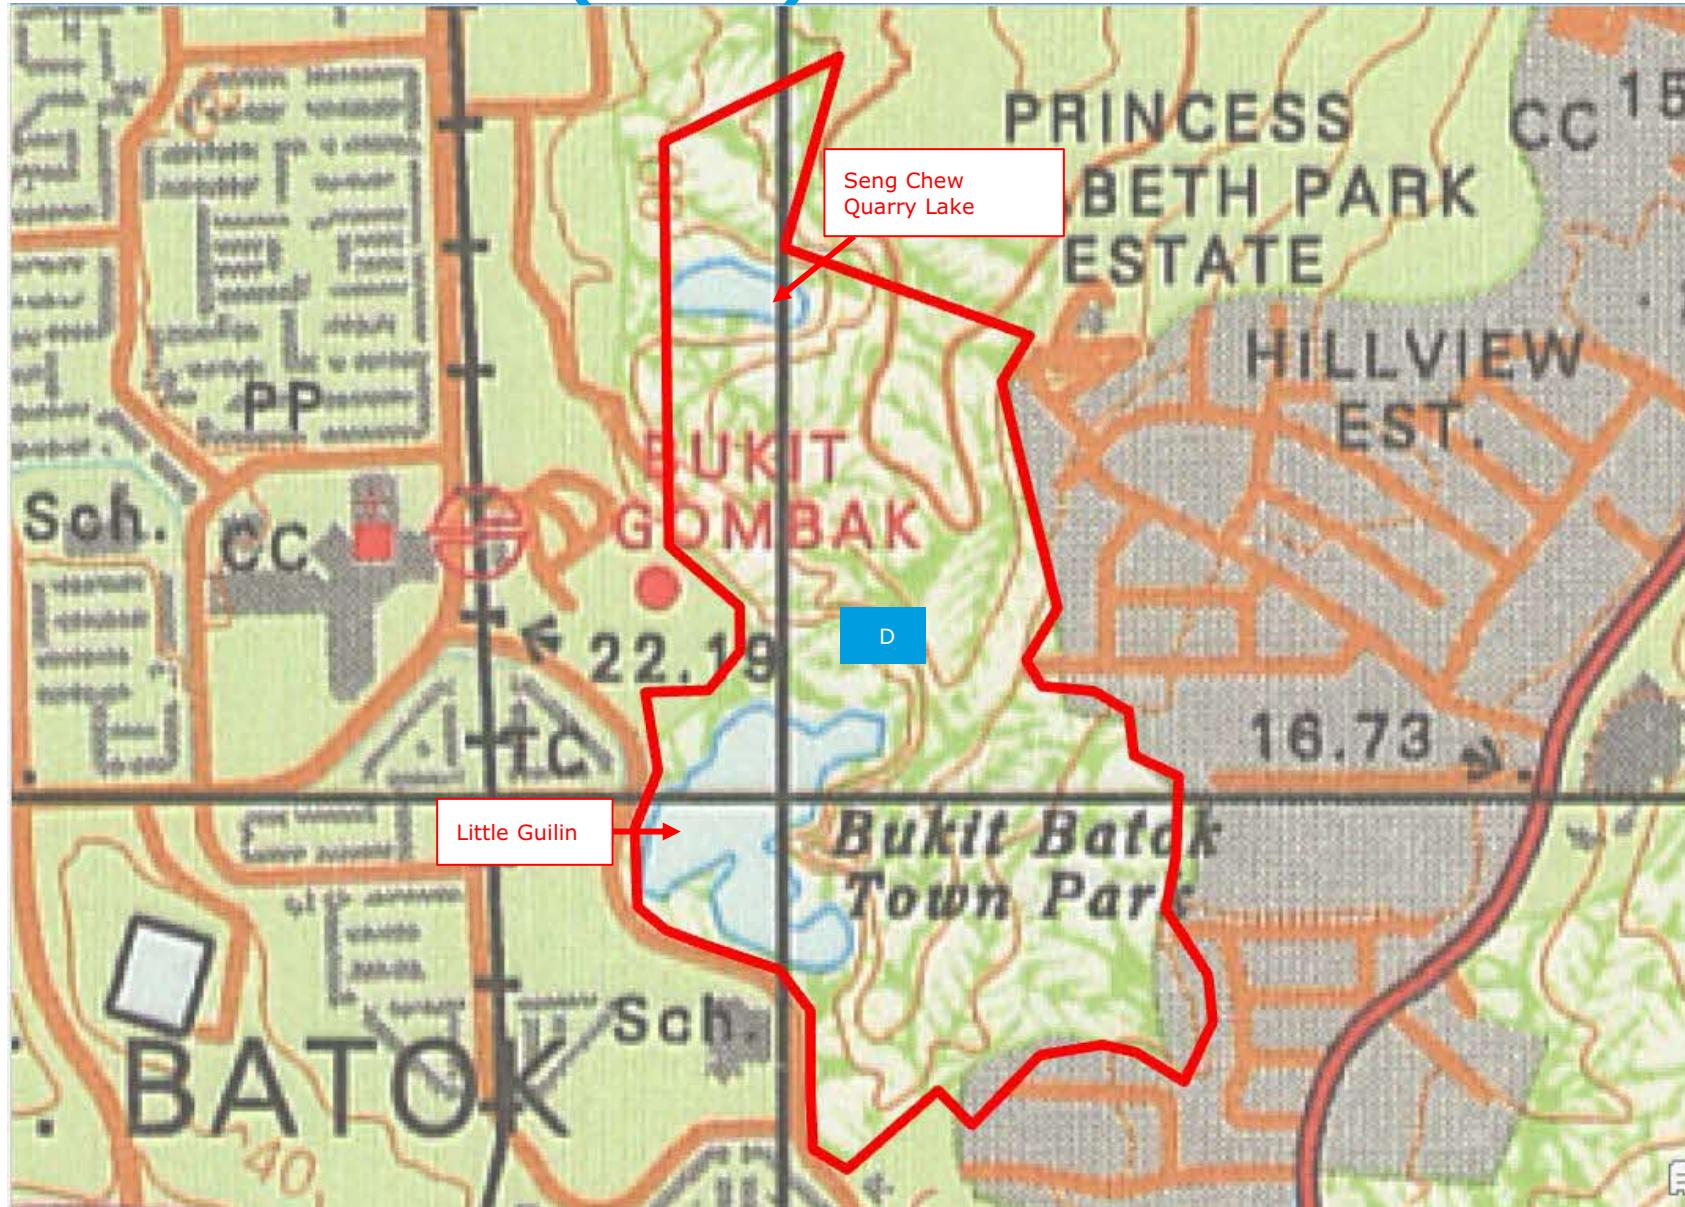

- Former Gammon Granite Quarry (1984) (left) and Little Guilin (2022) (right)

STUDY AREA D (1993)

- Bukit Batok Town Park is evident
- Area D was mostly marked as grassland

STUDY AREA D (1998)

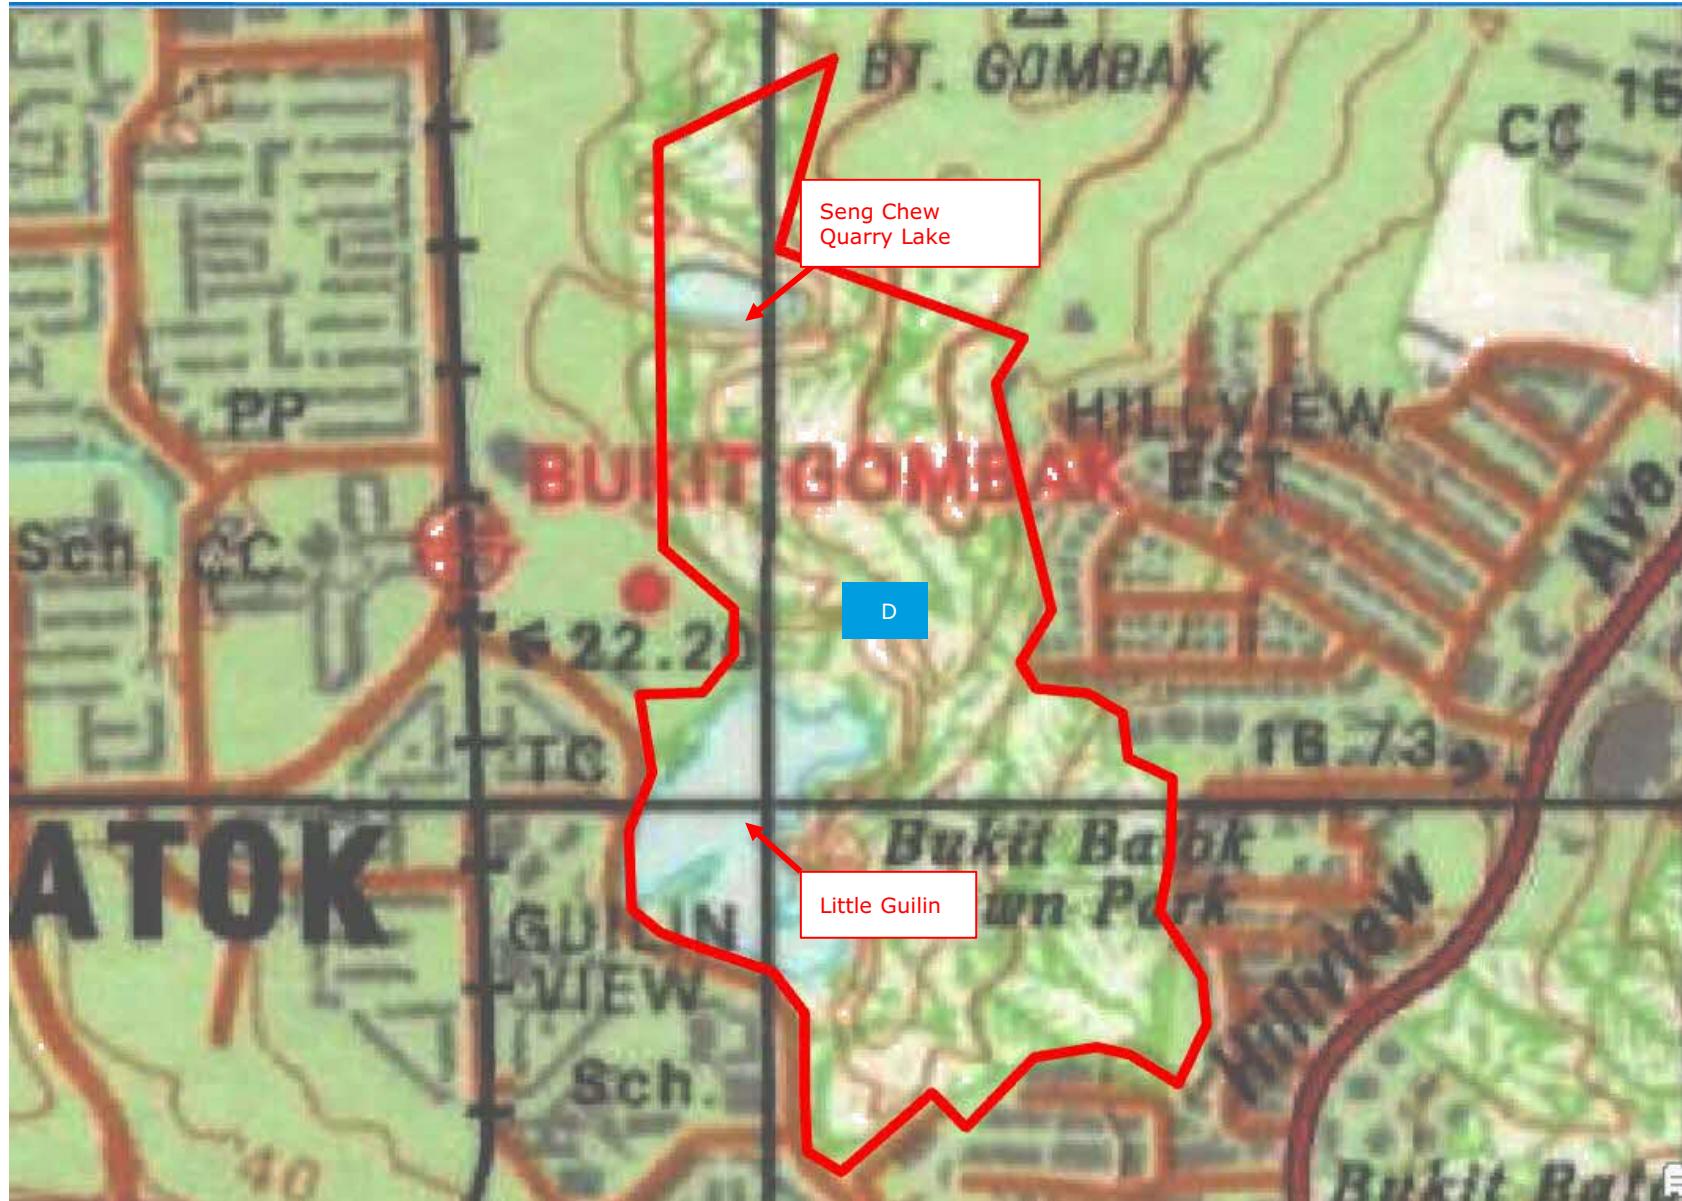

- Whole of Area D was marked as a park
- Area D and surroundings generally remained unchanged

STUDY AREA D (2001)

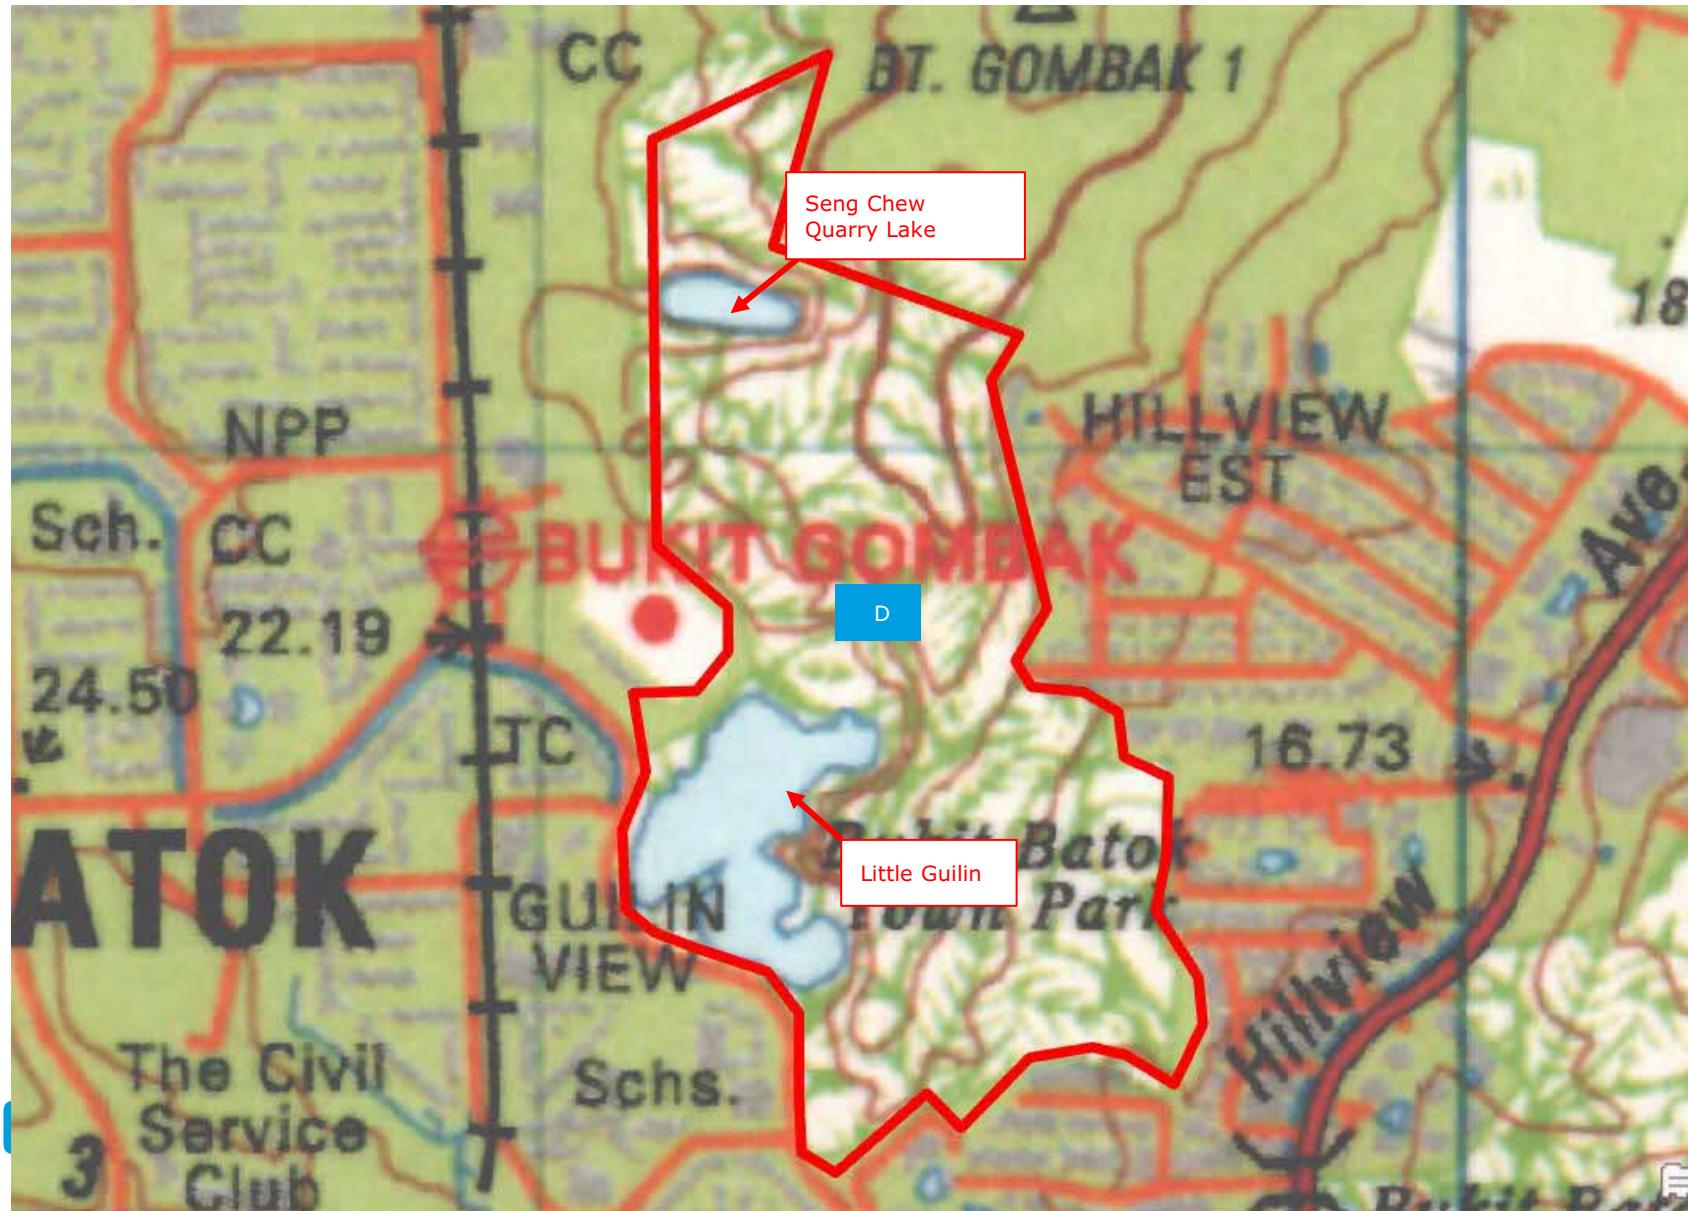

- Area D and surroundings generally remained unchanged since 1998

STUDY AREA D (2005)

- Area D and surroundings generally remained unchanged

STUDY AREA D (2010)

- Area D and surroundings generally remained unchanged

STUDY AREA D (2010)

- Area D and surroundings generally remained unchanged

STUDY AREA D (2019)

- Area D and surroundings generally remained unchanged

HISTORICAL LAND USE REVIEW – AREA E

STUDY AREA E (1953)

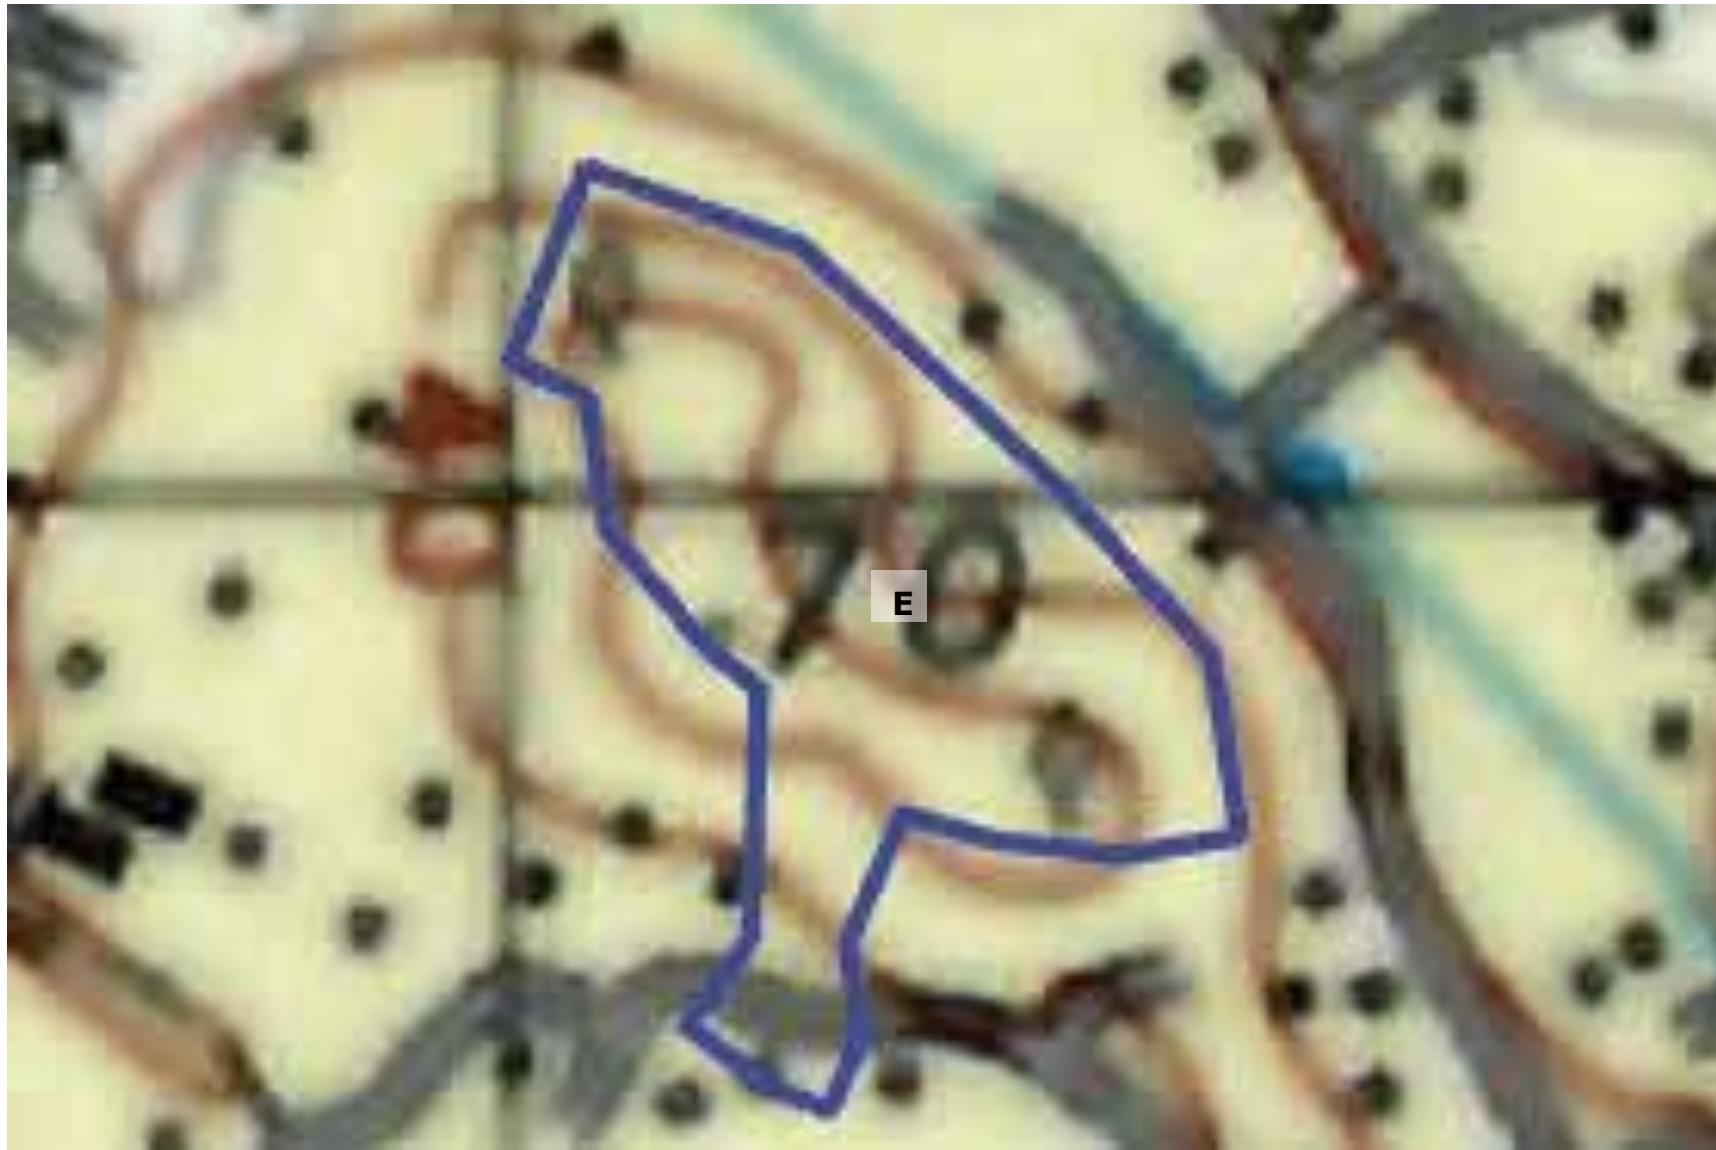

- The area was of hilly terrain with no specific land use
- Access road was evident towards the southwestern corner of the study area

STUDY AREA E (1963)

- Area E and surroundings generally remained unchanged
- Scattered structures and road were evident towards the southwestern corner of the study area

STUDY AREA E (1974)

- The study area was used for rubber cultivation

STUDY AREA E (1983)

- Area E and surroundings generally remained unchanged
- More structures were evident towards the southwestern corner of the study area

STUDY AREA E (1993)

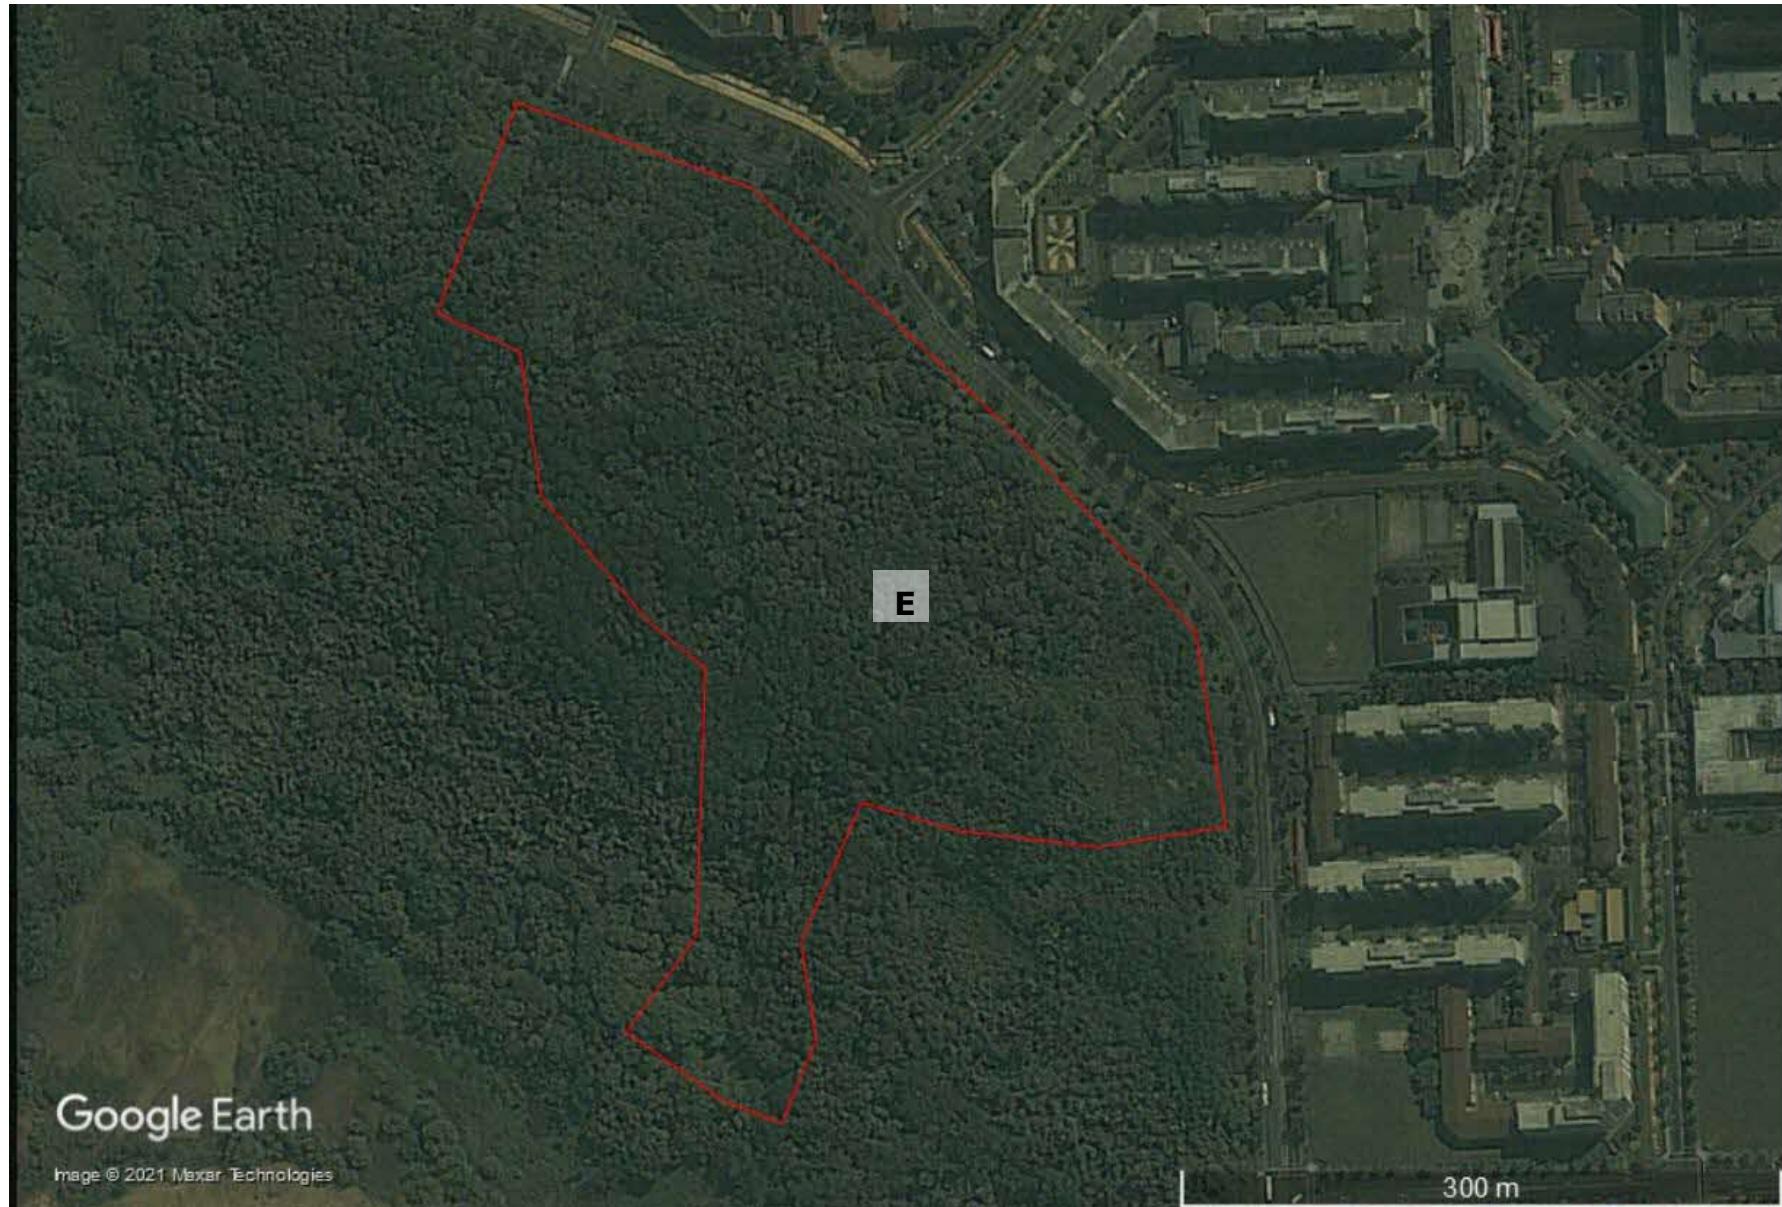

- The study area was no longer marked for rubber cultivation.
- The study area became part of the Bukit Batok Hillside Park, which was created in the late 1980s/early 1990s
- The scattered structures and road located towards the southwestern corner were no longer evident

STUDY AREA E (1998)

- Site characteristics generally remained unchanged – vacant land

STUDY AREA E (2000)

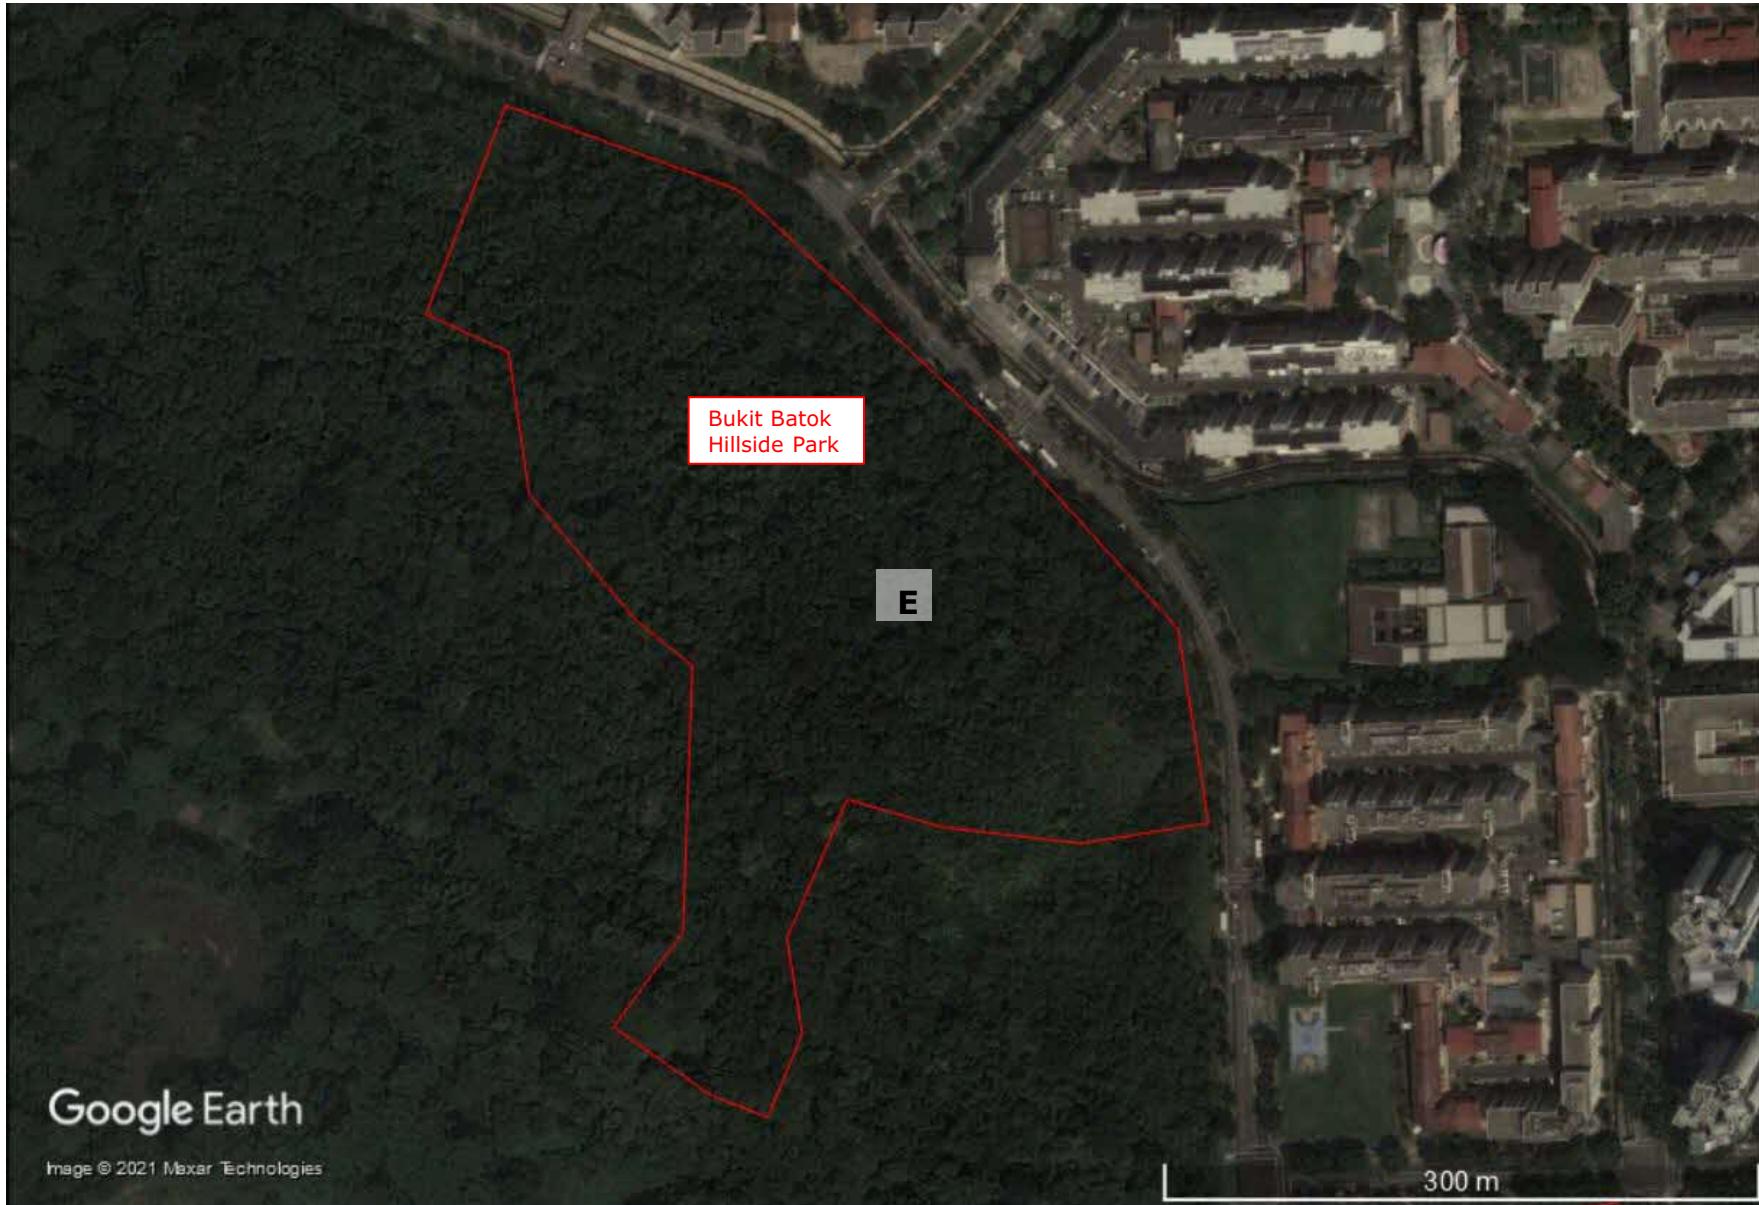

- Area E and surroundings generally remained unchanged

STUDY AREA E (2005)

- The study area and surrounding land to the west and south remain unchanged, part of Bukit Batok Hillside Park

STUDY AREA E (2010)

- Site characteristics generally remained unchanged – park

STUDY AREA E (2010)

- Site characteristics generally remained unchanged – park

STUDY AREA E (2017)

- Site characteristics generally remained unchanged – park
- HDB construction sites are evident to the northwest and southwest of the study area

STUDY AREA E (2019)

- Site characteristics generally remained unchanged – park
- HDB construction site to the northwest remained evident
- The HDB construction site, West Plains@Bukit Batok, located to the southwest appeared completed

APPENDIX 2
LIST AND LOCATIONS OF MAPPED TREES

Study Area	Tag ID	Species	Family	Origin	Status	Habit	Northing (DGPS)	Easting (DGPS)	Girth/Spread (m)	Height (m)
BBNC_A2	1	<i>Cinnamomum iners</i>	Lauraceae	Native	Common	Tree	36893.96	20832.23	1	10
BBNC_A2	2	<i>Claoxylon indicum</i>	Euphorbiaceae	Native	Common	Tree	36896.99	20832.35	1.2	12

APPENDIX 3
LIST OF NOISE SENSITIVE FAUNAL SPECIES

Taxon	Scientific name	Common name	Global status	National status	Species of conservation significance	Recorded Species (Yes/No)	Sensitivity (S)
Aculeate hymenopteran	<i>Amegilla andrewsi</i>	Andrew's blue-banded digger bee	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Yes	Yes	Priority 2
Aculeate hymenopteran	<i>Apis andreniformis</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Apis cerana</i>	Eastern honey bee	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Apis dorsata</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Ceratina collusor</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Ceratina dentipes</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Ceratina fuliginosa</i>	NA	Not Assessed	Vulnerable	Yes	No	Priority 2
Aculeate hymenopteran	<i>Ceratina lieftincki</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Ceratina nigrolateralis</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Ceratina perforatrix</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Ceratina ridleyi</i>	NA	Not Assessed	Vulnerable	Yes	No	Priority 2
Aculeate hymenopteran	<i>Homotrigona apicalis</i>	NA	Not Assessed	Near Threatened	No	Yes	Priority 3
Aculeate hymenopteran	<i>Nomada malayana</i>	NA	Not Assessed	Vulnerable	Yes	No	Priority 2
Aculeate hymenopteran	<i>Tetragonula laeviceps</i>	NA	Not Assessed	Near Threatened	No	Yes	Priority 3
Aculeate hymenopteran	<i>Tetragonula valdezi</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Thyreus himalayensis</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Xylocopa aestuans</i>	White-cheeked carpenter bee	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Xylocopa caerulea</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Xylocopa flavonigrescens</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Xylocopa latipes</i>	Broad-handed carpenter bee	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Lasioglossum albescens</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Lasioglossum semirussatum</i>	NA	Not Assessed	Critically Endangered	Yes	No	Priority 2
Aculeate hymenopteran	<i>Lasioglossum vagans</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Lipotriches takauensis</i>	NA	Not Assessed	Vulnerable	Yes	No	Priority 2
Aculeate hymenopteran	<i>Nomia apicalis</i>	NA	Not Assessed	Critically Endangered	Yes	No	Priority 2
Aculeate hymenopteran	<i>Nomia fuscipennis</i>	NA	Not Assessed	Near Threatened	No	Yes	Priority 3
Aculeate hymenopteran	<i>Nomia iridescens</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Nomia sp. aff. apicalis</i>	NA	Not Assessed	Near Threatened	No	Yes	Priority 3
Aculeate hymenopteran	<i>Nomia strigata</i>	Pearly-banded bee	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Patellapis intricata</i>	NA	Not Assessed	Critically Endangered	Yes	No	Priority 2

Aculeate hymenopteran	<i>Ropalidia surinatrae</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Stenodyneriellus guttulatus</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Vespa analis</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Vespa tropica</i>	Greater banded hornet	Not Assessed	Least Concern	No	Yes	Priority 3
Odonate	<i>Podolestes orientalis</i>	Blue-spotted flatwing	Least Concern	Vulnerable	Yes	No	Priority 2

Odonate	<i>Amphicnemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	Yes	No	Priority 2
Odonate	<i>Ceriagrion cerinorubellum</i>	Ornate coraltail	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Pseudagrion microcephalum</i>	Blue sprite	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Copera vittata</i>	Variable featherlegs	Least Concern	Vulnerable	Yes	No	Priority 2
Odonate	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	Yes	No	Priority 2
Odonate	<i>Prodasineura humeralis</i>	Orange-striped threadtail	Not Assessed	Least Concern	No	Yes	Priority 3
Odonate	<i>Prodasineura notostigma</i>	Crescent threadtail	Not Assessed	Least Concern	No	Yes	Priority 3
Odonate	<i>Drepanosticta quadrata</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	Yes	No	Priority 2
Odonate	<i>Gynacantha basiguttata</i>	Spoon-tailed duskhawk	Least Concern	Vulnerable	Yes	No	Priority 2
Odonate	<i>Acrogomphus malayanus</i>	Malayan hooktail	Near Threatened	Vulnerable	Yes	No	Priority 2
Odonate	<i>Ictinogomphus decoratus</i>	Common flangetail	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Acisoma panorpoides</i>	Trumpet tail	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Aethriamanta gracilis</i>	Pond adjudant	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Brachydiplex chalybea</i>	Blue dasher	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Brachythemis contaminata</i>	Common amberwing	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Chalybeothemis fluviatilis</i>	Green-eyed percher	Not Assessed	Vulnerable	Yes	No	Priority 2
Odonate	<i>Cratilla metallica</i>	Dark-tipped forest skimmer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Crocothemis servilia</i>	Common scarlet	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Hydrobasileus croceus</i>	Water monarch	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Indothemis carnatica</i>	White-tipped demon	Near Threatened	Critically Endangered	Yes	No	Priority 2
Odonate	<i>Neurothemis fluctuans</i>	Common parasol	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Orthetrum chrysuis</i>	Spine-tufted skimmer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Orthetrum glaucum</i>	Common blue skimmer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Orthetrum luzonicum</i>	Slender blue skimmer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Orthetrum sabina</i>	Variegated green skimmer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Orthetrum testaceum</i>	Scarlet skimmer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Pantala flavescens</i>	Wandering glider	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Pseudothemis jorina</i>	Banded skimmer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Rhodothemis rufa</i>	Common redbolt	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Rhyothemis phyllis</i>	Yellow-barred flutterer	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Trithemis aurora</i>	Crimson dropwing	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Trithemis festiva</i>	Indigo dropwing	Least Concern	Least Concern	No	Yes	Priority 3
Odonate	<i>Urothemis signata</i>	Scarlet basker	Not Assessed	Least Concern	No	Yes	Priority 3
Odonate	<i>Epophthalmia vittigera</i>	Pond cruiser	Least Concern	Least Concern	No	Yes	Priority 3
Butterfly	<i>Ancistrodoides nigrita maura</i>	Chocolate demon	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2

Butterfly	<i>Oriens gola pseudolus</i>	Common dartlet	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	Yes	No	Priority 2
Butterfly	<i>Pelopidas mathias mathias</i>	Small branded swift	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Polytremis lubricans lubricans</i>	Contiguous swift	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Potanthus omaha omaha</i>	Lesser dart	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Potanthus trachala tytleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Yes	Priority 2
Butterfly	<i>Suastus everyx everyx</i>	White palm bob	Not Assessed	Endangered	Yes	No	Priority 2
Butterfly	<i>Tapena thwaitesi bornea</i>	Dark flat	Not Assessed	Endangered	Yes	No	Priority 2
Butterfly	<i>Telicota colon sticta</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Zela storeyi</i>	Storey's palmer	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Ancema blanka blanka</i>	Silver royal	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Anthene emolus goberus</i>	Ciliate blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Arhopala antimuta antimuta</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	Yes	No	Priority 2

Butterfly	<i>Arhopala eumolphus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Arhopala silhetensis adorea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Catopyrops ancyra</i>	Ancyra blue	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Eooxylyides tharis distantii</i>	Branded imperial	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Euchrysops cneius cneius</i>	Gram blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Hypolycæna erylus teatus</i>	Common tit	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Iraota rochana boswelliana</i>	Scarce silverstreak	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Jamides aleクト aeladas</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Jamides celeno aelianus</i>	Common caerulean	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Logania marmorata damis</i>	Pale mottle	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Loxura atymnus fuconius</i>	Yamfly	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Manto hypoleuca terana</i>	Green imperial	Not Assessed	Nationally Extinct	Yes	No	Priority 2
Butterfly	<i>Nacaduba beroe neon</i>	Opaque sixline blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Nacaduba kurava nemana</i>	Transparent sixline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Nacaduba sanaya elioti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Prosotas dubiosa lumpura</i>	Tailless line blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Rachana jalindra burbona</i>	Banded royal	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Tajuria cippus maxentius</i>	Peacock royal	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Zizeeria maha serica</i>	Pale grass blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Zizina otis lampa</i>	Lesser grass blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Zizula hylax pygmaea</i>	Pygmy grass blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Acraea terpsicore</i>	Tawny coster	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Athyma nefte subrata</i>	Colour sergeant	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Cupha erymanthis lotis</i>	Rustic	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Danaus chrysippus chrysippus</i>	Plain tiger	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Discophora sondaica despaliata</i>	Common duffer	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Doleschallia bisaltide bisaltide</i>	Autumn leaf	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Dryas iulia</i>	Julia heliconian	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Elymnias hypermnestra agina</i>	Common palmfly	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Elymnias panthera panthera</i>	Tawny palmfly	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Euthalia aconthea gurda</i>	Baron	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Hypolimnas anomala anomala</i>	Malayan eggfly	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Ideopsis vulgaris macrina</i>	Blue glassy tiger	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Junonia almana javana</i>	Peacock pansy	Least Concern	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Junonia atlites atlites</i>	Grey pansy	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Junonia hedonia ida</i>	Chocolate pansy	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Lasippa tiga siaka</i>	Malayan lascar	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Mycalesis mineus macromalayana</i>	Dark brand bush brown	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Mycalesis visala pharnis</i>	Long brand bush brown	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Neptis hydas papaja</i>	Common sailor	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Parantica agleoides agleoides</i>	Dark glassy tiger	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Phalanta phalantha phalantha</i>	Leopard	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Tanaecia pelea pelea</i>	Malay viscount	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Xanthoænia busiris busiris</i>	Yellow barred	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Ypthima baldus newboldi</i>	Common five-ring	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Ypthima horsfieldii humei</i>	Malayan five-ring	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Chilasa clytia clytia</i>	Common mime	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Pachliopta aristolochiae asteris</i>	Common rose	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Papilio demoleus malayanus</i>	Lime butterfly	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Papilio polytes romulus</i>	Common mormon	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Appias libythea ofernea</i>	Striped albatross	Not Assessed	Not Assessed	No	Yes	Priority 3

Butterfly	<i>Delias hyparete metarete</i>	Painted jezebel	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Eurema hecate contubernalis</i>	Common grass yellow	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Abisara savitri savitri</i>	Malay tailed juddy	Not Assessed	Not Assessed	No	Yes	Priority 3
Decapod	<i>Parathelphusa maculata</i>	Maculate freshwater crab	Least Concern	Not Assessed	No	Yes	Priority 3
Decapod	<i>Cherax quadricarinatus</i>	Redclaw crayfish	Least Concern	Not Assessed	No	Yes	Priority 3
Decapod	<i>Caridina sp.</i>	NA	NA	NA	NA	Yes	Priority 3
Decapod	<i>Macrobrachium lanchesteri</i>	Riceland shrimp	Least Concern	Not Assessed	No	Yes	Priority 3
Decapod	<i>Macrobrachium pilimanus</i>	NA	NA	NA	NA	Yes	Priority 3
Decapod	<i>Macrobrachium sp.</i>	NA	NA	NA	NA	Yes	Priority 3
Fish	<i>Channa micropeltes</i>	Giant snakehead/toman	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Channa striata</i>	Common snakehead/aruan	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Oreochromis mossambicus</i>	Mozambique tilapia	Vulnerable	Not Assessed	No	Yes	Priority 3
Fish	<i>Amphilophus citrinellus</i>	Midas cichlid	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Cichlasoma urophthalmum</i>	Mayan cichlid	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Geophagus altifrons</i>	Red-striped eartheater	Not Assessed	Not Assessed	No	Yes	Priority 3
Fish	<i>Clarias cf. batrachus</i>	Common walking catfish	Not Assessed	Not Assessed	No	Yes	Priority 3
Fish	<i>Oxyeleotris marmorata</i>	Marbled gudgeon	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Rhinogobius similis</i>	Barcheek goby	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Osphronemus goramy</i>	Giant gourami	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Osphronemus latilabrus</i>	Red giant gourami	Endangered	Not Assessed	No	Yes	Priority 3
Fish	<i>Family Osteoglossidae</i>	Unidentified arowana	NA	NA	NA	Yes	Priority 3
Fish	<i>Gambusia affinis</i>	Mosquitofish	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Poecilia reticulata</i>	Guppy	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Monopterus albus</i>	Asian swamp eel	Least Concern	Not Assessed	No	Yes	Priority 3
Mollusc	<i>Pomacea canaliculata</i>	NA	Least Concern	Not Assessed	No	Yes	Priority 3
Mollusc	<i>Physa acuta</i>	NA	Not Assessed	Not Assessed	No	Yes	Priority 3

Amphibian	<i>Fejervarya limnocharis</i>	Field frog	Least Concern	Least Concern	No	Yes	Priority 3
Amphibian	<i>Limnonectes blythii</i>	Malayan giant frog	Near Threatened	Least Concern	No	Yes	Priority 3
Amphibian	<i>Eleutherodactylus planirostris</i>	Greenhouse frog	Least Concern	Not Assessed	No	Yes	Priority 3
Amphibian	<i>Kaloula pulchra</i>	Banded bull frog	Least Concern	Not Assessed	No	Yes	Priority 3
Amphibian	<i>Microhyla butleri</i>	Painted chorus frog	Least Concern	Least Concern	No	Yes	Priority 3
Amphibian	<i>Microhyla heymonsi</i>	Dark-sided chorus frog	Least Concern	Least Concern	No	Yes	Priority 3
Amphibian	<i>Microhyla mukhlesuri</i>	East Asian ornate chorus frog	Least Concern	Not Assessed	No	Yes	Priority 3
Amphibian	<i>Polypedates leucomystax</i>	Four-lined tree frog	Least Concern	Least Concern	No	Yes	Priority 3
Amphibian	<i>Duttaphrynus bengalensis</i>	Indian toad	Least Concern	Not Assessed	No	Yes	Priority 3
Reptile	<i>Bronchocela cristatella</i>	Green crested lizard	Not Assessed	Least Concern	No	Yes	Priority 3
Reptile	<i>Calotes versicolor</i>	Changeable lizard	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Draco sumatranus</i>	Sumatran flying dragon	Not Assessed	Least Concern	No	Yes	Priority 3
Reptile	<i>Gehyra mutilata</i>	Four-clawed gecko	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Gekko monarchus</i>	Spotted house gecko	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Hemidactylus frenatus</i>	Spiry-tailed house gecko	Least Concern	Least Concern	No	Yes	Priority 3
Reptile	<i>Hemidactylus platyurus</i>	Flat-tailed gecko	Not Assessed	Least Concern	No	Yes	Priority 3
Reptile	<i>Lepidodactylus lugubris</i>	Maritime gecko	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Eutropis multifasciata</i>	Many-lined sun skink	Not Assessed	Least Concern	No	Yes	Priority 3
Reptile	<i>Varanus salvator</i>	Malayan water monitor	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Reptile	<i>Ahaetulla prasina</i>	Oriental whip snake	Least Concern	Least Concern	No	Yes	Priority 3
Reptile	<i>Boiga melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Dendrelaphis pictus</i>	Painted bronzeback	Least Concern	Least Concern	No	Yes	Priority 3
Reptile	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	Yes	No	Priority 2
Reptile	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 2
Reptile	<i>Trachemys decussata</i>	Cuban slider	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Trachemys scripta</i>	Red-eared slider	Least Concern	Not Assessed	No	Yes	Priority 3

Reptile	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	No	Priority 2
Reptile	<i>Amyda cartilaginea</i>	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 2
Bird	<i>Accipiter gularis</i>	Japanese sparrowhawk	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Accipiter soloensis</i>	Chinese sparrowhawk	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Haliaeetus leucogaster</i>	White-bellied sea eagle	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Haliastur indus</i>	Brahminy kite	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Pernis ptilorhynchus</i>	Crested honey-buzzard	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Yes	No	Priority 1
Bird	<i>Aegithina tiphia</i>	Common iora	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Yes	No	Priority 1
Bird	<i>Ceyx erithaca</i>	Oriental dwarf kingfisher	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Yes	No	Priority 1
Bird	<i>Halcyon smyrnensis</i>	White-throated kingfisher	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Todiramphus chloris</i>	Collared kingfisher	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Dendrocyna javanica</i>	Lesser whistling duck	Least Concern	Endangered	Yes	No	Priority 1
Bird	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Yes	No	Priority 1
Bird	<i>Aerodramus sp.</i>	Unidentified swiftlet	NA	NA	NA	Yes	Priority 3
Bird	<i>Apus pacificus</i>	Pacific swift	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Ardea intermedia</i>	Intermediate egret	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	Yes	No	Priority 1
Bird	<i>Gorsachius melanolophus</i>	Malayan night heron	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Yes	No	Priority 1
Bird	<i>Anthracoceros albirostris</i>	Oriental pied hornbill	Least Concern; CITES protected (Appendix II)	Near Threatened	No	Yes	Priority 3
Bird	<i>Lalage nigra</i>	Pied triller	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Pericrocotus divaricatus</i>	Ashy minivet	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Caprimulgus macrurus</i>	Large-tailed nightjar	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Vanellus indicus</i>	Red-wattled lapwing	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Yes	No	Priority 1
Bird	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	Yes	No	Priority 1
Bird	<i>Orthotomus atrogularis</i>	Dark-necked tailorbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Orthotomus sericeus</i>	Rufous-tailed tailorbird	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Orthotomus sutorius</i>	Common tailorbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Prinia flaviventris</i>	Yellow-bellied prinia	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Chalcophaps indica</i>	Common emerald dove	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Columba livia</i>	Rock dove	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Ducula bicolor</i>	Pied imperial pigeon	Least Concern	Data Deficient	No	Yes	Priority 3
Bird	<i>Geopelia striata</i>	Zebra dove	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Spilopelia chinensis</i>	Spotted dove	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Treron curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	Yes	No	Priority 1
Bird	<i>Treron vernans</i>	Pink-necked green pigeon	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Eurystomus orientalis</i>	Oriental dollarbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Corvus splendens</i>	House crow	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Cacomantis merulinus</i>	Plaintive cuckoo	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Cacomantis sonneratii</i>	Banded bay cuckoo	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Centropus bengalensis</i>	Lesser coucal	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Centropus sinensis</i>	Greater coucal	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Yes	No	Priority 1
Bird	<i>Eudynamys scolopaceus</i>	Asian koel	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Phaenicophaeus sumatranaus</i>	Chestnut-bellied malkoha	Near Threatened	Near Threatened	No	Yes	Priority 3
Bird	<i>Surniculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Dicaeum chrysorrheum</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Yes	No	Priority 1
Bird	<i>Dicaeum cruentatum</i>	Scarlet-backed flowerpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Dicaeum trigonostigma</i>	Orange-bellied flowerpecker	Least Concern	Near Threatened	No	Yes	Priority 3

Bird	<i>Dicrurus paradiseus</i>	Greater racket-tailed drongo	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Heliopais personatus</i>	Masked finfoot	Endangered	Endangered	Yes	No	Priority 1
Bird	<i>Hemiprocne longipennis</i>	Grey-rumped treeswift	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Cecropis daurica</i>	Red-rumped swallow	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Hirundo rustica</i>	Barn swallow	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Hirundo tahitica</i>	Pacific swallow	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Lanius schach</i>	Long-tailed shrike	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Garrulax leucophous</i>	White-crested laughingthrush	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Pterorhinus chinensis</i>	Black-throated laughingthrush	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Psilopogon lineatus</i>	Lineated barbet	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Merops philippinus</i>	Blue-tailed bee-eater	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Merops viridis</i>	Blue-throated bee-eater	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Anthus rufulus</i>	Paddyfield pipit	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Yes	No	Priority 1
Bird	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Yes	No	Priority 1
Bird	<i>Ficedula zanthopygia</i>	Yellow-rumped flycatcher	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Muscicapa dauurica</i>	Asian brown flycatcher	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Muscicapa sibirica</i>	Dark-sided flycatcher	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Aethopyga siparaja</i>	Crimson sunbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Anthreptes malaccensis</i>	Brown-throated sunbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Arachnothera longirostra</i>	Little spiderhunter	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Cinnyris jugularis</i>	Olive-backed sunbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Oriolus chinensis</i>	Black-naped oriole	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Passer montanus</i>	Eurasian tree sparrow	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Gallus gallus</i>	Red junglefowl	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Phylloscopus borealis</i>	Arctic warbler	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Phylloscopus coronatus</i>	Eastern crowned warbler	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Chrysophlegma miniaceum</i>	Banded woodpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Dinopium javanense</i>	Common flameback	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Micropternus brachyurus</i>	Rufous woodpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Picus vittatus</i>	Laced woodpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Yungipicus moluccensis</i>	Sunda pygmy woodpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Yes	No	Priority 1
Bird	<i>Loriculus galgulus</i>	Blue-crowned hanging-parrot	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Psittacula alexandri</i>	Red-breasted parakeet	Near Threatened; CITES protected (Appendix II)	Not Assessed	No	Yes	Priority 3
Bird	<i>Psittacula krameri</i>	Rose-ringed parakeet	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Psittacula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Yes	Priority 1
Bird	<i>Psittinus cyanurus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Yes	No	Priority 1
Bird	<i>Trichoglossus haematodus</i>	Coconut lorikeet	Least Concern; CITES protected (Appendix II)	Not Assessed	No	Yes	Priority 3
Bird	<i>Brachypodius melanocephalus</i>	Black-headed bulbul	Least Concern	Critically Endangered	Yes	No	Priority 1
Bird	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Yes	No	Priority 1
Bird	<i>Pycnonotus goiavier</i>	Yellow-vented bulbul	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Pycnonotus jocosus</i>	Red-whiskered bulbul	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Pycnonotus plumosus</i>	Olive-winged bulbul	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix I)	Endangered	Yes	Yes	Priority 1
Bird	<i>Amauornis phoenicurus</i>	White-breasted waterhen	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Lewinia striata</i>	Slaty-breasted rail	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Rallina fasciata</i>	Red-legged crake	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Rhipidura javanica</i>	Malaysian pied fantail	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 1
Bird	<i>Otus lempiji</i>	Sunda scops owl	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Strix seloputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 1
Bird	<i>Acridotheres javanicus</i>	Javan myna	Vulnerable	Not Assessed	No	Yes	Priority 3
Bird	<i>Acridotheres tristis</i>	Common myna	Least Concern	Least Concern	No	Yes	Priority 3

Bird	<i>Aplonis panayensis</i>	Asian glossy starling	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Gracula religiosa</i>	Common hill myna	Least Concern; CITES protected (Appendix I)	Near Threatened	No	Yes	Priority 3
Bird	<i>Mixornis gularis</i>	Pin-striped tit-babbler	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Yes	Yes	Priority 1
Non-volant mammal	<i>Canis lupus familiaris</i>	Feral dog	Not Assessed	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Yes	Yes	Priority 1
Non-volant mammal	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Yes	Yes	Priority 1
Non-volant mammal	<i>Felis catus</i>	Feral cat	Not Assessed	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Yes	No	Priority 1
Non-volant mammal	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Yes	No	Priority 1
Non-volant mammal	<i>Rattus norvegicus</i>	Brown rat	Least Concern	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Sundamys annandalei</i>	Annandale's rat	Least Concern	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Lutrogale perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Yes	Yes	Priority 1
Non-volant mammal	<i>Callosciurus notatus</i>	Plantain squirrel	Least Concern	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Iomys horsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	Yes	Yes	Priority 1
Non-volant mammal	<i>Sundasciurus tenuis</i>	Slender squirrel	Least Concern	Least Concern	No	Yes	Priority 3
Non-volant mammal	<i>Sus scrofa</i>	Eurasian wild boar	Least Concern	Least Concern	No	Yes	Priority 3
Non-volant mammal	<i>Tupaia glis</i>	Common treeshrew	Least Concern	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Paradoxurus musangus</i>	Sumatran palm civet	Least Concern	Least Concern	No	Yes	Priority 3
Non-volant mammal	<i>Family Sciuridae</i>	Unidentified flying squirrel	NA	NA	Yes	Yes	Priority 1
Bat	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Yes	No	Priority 1
Bat	<i>Saccopteryx saccolaimus</i>	Pouch tomb bat	Least Concern	Least Concern	No	Yes	Priority 3
Bat	<i>Taphozous melanopogon</i>	Black-bearded tomb bat	Least Concern	Least Concern	No	Yes	Priority 3
Bat	<i>Hipposideros bicolor</i>	Bicoloured roundleaf bat	Least Concern	Endangered	Yes	No	Priority 1
Bat	<i>Cheiromeles torquatus</i>	Naked bulldog bat	Least Concern	Critically Endangered	Yes	No	Priority 1
Bat	<i>Cynopterus brachyotis</i>	Lesser short-nosed fruit bat	Least Concern	Not Assessed	No	Yes	Priority 3
Bat	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bat	<i>Penthetor lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Yes	No	Priority 1
Bat	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Yes	No	Priority 1
Bat	<i>Rhinolophus refulgens</i>	Glossy horseshoe bat	Least Concern	Not Assessed	No	Yes	Priority 3
Bat	<i>Myotis horsfieldii</i>	Horsfield's myotis	Least Concern	Least Concern	No	Yes	Priority 3
Bat	<i>Myotis muricola</i>	Asian whiskered myotis	Least Concern	Least Concern	No	Yes	Priority 3
Bat	<i>Pipistrellus javanicus</i>	Javan pipistrelle	Least Concern	Not Assessed	No	Yes	Priority 3
Bat	<i>Scotophilus kuhlii</i>	Lesser Asian house bat	Least Concern	Least Concern	No	Yes	Priority 3
Bat	<i>Tylonycteris fulvida</i>	Lesser bamboo bat	Least Concern	Vulnerable	Yes	No	Priority 1
Bat	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Yes	No	Priority 1
Bat	<i>Tylonycteris sp.</i>	Unidentified bamboo bat	Least Concern	Vulnerable	Yes	Yes	Priority 1

Taxon	Scientific name	Common name	Global status	National status	Species of conservation significance	Recorded Species (Yes/No)	Sensitivity (S)
Aculeate hymenopteran	<i>Amegilla andrewsi</i>	Andrew's blue-banded digger bee	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Yes	No	Priority 2
Aculeate hymenopteran	<i>Apis andreniformis</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Apis cerana</i>	Eastern honey bee	Not Assessed	Least Concern	No	Yes	Priority 3
Aculeate hymenopteran	<i>Apis dorsata</i>	NA	Not Assessed	Least Concern	No	Yes	Priority 3

Butterfly	<i>Calotris malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Gangara lebadea lebadea</i>	Banded redeye	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Iambrix salsala salsala</i>	Chestnut bob	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	Yes	No	Priority 2
Butterfly	<i>Pelopidas mathias mathias</i>	Small branded swift	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Potanthus omaha omaha</i>	Lesser dart	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Potanthus trachala tytleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Suastus everyx everyx</i>	White palm bob	Not Assessed	Endangered	Yes	No	Priority 2
Butterfly	<i>Tapena thwaitesi bornea</i>	Dark flat	Not Assessed	Endangered	Yes	No	Priority 2
Butterfly	<i>Telicota colon stinga</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Zela storeyi</i>	Storey's palmer	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Ancema blanca blanca</i>	Silver royal	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Arhopala antimuta antimuta</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	Yes	No	Priority 2
Butterfly	<i>Arhopala eumolpus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Arhopala silhetensis adorea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Catopyrops aenaria</i>	Ancrya blue	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Eooxylyides tharis distanti</i>	Branded imperial	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Euchrysops cneius cneius</i>	Gram blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Jamides alecto ageladas</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Jamides celeno aelianus</i>	Common caerulean	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Manto hypoleuca terana</i>	Green imperial	Not Assessed	Nationally Extinct	Yes	No	Priority 2
Butterfly	<i>Nacaduba kurava nemana</i>	Transparent sixline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Nacaduba sanaya elioti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Rachana jalindra burbona</i>	Banded royal	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Zizina otis lampas</i>	Lesser grass blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Zizula hylax pygmaea</i>	Pygmy grass blue	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Acraea terpsicore</i>	Tawny coster	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Amathusia phidippus phidippus</i>	Palm king	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Discophora sondaica despiciens</i>	Common duffer	Not Assessed	Critically Endangered	Yes	No	Priority 2
Butterfly	<i>Elymnias hypermnestra agina</i>	Common palmfly	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Euthalia monina monina</i>	Malay baron	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Junonia almana javana</i>	Peacock pansy	Least Concern	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Junonia hedonia ida</i>	Chocolate pansy	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Lasippa tiga siaka</i>	Malayan lascar	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Lethe europa malaya</i>	Bamboo tree brown	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Mycalesis perseoides perseoides</i>	Burmese bush brown	Not Assessed	Data Deficient	No	Yes	Priority 3
Butterfly	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Phalanta phalantha phalantha</i>	Leopard	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Tanaecia lapis puseda</i>	Horsfield's baron	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Yes	No	Priority 2
Butterfly	<i>Graphium sarpedon luctatus</i>	Common bluebottle	Not Assessed	Not Assessed	No	Yes	Priority 3

Butterfly	<i>Pachliopta aristolochiae asteris</i>	Common rose	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Papilio demoleus malayanus</i>	Lime butterfly	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Papilio polytes romulus</i>	Common mormon	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 2
Butterfly	<i>Appias libythea olferna</i>	Striped albatross	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Catopsilia pomona pomona</i>	Lemon emigrant	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Delias hyparete metarete</i>	Painted jezebel	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Eurema hecabe contubernalis</i>	Common grass yellow	Not Assessed	Not Assessed	No	Yes	Priority 3
Butterfly	<i>Abisara savitri savitri</i>	Malay tailed Judy	Not Assessed	Not Assessed	No	Yes	Priority 3
Fish	<i>Betta splendens</i>	Siamese fighting-fish	Vulnerable	Not Assessed	No	Yes	Priority 3
Fish	<i>Poecilia reticulata</i>	Guppy	Least Concern	Not Assessed	No	Yes	Priority 3
Fish	<i>Monopterus albus</i>	Asian swamp eel	Least Concern	Not Assessed	No	Yes	Priority 3
Amphibian	<i>Limnonectes blythii</i>	Malayan giant frog	Near Threatened	Least Concern	No	Yes	Priority 3
Amphibian	<i>Limnonectes malesianus</i>	Malesian frog	Near Threatened	Near Threatened	No	Yes	Priority 3
Amphibian	<i>Lithobates catesbeianus</i>	American bullfrog	Least Concern	Not Assessed	No	Yes	Priority 3
Amphibian	<i>Sylvirana guentheri</i>	Guenther's frog	Least Concern	Not Assessed	No	Yes	Priority 3
Amphibian	<i>Microhyla hemionsi</i>	Dark-sided chorus frog	Least Concern	Least Concern	No	Yes	Priority 3
Amphibian	<i>Microhyla mukhlesuri</i>	East Asian ornate chorus frog	Least Concern	Not Assessed	No	Yes	Priority 3
Amphibian	<i>Polypedates leucomystax</i>	Four-lined tree frog	Least Concern	Least Concern	No	Yes	Priority 3
Amphibian	<i>Duttaphrynus bengalensis</i>	Indian toad	Least Concern	Not Assessed	No	Yes	Priority 3
Reptile	<i>Calotes versicolor</i>	Changeable lizard	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Gehyra mutilata</i>	Four-clawed gecko	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Gekko monarchus</i>	Spotted house gecko	Not Assessed	Not Assessed	No	Yes	Priority 3
Reptile	<i>Hemidactylus frenatus</i>	Spiny-tailed house gecko	Least Concern	Least Concern	No	Yes	Priority 3
Reptile	<i>Eutropis multifasciata</i>	Many-lined sun skink	Not Assessed	Least Concern	No	Yes	Priority 3
Reptile	<i>Ahaetulla prasina</i>	Oriental whip snake	Least Concern	Least Concern	No	Yes	Priority 3
Reptile	<i>Boiga cynodon</i>	Dog-toothed cat snake	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Dendrelaphis pictus</i>	Painted bronzeback	Least Concern	Least Concern	No	Yes	Priority 3
Reptile	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	Yes	No	Priority 2
Reptile	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	Yes	No	Priority 2
Reptile	<i>Malayopython reticulatus</i>	Reticulated python	Least Concern; CITES protected (Appendix II)	Not Assessed	No	Yes	Priority 3
Reptile	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	No	Priority 2
Bird	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 1
Bird	<i>Pernis ptilorhynchus</i>	Crested honey-buzzard	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Yes	No	Priority 1
Bird	<i>Aegithina tiphia</i>	Common iora	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Yes	No	Priority 1
Bird	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Yes	No	Priority 1
Bird	<i>Halcyon smyrnensis</i>	White-throated kingfisher	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Todiramphus chloris</i>	Collared kingfisher	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Aerodramus sp.</i>	Unidentified swiftlet	NA	NA	NA	Yes	Priority 3
Bird	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Yes	No	Priority 1
Bird	<i>Ardea cinerea</i>	Grey heron	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Butorides striata</i>	Striated heron	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Egretta garzetta</i>	Little egret	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Pericrocotus divaricatus</i>	Ashy minivet	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Orthotomus atrogularis</i>	Dark-necked tailorbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Orthotomus sutorius</i>	Common tailorbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Chalcophaps indica</i>	Common emerald dove	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Columba livia</i>	Rock dove	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Ducula bicolor</i>	Pied imperial pigeon	Least Concern	Data Deficient	No	Yes	Priority 3
Bird	<i>Geopelia striata</i>	Zebra dove	Least Concern	Least Concern	No	Yes	Priority 3

Bird	<i>Spilopelia chinensis</i>	Spotted dove	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Treron vernans</i>	Pink-necked green pigeon	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Eurystomus orientalis</i>	Oriental dollarbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Yes	No	Priority 1
Bird	<i>Corvus splendens</i>	House crow	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Chrysococcyx xanthorhynchus</i>	Violet cuckoo	Least Concern	Vulnerable	Yes	No	Priority 1
Bird	<i>Eudynamys scolopaceus</i>	Asian koel	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Dicaeum cruentatum</i>	Scarlet-backed flowerpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Dicaeum trigonostigma</i>	Orange-bellied flowerpecker	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Dicrurus paradiseus</i>	Greater racket-tailed drongo	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Hirundo tahitica</i>	Pacific swallow	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Yes	Yes	Priority 1
Bird	<i>Garrulax leucolophus</i>	White-crested laughingthrush	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Psilopogon lineatus</i>	Lineated barbet	Least Concern	Not Assessed	No	Yes	Priority 3
Bird	<i>Merops viridis</i>	Blue-throated bee-eater	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Yes	No	Priority 1
Bird	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Yes	No	Priority 1
Bird	<i>Muscicapa dauurica</i>	Asian brown flycatcher	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Aethopyga siparaja</i>	Crimson sunbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Anthreptes malaccensis</i>	Brown-throated sunbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Cinnyris jugularis</i>	Olive-backed sunbird	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Oriolus chinensis</i>	Black-naped oriole	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i> Gallus gallus</i>	Red junglefowl	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Phylloscopus borealis</i>	Arctic warbler	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Chrysophlegma miniaceum</i>	Banded woodpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Dinopium javanense</i>	Common flameback	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Picus vittatus</i>	Laced woodpecker	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Loriculus galgulus</i>	Blue-crowned hanging-parrot	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Psittacula alexandri</i>	Red-breasted parakeet	Near Threatened; CITES protected (Appendix II)	Not Assessed	No	Yes	Priority 3
Bird	<i>Psittacula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Yes	Priority 1
Bird	<i>Pycnonotus goiavier</i>	Yellow-vented bulbul	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Pycnonotus plumosus</i>	Olive-winged bulbul	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix I)	Endangered	Yes	Yes	Priority 1
Bird	<i>Amauornis phoenicurus</i>	White-breasted waterhen	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Lewinia striata</i>	Slaty-breasted rail	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Rallina fasciata</i>	Red-legged crake	Least Concern	Near Threatened	No	Yes	Priority 3
Bird	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 1
Bird	<i>Otus lempiji</i>	Sunda scops owl	Least Concern; CITES protected (Appendix II)	Least Concern	No	Yes	Priority 3
Bird	<i>Strix seloputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	No	Priority 1
Bird	<i>Acridotheres javanicus</i>	Javan myna	Vulnerable	Not Assessed	No	Yes	Priority 3
Bird	<i>Aplonis panayensis</i>	Asian glossy starling	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Mixornis gularis</i>	Pin-striped tit-babbler	Least Concern	Least Concern	No	Yes	Priority 3
Bird	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Yes	Yes	Priority 1
Non-volant mammal	<i>Canis lupus familiaris</i>	Feral dog	Not Assessed	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Yes	Yes	Priority 1
Non-volant mammal	<i>Felis catus</i>	Feral cat	Not Assessed	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Yes	No	Priority 1
Non-volant mammal	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Yes	No	Priority 1
Non-volant mammal	<i>Rattus tiomanicus</i>	Malaysian wood rat	Least Concern	Least Concern	No	Yes	Priority 3
Non-volant mammal	<i>Callosciurus notatus</i>	Plantain squirrel	Least Concern	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Sundasciurus tenuis</i>	Slender squirrel	Least Concern	Least Concern	No	Yes	Priority 3
Non-volant mammal	<i>Sus scrofa</i>	Eurasian wild boar	Least Concern	Least Concern	No	Yes	Priority 3
Non-volant mammal	<i>Tupaia glis</i>	Common treeshrew	Least Concern	Not Assessed	No	Yes	Priority 3
Non-volant mammal	<i>Paradoxurus musangus</i>	Sumatran palm civet	Least Concern	Least Concern	No	Yes	Priority 3
Bat	<i>Saccopteryx saccolaimus</i>	Pouch tomb bat	Least Concern	Least Concern	No	Yes	Priority 3

Appendix 3 - List of Noise Sensitive Faunal Species (BBHNP)

Bat	<i>Cynopterus brachyotis</i>	Lesser short-nosed fruit bat	Least Concern	Not Assessed	No	Yes	Priority 3
Bat	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Yes	No	Priority 1
Bat	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Yes	No	Priority 1
Bat	<i>Scotophilus kuhlii</i>	Lesser Asian house bat	Least Concern	Least Concern	No	Yes	Priority 3
Bat	<i>Tylonycteris fulvida</i>	Lesser bamboo bat	Least Concern	Vulnerable	Yes	No	Priority 1
Bat	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Yes	No	Priority 1
Bat	<i>Tylonycteris sp.</i>	Unidentified bamboo bat	Least Concern	Vulnerable	Yes	Yes	Priority 1

APPENDIX 4
**LIST OF PROBABLE FAUNAL SPECIES AT BBNP [AREA B1 (WEST OF
LORONG SESUAI)], B2, B3, B4, C1, C2**

Faunal group	Total no. of recorded species		No. of probable CS species
	All species	CS species	
Aculeate hymenopterans	57	1	12
Bees	24	1	12
Stinging wasps	33	0	0
Odonates	28	2	11
Dragonflies	24	0	4
Damselflies	4	2	7
Butterflies	68	1	29
Freshwater decapod crustaceans	5	1	3
Freshwater fish	14	0	0
Freshwater molluscs	4	0	0

65	Nymphalidae	<i>Faunis canens arcesillas</i>	Common faun	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B2, C1	
66	Nymphalidae	<i>Hypolimnas anomala anomala</i>	Malayan eggfly	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B3	Caterpillars observed
67	Nymphalidae	<i>Hypolimnas bolina</i>	Unidentified eggfly	NA	NA	NA	NA	BTNR, Tengah	Yes	B1		
68	Nymphalidae	<i>Junonia almana javana</i>	Peacock pansy	Least Concern	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B3, B4	
69	Nymphalidae	<i>Junonia hedonia ida</i>	Chocolate pansy	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B2, B3, B4, C1, C2	
70	Nymphalidae	<i>Lasippa tiga siaka</i>	Malayan lascar	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, C2	Mating observed
71	Nymphalidae	<i>Lethe europa malaya</i>	Bamboo tree brown	Not Assessed	Not Assessed	No	Moderately rare	Resident	-	Yes	B3, B4	
72	Nymphalidae	<i>Lexias pardalis diteana</i>	Archduke	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	B1, B4	
73	Nymphalidae	<i>Moduza procris milonia</i>	Commander	Not Assessed	Not Assessed	No	Moderately common	Resident	BTNR	Yes	B1, B4	
74	Nymphalidae	<i>Mycalesis mineus macromalayana</i>	Dark brand bush brown	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B4, C2	
75	Nymphalidae	<i>Mycalesis perseoides perseoides</i>	Burmese bush brown	Not Assessed	Data Deficient	No	Common	Resident	Tengah	Yes	B1, B4, C1	
76	Nymphalidae	<i>Mycalesis perseus ceaheus</i>	Dingy bush brown	Not Assessed	Not Assessed	No	Moderately common	Resident	BTNR, Tengah	Yes	B1, B3, B4, C2	
77	Nymphalidae	<i>Mycalesis visala phamis</i>	Long brand bush brown	Not Assessed	Not Assessed	No	Moderately common	Resident	Tengah	Yes	B2, B4	
78	Nymphalidae	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Yes	Rare	Resident	BTNR	Yes	B3	
79	Nymphalidae	<i>Phalanta phalantha phalantha</i>	Leopard	Not Assessed	Not Assessed	No	Common	Resident	-	Yes	B4, C2	Overpositing observed
80	Nymphalidae	<i>Polyura schreiber tisamenus</i>	Blue nawab	Not Assessed	Not Assessed	No	Moderately rare	Resident	-	Yes	B1	
81	Nymphalidae	<i>Tanaecia iapis puseda</i>	Horsfield's baron	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B3, B4, C1	Overpositing observed
82	Nymphalidae	<i>Tanaecia pelea pelea</i>	Malay viscount	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B2, B4, C1	
83	Nymphalidae	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Very rare	Vagrant	-	No	-	
84	Nymphalidae	<i>Vindula dejone eretella</i>	Cruiser	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	B1, B4	
85	Nymphalidae	<i>Ypthima baldus newboldi</i>	Common five-ring	Not Assessed	Not Assessed	No	Common	Resident	Tengah	Yes	C1	
86	Nymphalidae	<i>Ypthima horsfieldii humei</i>	Malayan five-ring	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B2, B3, B4, C1, C2	
87	Papilionidae	<i>Graphium sarpedon lucasi</i>	Common bluebottle	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B4	
88	Papilionidae	<i>Pachliopta aristochiae asteris</i>	Common rose	Not Assessed	Vulnerable	Yes	Moderately common	Resident	-	No	-	
89	Papilionidae	<i>Papilio demoleus malayanus</i>	Lime butterfly	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	B1, B4	
90	Papilionidae	<i>Papilio polytes romulus</i>	Common mormon	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B2, B3, B4, C1, C2	
91	Papilionidae	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Yes	Rare	Resident	BTNR	No	-	
92	Papilionidae	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Yes	Moderately common	Resident	BTNR	No	-	
93	Pieridae	<i>Appias libythea offerna</i>	Striped albatross	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B3, B4	
94	Pieridae	<i>Delias hyparete metarete</i>	Painted jezebel	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B1, B2, B3, B4, C1	
95	Pieridae	<i>Eurema hecabe contubernalis</i>	Common grass yellow	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	B3, B4	Mating observed
96	Riodinidae	<i>Abisara savitri savitri</i>	Malay tailed Judy	Not Assessed	Not Assessed	No	Moderately rare	Resident	BTNR, Tengah	Yes	B1, B2	

Appendix 4 - List of Probable Fauna Species at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2] - Decapods

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008)	Species of Conservation Significance (Yes/No)	Native Status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Khoo et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Study Area B1 (West of Lorong Sesuai), B2, C1
1	Freshwater crab	Gecarcinidae	<i>Parathelphusa maculata</i>	Maculate freshwater crab	Least Concern	Not Assessed	No	Native	BTNR	Yes	B1, B2
2	Freshwater crab	Sesarmidae	<i>Geosesarma peraccae</i>	Peracca's land crab	Not Assessed	Vulnerable	Yes	Native	BTNR	No	-
3	Freshwater crayfish	Parastacidae	<i>Cherax quadricarinatus</i>	Redclaw crayfish	Least Concern	Not Assessed	No	Non-native	BTNR	Yes	B1
4	Freshwater shrimp	Atyidae	<i>Caridina sp.</i>	NA	NA	NA	NA	NA	-	Yes	B1
5	Freshwater shrimp	Palaemonidae	<i>Macrobrachium sp.</i>	NA	NA	NA	NA	NA	-	Yes	B1

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008)	Species of Conservation Significance (Yes/No)	Native Status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Li et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Study Area B1 (West of Lorong Sesuai), B2, C1
1	Ambassidae	<i>Parambassis siamensis</i>	Indochinese glass-perchlet	Least Concern	Not Assessed	No	Non-native	-	Yes	B1
2	Aplocheilidae	<i>Aplocheilus lineatus</i>	Banded panchax	Least Concern	Not Assessed	No	Non-native	-	Yes	B1
3	Channidae	<i>Channa micropeltes</i>	Giant snakehead/toman	Least Concern	Not Assessed	No	Non-native	-	Yes	B1
4	Cichlidae	<i>Oreochromis mossambicus</i>	Mozambique tilapia	Vulnerable	Not Assessed	No	Non-native	BTNR	Yes	B1
5	Cichlidae	<i>Cichlasoma urophthalmum</i>	Mayan cichlid	Least Concern	Not Assessed	No	Non-native	BTNR	Yes	B1
6	Clariidae	<i>Clarias cf. batrachus</i>	Common walking catfish	Not Assessed	Not Assessed	No	Native	BTNR	Yes	B1
7	Cyprinidae	<i>Puntigrus partipentazona</i>	Malayan tiger barb	Least Concern	Not Assessed	No	Non-native	BTNR, Tengah	Yes	B1
8	Loricariidae	<i>Pterygoplichthys sp.</i>	Unidentified armoured sucking catfish	NA	NA	NA	-	-	Yes	B1
9	Osphronemidae	<i>Betta pugnax</i>	Malayan forest betta	Least Concern	Not Assessed	No	Native	BTNR	Yes	B1
10	Osphronemidae	<i>Trichopsis vittata</i>	Croaking gouramy	Least Concern	Not Assessed	No	Native	BTNR, Tengah	Yes	B1
11	Poeciliidae	<i>Poecilia reticulata</i>	Guppy	Least Concern	Not Assessed	No	Non-native	BTNR, Tengah	Yes	B1, B2, C1
12	Poeciliidae	<i>Xiphophorus helleri</i>	Swordtail	Least Concern	Not Assessed	No	Non-native	-	Yes	B1
13	Poeciliidae	<i>Xiphophorus maculatus</i>	Southern platy	Data Deficient	Not Assessed	No	Non-native	BTNR	Yes	B1
14	Synbranchidae	<i>Monopterus albus</i>	Asian swamp eel	Least Concern	Not Assessed	No	Native	BTNR, Tengah	Yes	B1, B2, C1

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008)	Species of Conservation	Native Status	Bukit Timah Nature Reserve (BTNR)	Recorded Species	Study Area B1 (West of Lorong Sesuai), B2, C1
1	Ampullariidae	<i>Pomacea canaliculata</i>	NA	Least Concern	Not Assessed	No	Non-native	-	Yes	B1
2	Thiaridae	<i>Melanoides tuberculata</i>	NA	Least Concern	Not Assessed	No	Native	-	Yes	B1, B2
3	Thiaridae	<i>Tarebia granifera</i>	NA	Least Concern	Not Assessed	No	Indeterminate	-	Yes	B1
4	Viviparidae	<i>Filopaludina sp.</i>	NA	NA	NA	NA	NA	-	Yes	B1

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (Baker & Lim, 2012)	Native Status (Baker & Lim, 2012)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Study Area B1 (West of Lorong Sesuai), B2, B3, B4, C1 and C2	Remarks
1	Frog	Dic平glossidae	<i>Fejervarya limnocharis</i>	Field frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, C1	
2	Frog	Dic平glossidae	<i>Limnonectes blythii</i>	Malayan giant frog	Near Threatened	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, B2, B3, B4, C1, C2	Frogspawn and tadpoles observed
3	Frog	Eleutherodactylidae	<i>Eleutherodactylus planirostris</i>	Greenhouse frog	Least Concern	Not Assessed	No	Widespread and Common	Non-native	Tengah	Yes	B1, B2, B3, B4, C1, C2	
4	Frog	Ranidae	<i>Lithobates catesbeianus</i>	American bullfrog	Least Concern	Not Assessed	No	Widespread and Common	Non-native	Tengah	Yes	B1	
5	Frog	Microhylidae	<i>Kaloula pulchra</i>	Banded bull frog	Least Concern	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	B1, B4, C1	
6	Frog	Microhylidae	<i>Microhyla butleri</i>	Painted chorus frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1	Tadpoles observed
7	Frog	Microhylidae	<i>Microhyla heymonsi</i>	Dark-sided chorus frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B4, C1	Tadpoles observed
8	Frog	Microhylidae	<i>Microhyla mukhlesuri</i>	East Asian ornate chorus frog	Least Concern	Not Assessed	No	Restricted and Rare	Non-native	BTNR	Yes	C1	
9	Frog	Rhacophoridae	<i>Polypedates leucomystax</i>	Four-lined tree frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, B4, C1	Tadpoles observed
10	Toad	Bufo平idae	<i>Duttaphrynus bengalensis</i>	Indian toad	Least Concern	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	B1, B2, B4, C1	Tadpoles observed

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (Baker & Lim, 2012)	Native Status (Baker & Lim, 2012)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Study Area B1 (West of Lorong Sesuai), B2, B3, B4, C1 and C2	Remarks
1	Non-marine lizard	Agamidae	<i>Bronchocela cristatella</i>	Green crested lizard	Not Assessed	Least Concern	No	Widespread but Uncommon	Native	BTNR, Tengah	Yes	B1, B2, B4, C1	
2	Non-marine lizard	Agamidae	<i>Calotes versicolor</i>	Changeable lizard	Not Assessed	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	B1, B2, B4	
3	Non-marine lizard	Agamidae	<i>Draco sumatranus</i>	Sumatran flying dragon	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR	Yes	B1, B4, C1, C2	
4	Non-marine lizard	Dactyloidae	<i>Anolis sagrei</i>	Brown anole	Not Assessed	Not Assessed	No	Restricted but Common	Non-native	-	Yes	B4	
5	Non-marine lizard	Gekkonidae	<i>Gehyra mutilata</i>	Four-clawed gecko	Not Assessed	Not Assessed	No	Widespread and Common	Native	BTNR	Yes	B1	
6	Non-marine lizard	Gekkonidae	<i>Gekko monarchus</i>	Spotted house gecko	Not Assessed	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, B2, B3, B4, C1	
7	Non-marine lizard	Gekkonidae	<i>Hemidactylus brookii</i>	Brooke's house gecko	Not Assessed	Not Assessed	No	Restricted and Rare	Non-native	-	Yes	B4	
8	Non-marine lizard	Gekkonidae	<i>Hemidactylus frenatus</i>	Spiny-tailed house gecko	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, B3, B4, C1, C2	
9	Non-marine lizard	Gekkonidae	<i>Hemidactylus platyurus</i>	Flat-tailed gecko	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR	Yes	B4	
10	Non-marine lizard	Scincidae	<i>Eutropis multifasciata</i>	Many-lined sun skink	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B3, C1	Also recorded on camera trap
11	Non-marine lizard	Scincidae	<i>Lygosoma bowringii</i>	Garden supple skink	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR	Yes	B3, C1	
12	Non-marine lizard	Varanidae	<i>Varanus nebulosus</i>	Clouded monitor	Not Assessed; CITES protected (Appendix I)	Least Concern	No	Restricted but Common	Native	BTNR	Yes	B1, B2, B3, B4, C1, C2	Roadkill observed; also recorded on camera trap
13	Non-marine lizard	Varanidae	<i>Varanus salvator</i>	Malayan water monitor	Least Concern; CITES protected (Appendix II)	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, B2, B4, C1	Also recorded on camera trap
14	Non-marine snake	Colubridae	<i>Ahaetulla prasina</i>	Oriental whip snake	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, B2, C1	
15	Non-marine snake	Colubridae	<i>Bolga cynodon</i>	Dog-toothed cat snake	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	-	
16	Non-marine snake	Colubridae	<i>Boiga melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	Yes	Widespread but Rare	Native	BTNR	No	-	
17	Non-marine snake	Colubridae	<i>Chrysopelea paradisi</i>	Paradise gliding snake	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR	Yes	B1, B4	Roadkill observed; also recorded on camera trap
18	Non-marine snake	Colubridae	<i>Dendrelaphis caudolineatus</i>	Striped bronzeback	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B2	
19	Non-marine snake	Colubridae	<i>Dendrelaphis kopsteini</i>	Red-necked bronzeback	Least Concern	Near Threatened	No	Widespread but Rare	Native	BTNR, Tengah	Yes	B1	
20	Non-marine snake	Colubridae	<i>Dendrelaphis pictus</i>	Painted bronzeback	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1, B2, B4, C1	
21	Non-marine snake	Colubridae	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	-	
22	Non-marine snake	Colubridae	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	Yes	Restricted and Rare	Native	BTNR, Tengah	No	-	Previously recorded in B1 (West of Lorong Sesuai) (Law et al., 2022)
23	Non-marine snake	Colubridae	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	-	
24	Non-marine snake	Colubridae	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	Yes	Widespread but Uncommon	Native	BTNR	No	-	
25	Non-marine snake	Elapidae	<i>Calliophis bivirgatus</i>	Malayan blue coral snake	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR	No	-	
26	Non-marine snake	Elapidae	<i>Naja sumatrana</i>	Equatorial spitting cobra	Least Concern; CITES protected (Appendix II)	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	B1	
27	Non-marine snake	Elapidae	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	Restricted and Rare	Native	-	No	-	
28	Non-marine snake	Pythonidae	<i>Malayopython reticulatus</i>	Reticulated python	Least Concern; CITES protected (Appendix II)	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	B4	
29	Non-marine turtle	Emydidae	<i>Trachemys scripta</i>	Red-eared slider	Least Concern	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	B1	
30	Non-marine turtle	Geomydidae	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Restricted but Common	Native	Tengah	No	-	
31	Non-marine turtle	Trionychidae	<i>Amyda cartilaginea</i>	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	Restricted and Uncommon	Native	Tengah	Yes	C1	

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2022)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (NSS, 2020; Singapore Birds Project, 2020)	Primary Native Status (NSS, 2020; Singapre Birds Project, 2020)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Lim, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Study Area B1 (West of Lorong Sesuai), B2, B3, B4, C1 and C2	Remarks
1	Accipitridae	<i>Accipiter trivirgatus</i>	Crested goshawk	Least Concern; CITES protected (Appendix II)	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	B4	
2	Accipitridae	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened;	Vulnerable	Yes	Uncommon	Resident breeder	BTNR, Tengah	No	-	Nesting observed
3	Accipitridae	<i>Haliaeetus leucogaster</i>	White-bellied sea eagle	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	B1, B2, B4, C1, C2	
4	Accipitridae	<i>Haliastur indus</i>	Brahminy kite	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Resident breeder	Tengah	Yes	B1	
5	Accipitridae	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Common	Resident breeder	BTNR, Tengah	Yes	B1, B2, B3, B4, C1	Also recorded on camera trap
6	Accipitridae	<i>Pernis ptilorhynchus</i>	Crested honey-buzzard	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Passage migrant	-	Yes	B1	
7	Accipitridae	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Yes	Rare	Resident, breeding not proven	BTNR, Tengah	No	-	
8	Aegithinidae	<i>Aegithina tiphia</i>	Common iora	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	B1, B3, B4, C1	
9	Alcedinidae	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Yes	Uncommon	Resident breeder	BTNR, Tengah	No	-	
10	Alcedinidae	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Yes	Uncommon	Resident breeder	-	No	-	
11	Alcedinidae	<i>Halcyon smyrnensis</i>	White-throated kingfisher	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	B1, B2, B3, B4, C1	Also recorded on camera trap
12	Alcedinidae	<i>Pelargopsis capensis</i>	Stork-billed kingfisher	Least Concern	Least Concern	No	Uncommon	Resident breeder	Tengah	Yes	C1	
13	Alcedinidae	<i>Todiramphus chloris</i>	Collared kingfisher	Least Concern	Least Concern	No	Abundant	Resident breeder	Tengah	Yes	B1, B4	
14	Anatidae	<i>Dendrocygna javanica</i>	Lesser whistling duck	Least Concern	Endangered	Yes	Uncommon	Resident breeder	-	No	-	
15	Anatidae	<i>Nettapus coromandianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Yes	Rare	Resident, breeding not proven	-	No	-	
16	Apodidae	<i>Aerodramus sp.</i>	Unidentified swiftlet	NA	NA	NA	NA	NA	-	Yes	B1, B2, B3, B4, C1, C2	
17	Apodidae	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR, Tengah	Yes	B1, B3, C1	
18	Ardeidae	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	Yes	Uncommon	Resident breeder	-	No	-	
19	Ardeidae	<i>Egretta garzetta</i>	Little egret	Least Concern	Least Concern	No	Common	Non-breeding visitor	-	Yes	B3	
20	Ardeidae	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Yes	Uncommon	Resident breeder	Tengah	No	-	
21	Bucerotidae	<i>Anthracoceros albirostris</i>	Oriental pied hornbill	Least Concern; CITES protected (Appendix II)	Near Threatened	No	Common	Introduced resident breeder	-	Yes	B4	
22	Cacatuidae	<i>Cacatua goffiniana</i>	Tanimbar corella	Near Threatened; CITES protected (Appendix I)	Not Assessed	No	Common	Introduced resident breeder	-	Yes	B4	
23	Campephagidae	<i>Pericrocotus divaricatus</i>	Ashy minivet	Least Concern	Least Concern	No	Common	Winter visitor	Tengah	Yes	B1, B2, B4	
24	Caprimulgidae	<i>Caprimulgus affinis</i>	Savanna nightjar	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	B4	
25	Caprimulgidae	<i>Caprimulgus macrurus</i>	Large-tailed nightjar	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	B1	
26	Chloropseidae	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Yes	Rare	Resident, breeding not proven	BTNR	No	-	
27	Chloropseidae	<i>Chloropsis sonorensis</i>	Greater green leafbird	Endangered	Critically Endangered	Yes	Uncommon	Resident, breeding not proven	BTNR	No	-	
28	Cisticolidae	<i>Orthotomus atrogularis</i>	Dark-necked tailorbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	B1, B2, B3, B4, C1, C2	
29	Cisticolidae	<i>Orthotomus ruficeps</i>	Ashy tailorbird	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	B1	
30	Cisticolidae	<i>Orthotomus sericeus</i>	Rufous-tailed tailorbird	Least Concern	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	B1, B2, B3, B4, C1, C2	
31	Cisticolidae	<i>Orthotomus sutorius</i>	Common tailorbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	B1, B2, B4, C1	
32	Cisticolidae	<i>Prinia flavigaster</i>	Yellow-bellied prinia	Least Concern	Near Threatened	No	Common	Resident breeder	Tengah	Yes	B1	
33	Columbidae	<i>Chalcophaps indica</i>	Common emerald dove	Least Concern	Least Concern	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	B1, B2, B3, B4, C1	Also recorded on camera trap
34	Columbidae	<i>Columba livia</i>	Rock dove	Least Concern	Not Assessed	No	Abundant	Introduced resident breeder	-	Yes	B1, B3, B4	Also recorded on camera trap
35	Columbidae	<i>Ducula bicolor</i>	Pied imperial pigeon	Least Concern	Data Deficient	No	Uncommon	Introduced resident breeder	Tengah	Yes	B1, B2, B3, B4	
36	Columbidae	<i>Geopelia striata</i>	Zebra dove	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	B3, B4	Also recorded on camera trap
37	Columbidae	<i>Spilopelia chinensis</i>	Spotted dove	Least Concern	Least Concern	No	Abundant	Resident breeder	Tengah	Yes	B1, B2, B3, B4, C1, C2	Also recorded on camera trap
38	Columbidae	<i>Trogon curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR	No	-	
39	Columbidae	<i>Trogon vernans</i>	Pink-necked green pigeon	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	B1, B2, B3, B4, C1	
40	Coraciidae	<i>Eurystomus orientalis</i>	Oriental dollarbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	B1, B2, B3, B4, C1

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Aculeate hymenopterans

No.	Type	Family name	Scientific name	Common name	Global status (IUCN, 2012)	National status (Ascher et al., 2022; Lee, pers comm)	Species of conservation significance	Native status (The Biodiversity of Singapore, 2021; Lee, pers comm)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Ascher et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Bee	Apidae	<i>Amegilla andrewsi</i>	Andrew's blue-banded digger bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
2	Bee	Apidae	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
3	Bee	Apidae	<i>Apis andreniformis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	Nesting observed
4	Bee	Apidae	<i>Apis cerana</i>	Eastern honey bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	Nesting observed
5	Bee	Apidae	<i>Apis dorsata</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
6	Bee	Apidae	<i>Braunsapis puangensis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
7	Bee	Apidae	<i>Ceratina fuliginosa</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
8	Bee	Apidae	<i>Ceratina nigrolateralis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
9	Bee	Apidae	<i>Ceratina ridleyi</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
10	Bee	Apidae	<i>Ceratina unimaculata</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
11	Bee	Apidae	<i>Nomada malayana</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
12	Bee	Apidae	<i>Thyreus himalayensis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
13	Bee	Apidae	<i>Xylocopa caerulea</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
14	Bee	Apidae	<i>Xylocopa flavonigrescens</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
15	Bee	Apidae	<i>Xylocopa latipes</i>	Broad-handed carpenter bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
16	Bee	Colletidae	<i>Hylaeus penangensis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
17	Bee	Halictidae	<i>Lasioglossum albescens</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
18	Bee	Halictidae	<i>Lasioglossum semirussatum</i>	NA	Not Assessed	Critically Endangered	Yes	Native	BTNR	No	
19	Bee	Halictidae	<i>Lasioglossum vagans</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
20	Bee	Halictidae	<i>Lipotriches takauensis</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
21	Bee	Halictidae	<i>Nomia apicalis</i>	NA	Not Assessed	Critically Endangered	Yes	Native	BTNR	No	
22	Bee	Halictidae	<i>Nomia incerta</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
23	Bee	Halictidae	<i>Nomia strigata</i>	Pearly-banded bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
24	Bee	Halictidae	<i>Patellapis intricata</i>	NA	Not Assessed	Critically Endangered	Yes	Native	BTNR	No	
25	Bee	Megachilidae	<i>Anthidiellum smithii</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
26	Bee	Megachilidae	<i>Megachile indonesia</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
27	Bee	Megachilidae	<i>Megachile ornata</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
28	Bee	Megachilidae	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
29	Wasp	Crabronidae	<i>Dasyproctus sp.</i>	NA	Not Assessed	Data Deficient	No	Native	-	Yes	
30	Wasp	Crabronidae	<i>Liris sp.</i>	NA	Not Assessed	Least Concern	No	Native	-	Yes	
31	Wasp	Crabronidae	<i>Liris subtestellatus</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
32	Wasp	Crabronidae	<i>Tachytes cf. modestus</i>	NA	Not Assessed	Least Concern	No	Native	-	Yes	
33	Wasp	Pompilidae	<i>Episyron sp.</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
34	Wasp	Pompilidae	<i>Family Pompilidae</i>	NA	Not Assessed	NA	NA	NA	-	Yes	
35	Wasp	Sphecidae	<i>Chalybion bengalense</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
36	Wasp	Sphecidae	<i>Isodontia diodon</i>	NA	Not Assessed	Least Concern	No	Native	-	Yes	
37	Wasp	Sphecidae	<i>Sceliphron coromandelicum</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes

39	Wasp	Vespidae	<i>Delta pyriforme</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
40	Wasp	Vespidae	<i>Liostenogaster nitidipennis</i>	NA	Not Assessed	Near Threatened	No	Native	-	Yes	Nesting observed
41	Wasp	Vespidae	<i>Liostenogaster varipicta</i>	NA	Not Assessed	Near Threatened	No	Native	Tengah	Yes	
42	Wasp	Vespidae	<i>Parischnogaster mellyi</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed
43	Wasp	Vespidae	<i>Parischnogaster nigricans</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
44	Wasp	Vespidae	<i>Polistes sagittarius</i>	Banded paper wasp	Not Assessed	Least Concern	No	Native	-	Yes	
45	Wasp	Vespidae	<i>Rhynchium haemorrhoideale</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
46	Wasp	Vespidae	<i>Ropalidia erythrosipa</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed
47	Wasp	Vespidae	<i>Ropalidia jacobsoni</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed
48	Wasp	Vespidae	<i>Ropalidia stigma</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
49	Wasp	Vespidae	<i>Ropalidia sumatrae</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed
50	Wasp	Vespidae	<i>Stenodyneriellus guttulatus</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
51	Wasp	Vespidae	<i>Vespa analis</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed
52	Wasp	Vespidae	<i>Vespa tropica</i>	Greater banded hornet	Not Assessed	Least Concern	No	Native	Tengah	Yes	

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Odonates

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Ngiam & Ng, 2022)	Species of Conservation Significance (Yes/No)	Distribution/Rarity (Ngiam & Ng, 2022)	Native status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Cai et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Damselfly	Argiolestidae	<i>Podolestes orientalis</i>	Blue-spotted flatwing	Least Concern	Vulnerable	Yes	Restricted and Uncommon	Native	BTNR	No	
2	Damselfly	Coenagrionidae	<i>Amphicnemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	Yes	Restricted but Common	Native	BTNR	No	
3	Damselfly	Coenagrionidae	<i>Ceriagrion cerinorubellum</i>	Ornate coraltail	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
4	Damselfly	Coenagrionidae	<i>Pseudagrion microcephalum</i>	Blue sprite	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Mating observed
5	Damselfly	Platycnemididae	<i>Copera vittata</i>	Variable featherlegs	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	-	No	
6	Damselfly	Platycnemididae	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	Yes	Restricted and Uncommon	Native	BTNR	No	
7	Damselfly	Platycnemididae	<i>Prodasineura humeralis</i>	Orange-striped threadtail	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR	Yes	Mating observed
8	Damselfly	Platycnemididae	<i>Prodasineura notostigma</i>	Crescent threadtail	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR	Yes	Mating observed
9	Damselfly	Platystictidae	<i>Drepanosticta quadrata</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	Yes	Restricted but Common	Native	BTNR, Tengah	No	
10	Dragonfly	Aeshnidae	<i>Gynacantha basiguttata</i>	Spoon-tailed duskhawker	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	-	No	
11	Dragonfly	Gomphidae	<i>Acrogomphus malayanus</i>	Malayan hoolkaat	Near Threatened	Vulnerable	Yes	Restricted and Rare	Native	-	No	-
12	Dragonfly	Gomphidae	<i>Ictinogomphus decoratus</i>	Common flangetail	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
13	Dragonfly	Libellulidae	<i>Acisoma panorpoides</i>	Trumpet tail	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
14	Dragonfly	Libellulidae	<i>Aethriamanta gracilis</i>	Pond adjudant	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR	Yes	
15	Dragonfly	Libellulidae	<i>Brachydiplex chalybea</i>	Blue dasher	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
16	Dragonfly	Libellulidae	<i>Brachythemis contaminata</i>	Common amberwing	Least Concern	Least Concern	No	Widespread and Common	Native	-	Yes	
17	Dragonfly	Libellulidae	<i>Chalybeothemis fluviatilis</i>	Green-eyed percher	Not Assessed	Vulnerable	Yes	Restricted and Uncommon	Native	-	No	-
18	Dragonfly	Libellulidae	<i>Cratilla metallica</i>	Dark-tipped forest skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Ovipositing observed
19	Dragonfly	Libellulidae	<i>Crocorthemis servilia</i>	Common scarlet	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
20	Dragonfly	Libellulidae	<i>Hydrobasileus croceus</i>	Water monarch	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR	Yes	
21	Dragonfly	Libellulidae	<i>Indothemis carnatica</i>	White-tipped demon	Near Threatened	Critically Endangered	Yes	Restricted and Very Rare	Native	-	No	
22	Dragonfly	Libellulidae	<i>Neurothemis fluctuans</i>	Common parasol	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
23	Dragonfly	Libellulidae	<i>Orthetrum chrysium</i>	Spine-tufted skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Ovipositing observed
24	Dragonfly	Libellulidae	<i>Orthetrum glaucum</i>	Common blue skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Mating and ovipositing observed
25	Dragonfly	Libellulidae	<i>Orthetrum luzonicum</i>	Slender blue skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR	Yes	
26	Dragonfly	Libellulidae	<i>Orthetrum sabina</i>	Variegated green skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
27	Dragonfly	Libellulidae	<i>Orthetrum testaceum</i>	Scarlet skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
28	Dragonfly	Libellulidae	<i>Pantala flavescens</i>	Wandering glider	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
29	Dragonfly	Libellulidae	<i>Pseudothemis jorina</i>	Banded skimmer	Least Concern	Least Concern	No	Widespread but Uncommon	Native	BTNR	Yes	
30	Dragonfly	Libellulidae	<i>Rhodothemis rufa</i>	Common redbolt	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
31	Dragonfly	Libellulidae	<i>Rhyothemis phyllis</i>	Yellow-barred flutterer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
32	Dragonfly	Libellulidae	<i>Tribithemis aurora</i>	Crimson dropwing	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR	Yes	
33	Dragonfly	Libellulidae	<i>Tribithemis festiva</i>	Indigo dropwing	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR	Yes	
34	Dragonfly	Libellulidae	<i>Urothemis signata</i>	Scarlet basker	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
35	Dragonfly	Macromiidae	<i>Epophthalmia vittigera</i>	Pond cruiser	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR	Yes	

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Butterflies

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008; Jain et al, 2018)	Species of Conservation Significance (Yes/No)	Distribution/Abundance /Rarity (Khew, 2015)	Native status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Khew & Tan, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Hesperiidae	<i>Ancistrodes nigrita maura</i>	Chocolate demon	Not Assessed	Not Assessed	No	Common	Resident	Tengah	Yes	
2	Hesperiidae	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
3	Hesperiidae	<i>Baoris oceia</i>	Paintbrush swift	Not Assessed	Not Assessed	No	Moderately rare	Resident	-	Yes	
4	Hesperiidae	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	Yes	Moderately common	Resident	Tengah	Yes	
5	Hesperiidae	<i>Caltoris cormasa</i>	Full stop swift	Not Assessed	Not Assessed	No	Moderately rare	Resident	BTNR, Tengah	Yes	
6	Hesperiidae	<i>Caltoris malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
7	Hesperiidae	<i>Cephrenes sp.</i>	Unidentified palm dart	NA	NA	NA	NA	NA	-	Yes	
8	Hesperiidae	<i>Gangara lebadea lebadea</i>	Banded reudeye	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Very rare	Resident	-	No	
9	Hesperiidae	<i>Iambrix salsala salsa</i>	Chestnut bob	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
10	Hesperiidae	<i>Oreens gola pseudolus</i>	Common dartlet	Not Assessed	Not Assessed	No	Moderately common	Resident	Tengah	Yes	
11	Hesperiidae	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	Yes	Moderately common	Resident	-	No	
12	Hesperiidae	<i>Pelopidas mathias mathias</i>	Small branded swift	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
13	Hesperiidae	<i>Polytremis lubricans lubricans</i>	Contiguous swift	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
14	Hesperiidae	<i>Potanthus omaha omaha</i>	Lesser dart	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
15	Hesperiidae	<i>Potanthus trachala tytleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	Yes	
16	Hesperiidae	<i>Suastus everyx everyx</i>	White palm bob	Not Assessed	Endangered	Yes	Rare	Resident	-	No	
17	Hesperiidae	<i>Tapena thwaitesi bornea</i>	Dark flat	Not Assessed	Endangered	Yes	Moderately rare	Resident	BTNR	No	
18	Hesperiidae	<i>Telicota colon stinga</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately common	Resident	-	No	
19	Hesperiidae	<i>Zela storeyi</i>	Storey's palmer	Not Assessed	Critically Endangered	Yes	Very rare	Resident	-	No	
20	Lycaenidae	<i>Ancema blanka blanka</i>	Silver royal	Not Assessed	Critically Endangered	Yes	Very rare	Resident	-	No	
21	Lycaenidae	<i>Anthene emolus goberus</i>	Ciliate blue	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	
22	Lycaenidae	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately common	Resident	-	No	
23	Lycaenidae	<i>Arhopala antimuta antimuta</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	Yes	Rare	Resident	-	No	
24	Lycaenidae	<i>Arhopala eumolphus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	BTNR	No	
25	Lycaenidae	<i>Arhopala silhetensis adorea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Rare	Resident	BTNR	No	
26	Lycaenidae	<i>Catopyrops aencyra</i>	Aencyra blue	Not Assessed	Vulnerable	Yes	Moderately rare	Resident	-	No	
27	Lycaenidae	<i>Eooxylyides thans distantii</i>	Branded imperial	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Overpositing observed
28	Lycaenidae	<i>Euchrysops cneius cneius</i>	Gram blue	Not Assessed	Not Assessed	No	Moderately common	Resident	Tengah	Yes	
29	Lycaenidae	<i>Hypolycaena erylus teatus</i>	Common tit	Not Assessed	Not Assessed	No	Common	Resident	-	Yes	
30	Lycaenidae	<i>Iraota rochana boswelliana</i>	Scarce silverstreak	Not Assessed	Not Assessed	No	Moderately common	Resident	BTNR	Yes	
31	Lycaenidae	<i>Jamides alecto ageladas</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
32	Lycaenidae	<i>Jamides celeno aelianus</i>	Common caerulean	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
33	Lycaenidae	<i>Logania marmorata damis</i>	Pale mottle	Not Assessed	Not Assessed	No	Moderately common	Resident	-	Yes	
34	Lycaenidae	<i>Loxura atymnus fucorius</i>	Yamfly	Not Assessed	Not Assessed	No	Moderately common	Resident	-	Yes	
35	Lycaenidae	<i>Manto hypoleuca terana</i>	Green imperial	Not Assessed	Nationally Extinct	Yes	Rare	Resident	-	No	
36	Lycaenidae	<i>Nacaduba beroe neon</i>	Opaque sixline blue	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	
37	Lycaenidae	<i>Nacaduba kurava nemana</i>	Transparent sixline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately common	Resident	BTNR	No	
38	Lycaenidae	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
39	Lycaenidae	<i>Nacaduba sanaya elioti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	Tengah	No	
40	Lycaenidae	<i>Prosotas dubiosa lumpura</i>	Tailless line blue	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
41	Lycaenidae	<i>Rachana jalindra burbona</i>	Banded royal	Not Assessed	Critically Endangered	Yes	Very rare	Resident	BTNR	No	
42	Lycaenidae	<i>Tajuria cippus maxentius</i>	Peacock royal	Not Assessed	Not Assessed	No	Moderately common	Resident	-	Yes	

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Butterflies

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008; Jain et al, 2018)	Species of Conservation Significance (Yes/No)	Distribution/Abundance /Rarity (Khew, 2015)	Native status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Khew & Tan, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
43	Lycaenidae	<i>Zizeeria maha serica</i>	Pale grass blue	Not Assessed	Not Assessed	No	Common	Non-native	-	Yes	
44	Lycaenidae	<i>Zizina otis lampa</i>	Lesser grass blue	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	
45	Lycaenidae	<i>Zizula hylax pygmaea</i>	Pygmy grass blue	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
46	Nymphalidae	<i>Acraea terpsicore</i>	Tawny coster	Not Assessed	Not Assessed	No	Common	Non-native	Tengah	Yes	
47	Nymphalidae	<i>Athyra nefte substrata</i>	Colour sergeant	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	
48	Nymphalidae	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Yes	Very rare	Resident	-	No	
49	Nymphalidae	<i>Cupha erymanthis lotis</i>	Rustic	Not Assessed	Not Assessed	No	Moderately common	Resident	BTNR	Yes	
50	Nymphalidae	<i>Danaus chrysippus chrysippus</i>	Plain tiger	Not Assessed	Not Assessed	No	Common	Resident	Tengah	Yes	
51	Nymphalidae	<i>Discophora sondaica despoliata</i>	Common duffer	Not Assessed	Critically Endangered	Yes	Rare	Resident	-	No	
52	Nymphalidae	<i>Doleschallia bisaltide bisaltide</i>	Autumn leaf	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Caterpillars observed
53	Nymphalidae	<i>Dryas iulia</i>	Julia heliconian	Not Assessed	Not Assessed	No	Not Assessed	Resident	-	Yes	
54	Nymphalidae	<i>Elymnias hypermnestra agina</i>	Common palmfly	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
55	Nymphalidae	<i>Elymnias panthera panthera</i>	Tawny palmfly	Not Assessed	Not Assessed	No	Moderately common	Resident	BTNR, Tengah	Yes	
56	Nymphalidae	<i>Euthalia aconthea gurda</i>	Baron	Not Assessed	Not Assessed	No	Common	Resident	-	Yes	
57	Nymphalidae	<i>Hypolimnas anomala anomala</i>	Malayan eggfly	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Caterpillars observed
58	Nymphalidae	<i>Ideopsis vulgaris macrina</i>	Blue glassy tiger	Not Assessed	Not Assessed	No	Common	Resident	Tengah	Yes	
59	Nymphalidae	<i>Junonia almana javana</i>	Peacock pansy	Least Concern	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
60	Nymphalidae	<i>Junonia atlites atlites</i>	Grey pansy	Not Assessed	Not Assessed	No	Moderately common	Resident	BTNR, Tengah	Yes	
61	Nymphalidae	<i>Junonia hedonia ida</i>	Chocolate pansy	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
62	Nymphalidae	<i>Lasippa tiga siaka</i>	Malayan lascar	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Mating observed
63	Nymphalidae	<i>Myccalesis mineus macromalayana</i>	Dark brand bush brown	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
64	Nymphalidae	<i>Myccalesis visala phamis</i>	Long brand bush brown	Not Assessed	Not Assessed	No	Moderately common	Resident	Tengah	Yes	
65	Nymphalidae	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Yes	Rare	Resident	BTNR	No	
66	Nymphalidae	<i>Neptis hydas papaja</i>	Common sailor	Not Assessed	Not Assessed	No	Moderately common	Resident	BTNR, Tengah	Yes	
67	Nymphalidae	<i>Parantica agleoides agleoides</i>	Dark glassy tiger	Not Assessed	Not Assessed	No	Common	Resident	Tengah	Yes	
68	Nymphalidae	<i>Phalantha phalantha phalantha</i>	Leopard	Not Assessed	Not Assessed	No	Common	Resident	-	Yes	Overpositing observed
69	Nymphalidae	<i>Tanaecia pelea pelea</i>	Malay viscount	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
70	Nymphalidae	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Very rare	Vagrant	-	No	
71	Nymphalidae	<i>Xanthoanais busiris busiris</i>	Yellow barred	Not Assessed	Not Assessed	No	Not Assessed	Extinct	-	Yes	
72	Nymphalidae	<i>Ypthima baldus newboldi</i>	Common five-ring	Not Assessed	Not Assessed	No	Common	Resident	Tengah	Yes	
73	Nymphalidae	<i>Ypthima horsfieldii humei</i>	Malayan five-ring	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
74	Papilionidae	<i>Chilasa clytia clytia</i>	Common mime	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	Caterpillars observed
75	Papilionidae	<i>Pachliopta aristolochiae asteris</i>	Common rose	Not Assessed	Vulnerable	Yes	Moderately common	Resident	-	No	
76	Papilionidae	<i>Papilio demoleus malayanus</i>	Lime butterfly	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	
77	Papilionidae	<i>Papilio polytes romulus</i>	Common mormon	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
78	Papilionidae	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Yes	Rare	Resident	BTNR	No	
79	Papilionidae	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Yes	Moderately common	Resident	BTNR	No	
80	Pieridae	<i>Appias libythea offerna</i>	Striped albatross	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
81	Pieridae	<i>Delias hyparete metarete</i>	Painted jezebel	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
82	Pieridae	<i>Eurema hecabe contubernalis</i>	Common grass yellow	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Mating observed
83	Riodinidae	<i>Abisara savitri savitri</i>	Malay tailed judy	Not Assessed	Not Assessed	No	Moderately rare	Resident	BTNR, Tengah	Yes	

Appendix 5 - List of Probable Faunal Species at BBTP (Area D) - Decapods

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008)	Species of Conservation Significance (Yes/No)	Native Status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Khoo et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)
1	Freshwater crab	Gecarcinucidae	<i>Parathelphusa maculata</i>	Maculate freshwater crab	Least Concern	Not Assessed	No	Native	BTNR	Yes
2	Freshwater crayfish	Parastacidae	<i>Cherax quadricarinatus</i>	Redclaw crayfish	Least Concern	Not Assessed	No	Non-native	BTNR	Yes
3	Freshwater shrimp	Atyidae	<i>Caridina sp.</i>	NA	NA	NA	NA	NA	-	Yes
4	Freshwater shrimp	Palaemonidae	<i>Macrobrachium lanchesteri</i>	Riceland shrimp	Least Concern	Not Assessed	No	Non-native	BTNR, Tengah	Yes
5	Freshwater shrimp	Palaemonidae	<i>Macrobrachium pilimanus</i>	NA	NA	NA	NA	NA	-	Yes
6	Freshwater shrimp	Palaemonidae	<i>Macrobrachium sp.</i>	NA	NA	NA	NA	NA	-	Yes

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Fish

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008)	Species of Conservation Significance (Yes/No)	Native Status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Li et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)
1	Channidae	<i>Channa micropeltes</i>	Giant snakehead/toman	Least Concern	Not Assessed	No	Non-native	-	Yes
2	Channidae	<i>Channa striata</i>	Common snakehead/aruan	Least Concern	Not Assessed	No	Native	BTNR, Tengah	Yes
3	Cichlidae	<i>Oreochromis mossambicus</i>	Mozambique tilapia	Vulnerable	Not Assessed	No	Non-native	BTNR	Yes
4	Cichlidae	<i>Amphilophus citrinellus</i>	Midas cichlid	Least Concern	Not Assessed	No	Non-native	-	Yes
5	Cichlidae	<i>Cichlasoma urophthalmum</i>	Mayan cichlid	Least Concern	Not Assessed	No	Non-native	BTNR	Yes
6	Cichlidae	<i>Geophagus altifrons</i>	Red-striped eartheater	Not Assessed	Not Assessed	No	Non-native	-	Yes
7	Clariidae	<i>Clarias cf. batrachus</i>	Common walking catfish	Not Assessed	Not Assessed	No	Native	BTNR	Yes
8	Eleotrididae	<i>Oxyeleotris marmorata</i>	Marbled gudgeon	Least Concern	Not Assessed	No	Non-native	BTNR, Tengah	Yes
9	Gobiidae	<i>Rhinogobius similis</i>	Barcheek goby	Least Concern	Not Assessed	No	Non-native	Tengah	Yes
10	Osphronemidae	<i>Osphronemus goramy</i>	Giant gourami	Least Concern	Not Assessed	No	Non-native	-	Yes
11	Osphronemidae	<i>Osphronemus latilarius</i>	Red giant gourami	Endangered	Not Assessed	No	Non-native	BTNR	Yes
12	Osteoglossidae	Family Osteoglossidae	Unidentified arowana	NA	NA	NA	NA	-	Yes
13	Poeciliidae	<i>Gambusia affinis</i>	Mosquitofish	Least Concern	Not Assessed	No	Non-native	BTNR	Yes
14	Poeciliidae	<i>Poecilia reticulata</i>	Guppy	Least Concern	Not Assessed	No	Non-native	BTNR, Tengah	Yes
15	Synbranchidae	<i>Monopterus albus</i>	Asian swamp eel	Least Concern	Not Assessed	No	Native	BTNR, Tengah	Yes

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Molluscs

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008)	Species of Conservation Significance (Yes/No)	Native Status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records	Recorded Species (Yes/No)
1	Ampullariidae	<i>Pomacea canaliculata</i>	NA	Least Concern	Not Assessed	No	Non-native	-	Yes
2	Physidae	<i>Physa acuta</i>	NA	Not Assessed	Not Assessed	No	Non-native	-	Yes
3	Thiaridae	<i>Melanoides tuberculata</i>	NA	Least Concern	Not Assessed	No	Native	-	Yes
4	Thiaridae	<i>Tarebia granifera</i>	NA	Least Concern	Not Assessed	No	Indeterminate	-	Yes

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Amphibians

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (Baker & Lim, 2012)	Native Status (Baker & Lim, 2012)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Frog	Dic平glossidae	<i>Fejervarya limnocharis</i>	Field frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
2	Frog	Dic平glossidae	<i>Limnonectes blythii</i>	Malayan giant frog	Near Threatened	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Frogspawn and tadpoles observed
3	Frog	Eleutherodactylidae	<i>Eleutherodactylus planirostris</i>	Greenhouse frog	Least Concern	Not Assessed	No	Widespread and Common	Non-native	Tengah	Yes	
4	Frog	Microhylidae	<i>Kaloula pulchra</i>	Banded bull frog	Least Concern	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	
5	Frog	Microhylidae	<i>Microhyla butleri</i>	Painted chorus frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Tadpoles observed
6	Frog	Microhylidae	<i>Microhyla heymonsi</i>	Dark-sided chorus frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Tadpoles observed
7	Frog	Microhylidae	<i>Microhyla mukhlesuri</i>	East Asian ornate chorus frog	Least Concern	Not Assessed	No	Restricted and Rare	Non-native	BTNR	Yes	
8	Frog	Rhacophoridae	<i>Polypedates leucomystax</i>	Four-lined tree frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Tadpoles observed
9	Toad	Bufonidae	<i>Duttaphrynus bengalensis</i>	Indian toad	Least Concern	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	Tadpoles observed

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Reptiles

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (Baker & Lim, 2012)	Native Status (Baker & Lim, 2012)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Non-marine lizard	Agamidae	<i>Bronchocela cristatella</i>	Green crested lizard	Not Assessed	Least Concern	No	Widespread but Uncommon	Native	BTNR, Tengah	Yes	
2	Non-marine lizard	Agamidae	<i>Calotes versicolor</i>	Changeable lizard	Not Assessed	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	
3	Non-marine lizard	Agamidae	<i>Draco sumatranus</i>	Sumatran flying dragon	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR	Yes	
4	Non-marine lizard	Gekkonidae	<i>Gehyra mutilata</i>	Four-clawed gecko	Not Assessed	Not Assessed	No	Widespread and Common	Native	BTNR	Yes	
5	Non-marine lizard	Gekkonidae	<i>Gekko monarchus</i>	Spotted house gecko	Not Assessed	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	
6	Non-marine lizard	Gekkonidae	<i>Hemidactylus frenatus</i>	Spiny-tailed house gecko	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
7	Non-marine lizard	Gekkonidae	<i>Hemidactylus platyurus</i>	Flat-tailed gecko	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR	Yes	
8	Non-marine lizard	Gekkonidae	<i>Lepidodactylus lugubris</i>	Maritime gecko	Not Assessed	Not Assessed	No	Widespread but Rare	Native	-	Yes	
9	Non-marine lizard	Scincidae	<i>Eutropis multifasciata</i>	Many-lined sun skink	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
10	Non-marine lizard	Varanidae	<i>Varanus salvator</i>	Malayan water monitor	Least Concern; CITES protected (Appendix II)	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
11	Non-marine snake	Colubridae	<i>Ahaetulla prasina</i>	Oriental whip snake		Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes
12	Non-marine snake	Colubridae	<i>Boiga melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	Yes	Widespread but Rare	Native	BTNR	No	
13	Non-marine snake	Colubridae	<i>Dendrelaphis pictus</i>	Painted bronzeback	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
14	Non-marine snake	Colubridae	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	
15	Non-marine snake	Colubridae	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	Yes	Restricted and Rare	Native	BTNR, Tengah	No	Previously recorded in B1 (West of Lorong Sesuai) (Law et al., 2022)
16	Non-marine snake	Colubridae	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	
17	Non-marine snake	Colubridae	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	Yes	Widespread but Uncommon	Native	BTNR	No	
18	Non-marine snake	Elapidae	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	Restricted and Rare	Native	-	No	
19	Non-marine turtle	Emydidae	<i>Trachemys decussata</i>	Cuban slider		Not Assessed	Not Assessed	No	Not Assessed	Not Assessed	-	Yes
20	Non-marine turtle	Emydidae	<i>Trachemys scripta</i>	Red-eared slider	Least Concern	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	
21	Non-marine turtle	Geomydidae	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Restricted but Common	Native	Tengah	No	
22	Non-marine turtle	Trionychidae	<i>Amyda cartilaginea</i>	Asian softshell turtle		Vulnerable	Yes	Restricted and Uncommon	Native	Tengah	No	

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Birds

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2022)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (NS, 2020; Singapore Birds Project, 2020)	Primary Native Status (NSS, 2020; Singapre Birds Project, 2020)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Lim, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Accipitridae	<i>Accipiter gularis</i>	Japanese sparrowhawk	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Passage migrant	BTNR, Tengah	Yes	
2	Accipitridae	<i>Accipiter soloensis</i>	Chinese sparrowhawk	Least Concern; CITES protected (Appendix II)	Least Concern	No	Uncommon	Passage migrant	BTNR	Yes	
3	Accipitridae	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened;	Vulnerable	Yes	Uncommon	Resident breeder	BTNR, Tengah	Yes	Nesting observed
4	Accipitridae	<i>Haliaeetus leucogaster</i>	White-bellied sea eagle	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
5	Accipitridae	<i>Haliastur indus</i>	Brahminy kite	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Resident breeder	Tengah	Yes	
6	Accipitridae	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
7	Accipitridae	<i>Pernis ptilorhynchus</i>	Crested honey-buzzard	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Passage migrant	-	Yes	
8	Accipitridae	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Yes	Rare	Resident, breeding not proven	BTNR, Tengah	No	
9	Aegithinidae	<i>Aegithina tiphia</i>	Common iora	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
10	Alcedinidae	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Yes	Uncommon	Resident breeder	BTNR, Tengah	No	
11	Alcedinidae	<i>Ceyx erithaca</i>	Oriental dwarf kingfisher	Least Concern	Near Threatened	No	Uncommon	Winter visitor	-	Yes	
12	Alcedinidae	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Yes	Uncommon	Resident breeder	-	No	
13	Alcedinidae	<i>Halcyon smyrnensis</i>	White-throated kingfisher	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	Also recorded on camera trap
14	Alcedinidae	<i>Todiramphus chloris</i>	Collared kingfisher	Least Concern	Least Concern	No	Abundant	Resident breeder	Tengah	Yes	
15	Anatidae	<i>Dendrocygna javanica</i>	Lesser whistling duck	Least Concern	Endangered	Yes	Uncommon	Resident breeder	-	No	
16	Anatidae	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Yes	Rare	Resident, breeding not proven	-	No	
17	Apodidae	<i>Aerodramus sp.</i>	Unidentified swiftlet	NA	NA	NA	NA		-	Yes	
18	Apodidae	<i>Apus pacificus</i>	Pacific swift	Least Concern	Least Concern	No	Common	Passage migrant	BTNR	Yes	
19	Apodidae	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR, Tengah	Yes	
20	Ardeidae	<i>Ardea intermedia</i>	Intermediate egret	Least Concern	Least Concern	No	Uncommon	Non-breeding visitor	Tengah	Yes	
21	Ardeidae	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	Yes	Uncommon	Resident breeder	-	No	
22	Ardeidae	<i>Gorsachius melanophous</i>	Malayan night heron	Least Concern	Near Threatened	No	Uncommon	Winter visitor	BTNR, Tengah	Yes	Recorded on camera trap
23	Ardeidae	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Yes	Uncommon	Resident breeder	Tengah	No	
24	Bucerotidae	<i>Anthracoceros albirostris</i>	Oriental pied hornbill	Least Concern; CITES protected (Appendix II)	Near Threatened	No	Common	Introduced resident breeder	-	Yes	
25	Campephagidae	<i>Lalage nigra</i>	Pied triller	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
26	Campephagidae	<i>Pericrocotus divaricatus</i>	Ashy minivet	Least Concern	Least Concern	No	Common	Winter visitor	Tengah	Yes	
27	Caprimulgidae	<i>Caprimulgus macrurus</i>	Large-tailed nightjar	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
28	Charadriidae	<i>Vanellus indicus</i>	Red-wattled lapwing	Least Concern	Near Threatened	No	Common	Resident breeder	Tengah	Yes	
29	Chloropseidae	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Yes	Rare	Resident, breeding not proven	BTNR	No	
30	Chloropseidae	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	Yes	Uncommon	Resident, breeding not proven	BTNR	No	
31	Cisticolidae	<i>Orthotomus atrogularis</i>	Dark-necked tailorbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
32	Cisticolidae	<i>Orthotomus sericeus</i>	Rufous-tailed tailorbird	Least Concern	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	
33	Cisticolidae	<i>Orthotomus sutorius</i>	Common tailorbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
34	Cisticolidae	<i>Prinia flaviventris</i>	Yellow-bellied prinia	Least Concern	Near Threatened	No	Common	Resident breeder	Tengah	Yes	
35	Columbidae	<i>Chalcophaps indica</i>	Common emerald dove	Least Concern	Least Concern	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
36	Columbidae	<i>Columba livia</i>	Rock dove	Least Concern	Not Assessed	No	Abundant	Introduced resident breeder	-	Yes	Also recorded on camera trap
37	Columbidae	<i>Ducula bicolor</i>	Pied imperial pigeon	Least Concern	Data Deficient	No	Uncommon	Introduced resident breeder	Tengah	Yes	
38	Columbidae	<i>Geopelia striata</i>	Zebra dove	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	Also recorded on camera trap
39	Columbidae	<i>Spilopelia chinensis</i>	Spotted dove	Least Concern	Least Concern	No	Abundant	Resident breeder	Tengah	Yes	Also recorded on camera trap
40	Columbidae	<i>Treron curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR	No	
41	Columbidae	<i>Treron vernans</i>	Pink-necked green pigeon	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	
42	Coraciidae	<i>Eurystomus orientalis</i>	Oriental dollarbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
43	Corvidae	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	Tengah	Yes	
44	Corvidae	<i>Corvus splendens</i>	House crow	Least Concern	Not Assessed	No	Common	Introduced resident breeder	Tengah	Yes	
45	Cuculidae	<i>Cacomantis merulinus</i>	Plain-tailed cuckoo	Least Concern	Least Concern	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	
46	Cuculidae	<i>Cacomantis sonneratii</i>	Banded bay cuckoo	Least Concern	Least Concern	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	
47	Cuculidae	<i>Centropus bengalensis</i>	Lesser coucal	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Birds

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2022)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (NS, 2020; Singapore Birds Project, 2020)	Primary Native Status (NSS, 2020; Singapre Birds Project, 2020)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Lim, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
48	Cuculidae	<i>Centropus sinensis</i>	Greater coucal	Least Concern	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
49	Cuculidae	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR	No	
50	Cuculidae	<i>Eudynamys scolopaceus</i>	Asian koel	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
51	Cuculidae	<i>Phaenicophaeus sumatranus</i>	Chestnut-bellied malkoha	Near Threatened	Near Threatened	No	Uncommon	Resident breeder	BTNR	Yes	
52	Cuculidae	<i>Surniculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR	Yes	
53	Dicaeidae	<i>Dicaeum chrysorrhoeum</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Yes	Rare	Resident, breeding not proven	BTNR	No	
54	Dicaeidae	<i>Dicaeum cruentatum</i>	Scarlet-backed flowerpecker	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
55	Dicaeidae	<i>Dicaeum trigonostigma</i>	Orange-bellied flowerpecker	Least Concern	Near Threatened	No	Common	Resident breeder	BTNR	Yes	
56	Dicruridae	<i>Dicrurus paradiseus</i>	Greater racket-tailed drongo	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Nesting observed; also recorded on camera trap
57	Helioptinthidae	<i>Helioptais personatus</i>	Masked finfoot	Endangered	Endangered	Yes	Rare	Non-breeding visitor	-	No	
58	Hemiprocnidae	<i>Hemiprocne longipennis</i>	Grey-rumped treeswift	Least Concern	Near Threatened	No	Uncommon	Resident breeder	Tengah	Yes	
59	Hirundinidae	<i>Cecropis daurica</i>	Red-rumped swallow	Least Concern	Least Concern	No	Uncommon	Passage migrant	-	Yes	
60	Hirundinidae	<i>Hirundo rustica</i>	Barn swallow	Least Concern	Near Threatened	No	Abundant	Winter visitor	BTNR	Yes	
61	Hirundinidae	<i>Hirundo tahitica</i>	Pacific swallow	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
62	Laniidae	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Yes	Common	Winter visitor	Tengah	Yes	
63	Laniidae	<i>Lanius schach</i>	Long-tailed shrike	Least Concern	Least Concern	No	Uncommon	Resident breeder	-	Yes	
64	Leiothrichidae	<i>Garrulax leucophous</i>	White-crested laughingthrush	Least Concern	Not Assessed	No	Common	Introduced resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
65	Leiothrichidae	<i>Pterorhinus chinensis</i>	Black-throated laughingthrush	Least Concern	Not Assessed	No	NA	Introduced	-	Yes	Also recorded on camera trap
66	Megalaimidae	<i>Psilopogon lineatus</i>	Lineated barbet	Least Concern	Not Assessed	No	Common	Introduced resident breeder	BTNR, Tengah	Yes	
67	Meropidae	<i>Merops philippinus</i>	Blue-tailed bee-eater	Least Concern	Least Concern	No	Common	Winter visitor	Tengah	Yes	
68	Meropidae	<i>Merops viridis</i>	Blue-throated bee-eater	Least Concern	Least Concern	No	Common	Migrant breeder	BTNR, Tengah	Yes	
69	Motacillidae	<i>Anthus rufulus</i>	Paddyfield pipit	Least Concern	Least Concern	No	Common	Resident breeder	-	Yes	
70	Muscicapidae	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Yes	Uncommon	Resident breeder	Tengah	No	
71	Muscicapidae	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	Tengah	Yes	Also recorded on camera trap
72	Muscicapidae	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Yes	Uncommon	Winter visitor	BTNR, Tengah	No	
73	Muscicapidae	<i>Ficedula zanthopygia</i>	Yellow-rumped flycatcher	Least Concern	Least Concern	No	Uncommon	Passage migrant	Tengah	Yes	
74	Muscicapidae	<i>Muscicapa dauurica</i>	Asian brown flycatcher	Least Concern	Least Concern	No	Common	Winter visitor	BTNR, Tengah	Yes	
75	Muscicapidae	<i>Muscicapa sibirica</i>	Dark-sided flycatcher	Least Concern	Near Threatened	No	Uncommon	Winter visitor	BTNR	Yes	
76	Nectariniidae	<i>Aethopyga siparaja</i>	Crimson sunbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
77	Nectariniidae	<i>Anthreptes malaccensis</i>	Brown-throated sunbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
78	Nectariniidae	<i>Arachnothera longirostra</i>	Little spiderhunter	Least Concern	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
79	Nectariniidae	<i>Cinnyris jugularis</i>	Olive-backed sunbird	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
80	Oriolidae	<i>Oriolus chinensis</i>	Black-naped oriole	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
81	Passeridae	<i>Passer montanus</i>	Eurasian tree sparrow	Least Concern	Least Concern	No	Common	Resident breeder	-	Yes	
82	Phasianidae	<i>Gallus gallus</i>	Red junglefowl	Least Concern	Near Threatened	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
83	Phylloscopidae	<i>Phylloscopus borealis</i>	Arctic warbler	Least Concern	Least Concern	No	Common	Winter visitor	BTNR, Tengah	Yes	Also recorded on camera trap
84	Phylloscopidae	<i>Phylloscopus coronatus</i>	Eastern crowned warbler	Least Concern	Least Concern	No	Common	Winter visitor	BTNR, Tengah	Yes	
85	Picidae	<i>Chrysophlegma miniaceum</i>	Banded woodpecker	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
86	Picidae	<i>Dinopium javanense</i>	Common flameback	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
87	Picidae	<i>Microterus brachyurus</i>	Rufous woodpecker	Least Concern	Least Concern	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	
88	Picidae	<i>Picus vittatus</i>	Laced woodpecker	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	Also recorded on camera trap
89	Picidae	<i>Yungipicus moluccensis</i>	Sunda pygmy woodpecker	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
90	Podicipedidae	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Yes	Rare	Resident breeder	-	No	
91	Psittaculidae	<i>Loriculus galgulus</i>	Blue-crowned hanging-parrot	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
92	Psittaculidae	<i>Psittacula alexandri</i>	Red-breasted parakeet	Near Threatened; CITES protected (Appendix II)	Not Assessed	No	Common	Introduced resident breeder	Tengah	Yes	Nesting observed
93	Psittaculidae	<i>Psittacula krameri</i>	Rose-ringed parakeet	Least Concern	Not Assessed	No	Common	Introduced resident breeder	Tengah	Yes	
94	Psittaculidae	<i>Psittacula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Common	Resident breeder	BTNR, Tengah	Yes	
95	Psittaculidae	<i>Psittinus cyanurus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Yes	Uncommon	Resident, breeding not proven	BTNR, Tengah	No	
96	Psittaculidae	<i>Trichoglossus haematocephalus</i>	Coconut lorikeet	Least Concern; CITES protected (Appendix II)	Not Assessed	No	Uncommon	Introduced resident breeder	Tengah	Yes	
97	Pycnonotidae	<i>Brachyopodius melanolecephalus</i>	Black-headed bulbul	Least Concern	Critically Endangered	Yes	Rare	Resident breeder	BTNR	No	
98	Pycnonotidae	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR, Tengah	No	
99	Pycnonotidae	<i>Pycnonotus goiavier</i>	Yellow-vented bulbul	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Birds

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2022)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (NSS, 2020; Singapore Birds Project, 2020)	Primary Native Status (NSS, 2020; Singapre Birds Project, 2020)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Lim, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
100	Pycnonotidae	<i>Pycnonotus jocosus</i>	Red-whiskered bulbul	Least Concern	Not Assessed	No	Uncommon	Introduced resident breeder	BTNR	Yes	
101	Pycnonotidae	<i>Pycnonotus plumosus</i>	Olive-winged bulbul	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
102	Pycnonotidae	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR, Tengah	Yes	
103	Pycnonotidae	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix I)	Endangered	Yes	Uncommon	Resident breeder	BTNR, Tengah	Yes	
104	Rallidae	<i>Amaurornis phoenicurus</i>	White-breasted waterhen	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
105	Rallidae	<i>Lewinia striata</i>	Slaty-breasted rail	Least Concern	Least Concern	No	Uncommon	Resident breeder	-	Yes	Also recorded on camera trap
106	Rallidae	<i>Rallina fasciata</i>	Red-legged crake	Least Concern	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
107	Rhipiduridae	<i>Rhipidura javanica</i>	Malaysian pied fantail	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	Also recorded on camera trap
108	Strigidae	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Uncommon	Resident breeder	-	No	
109	Strigidae	<i>Otus lempiji</i>	Sunda scops owl	Least Concern; CITES protected (Appendix II)	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
110	Strigidae	<i>Strix seloputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Uncommon	Resident breeder	-	No	
111	Sturnidae	<i>Acridotheres javanicus</i>	Javan myna	Vulnerable	Not Assessed	No	Abundant	Introduced resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
112	Sturnidae	<i>Acridotheres tristis</i>	Common myna	Least Concern	Least Concern	No	Common	Resident breeder	-	Yes	
113	Sturnidae	<i>Aplonis panayensis</i>	Asian glossy starling	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
114	Sturnidae	<i>Gracula religiosa</i>	Common hill myna	Least Concern; CITES protected (Appendix I)	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	
115	Timaliidae	<i>Mixornis gularis</i>	Pin-striped tit-babbler	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
116	Zosteropidae	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Yes	Common	Introduced resident breeder	BTNR, Tengah	Yes	

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Non-volant mammals

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/Abundance/Rarity (Baker & Lim, 2012)	Native Status (NParks, 2021)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Canidae	<i>Canis lupus familiaris</i>	Feral dog	Not Assessed	Not Assessed	No	Not Assessed	Non-native	Tengah	Yes	Recorded on camera trap
2	Cercopithecidae	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Yes	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
3	Cynocephalidae	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Yes	Restricted but Common	Native	BTNR	Yes	Also recorded on camera trap
4	Felidae	<i>Felis catus</i>	Feral cat	Not Assessed	Not Assessed	No	Not Assessed	Non-native	Tengah	Yes	Also recorded on camera trap
5	Felidae	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Yes	Restricted and Rare	Native	-	No	Previously recorded in D (O'Dempsey, pers comms)
6	Manidae	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Yes	Widespread but Rare	Native	BTNR, Tengah	No	Recorded on camera trap
7	Muridae	<i>Rattus norvegicus</i>	Brown rat	Least Concern	Not Assessed	No	Widespread and Common	Non-native	-	Yes	
8	Muridae	<i>Sundamys annandalei</i>	Annandale's rat	Least Concern	Not Assessed	No	Restricted but Common	Native	BTNR	Yes	Also recorded on camera trap
9	Mustelidae	<i>Lutrogale perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Yes	Widespread but Rare	Native	-	Yes	
10	Sciuridae	<i>Callosciurus notatus</i>	Plantain squirrel	Least Concern	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	Roadkill observed; also recorded on camera trap
11	Sciuridae	<i>Iomys horsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	Yes	Restricted and Rare	Native	BTNR	Yes	Previously recorded in B1 (West of Lorong Sesuai) (Chua et al., 2013)
12	Sciuridae	<i>Sundasciurus tenuis</i>	Slender squirrel	Least Concern	Least Concern	No	Restricted but Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
13	Suidae	<i>Sus scrofa</i>	Eurasian wild boar	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
14	Tupaiidae	<i>Tupaia glis</i>	Common tree shrew	Least Concern	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
15	Viverridae	<i>Paradoxurus musangus</i>	Sumatran palm civet	Least Concern	Least Concern	No	Widespread but Uncommon	Native	BTNR, Tengah	Yes	Also recorded on camera trap
16	Sciuridae	Family Sciuridae	Unidentified flying squirrel	NA	NA	Yes	NA	NA	BTNR	Yes	

Appendix 5 - List of Probable Fauna Species at BBTP (Area D) - Bats

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/Abundance/Rarity (Baker & Lim, 2012)	Native Status (NParks, 2021)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)
1	Emballonuridae	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Yes	Restricted and Rare	Native	BTNR	No
2	Emballonuridae	<i>Saccopteryx saccolaimus</i>	Pouch tomb bat	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes
3	Emballonuridae	<i>Taphozous melanopogon</i>	Black-bearded tomb bat	Least Concern	Least Concern	No	Widespread but Rare	Native	-	Yes
4	Hipposideridae	<i>Hipposideros bicolor</i>	Bicoloured roundleaf bat	Least Concern	Endangered	Yes	Restricted and Rare	Native	BTNR	No
5	Molossidae	<i>Cheiromeles torquatus</i>	Naked bulldog bat	Least Concern	Critically Endangered	Yes	Restricted and Rare	Native	BTNR	No
6	Pteropodidae	<i>Cynopterus brachyotis</i>	Lesser short-nosed fruit bat	Least Concern	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes
7	Pteropodidae	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Yes	Widespread but Uncommon	Native	BTNR	Yes
8	Pteropodidae	<i>Ptenochirus lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Yes	Restricted and Rare	Native	BTNR	No
9	Pteropodidae	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Yes	NA	Visitor	BTNR	No
10	Rhinolophidae	<i>Rhinolophus fulvus</i>	Glossy horseshoe bat	Least Concern	Not Assessed	No	Restricted but Common	Native	BTNR	Yes
11	Vespertilionidae	<i>Myotis horsfieldii</i>	Horsfield's myotis	Least Concern	Least Concern	No	NA	Native	-	Yes
12	Vespertilionidae	<i>Myotis muricola</i>	Asian whiskered myotis	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes
13	Vespertilionidae	<i>Pipistrellus javanicus</i>	Javan pipistrelle	Least Concern	Not Assessed	No	Widespread but Uncommon	Native	-	Yes
14	Vespertilionidae	<i>Scotophilus kuhlii</i>	Lesser Asian house bat	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes
15	Vespertilionidae	<i>Tylonycteris fulvida</i>	Lesser bamboo bat	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR	No
16	Vespertilionidae	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Yes	Widespread and Common	Native	BTNR	No
-	Vespertilionidae	<i>Tylonycteris sp.</i>	Unidentified bamboo bat	Least Concern	Vulnerable	Yes	NA	Native	BTNR, Tengah	Yes

No.	Family	Scientific Name	Global Status (IUCN/CITES)	National Status	Species of Interest (Yes/No)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Koh & Court, 2019)	Recorded Species (Yes/No)
1	Araneidae	<i>Argiope versicolor</i>	Not Assessed	Not Assessed	No	BTNR	Yes
2	Araneidae	<i>Cyrtarachne inaequalis</i>	Not Assessed	Not Assessed	No	-	Yes
3	Araneidae	<i>Eriovixia laglaizei</i>	Not Assessed	Not Assessed	No	BTNR	Yes
4	Araneidae	<i>Neogeaa nocticolor</i>	Not Assessed	Not Assessed	No	-	Yes
5	Araneidae	<i>Neoscona vigilans</i>	Not Assessed	Not Assessed	No	BTNR	Yes
6	Araneidae	<i>Parawixia dehaani</i>	Not Assessed	Not Assessed	No	BTNR	Yes
7	Araneidae	<i>Zygiella calyptata</i>	Not Assessed	Not Assessed	No	-	Yes
8	Cheiracanthiidae	<i>Cheiracanthium KS</i>	Not Assessed	Not Assessed	No	-	Yes
9	Clubionidae	<i>Clubiona cf. meraukensis</i>	Not Assessed	Not Assessed	No	-	Yes
10	Clubionidae	<i>Nusatidia camouflata</i>	Not Assessed	Not Assessed	No	BTNR	Yes
11	Corinnidae	<i>Corinnomma javanum</i>	Not Assessed	Not Assessed	No	BTNR	Yes
12	Corinnidae	<i>Medmassa insignis</i>	Not Assessed	Not Assessed	No	-	Yes
13	Ctenidae	<i>Acantheis YL</i>	Not Assessed	Not Assessed	No	-	Yes
14	Hahniidae	<i>Alistra aff. stenura</i>	Not Assessed	Not Assessed	Yes	BTNR	Yes
15	Hersiliidae	<i>Hersilia lelabah</i>	Not Assessed	Not Assessed	No	BTNR	Yes
16	Hersiliidae	<i>Hersilia sumatrana</i>	Not Assessed	Not Assessed	No	-	Yes
17	Linyphiidae	<i>Batueta voluta</i>	Not Assessed	Not Assessed	No	-	Yes
18	Linyphiidae	<i>Nasoona crucifera</i>	Not Assessed	Not Assessed	No	-	Yes
19	Liocranidae	<i>Oedignatha CT</i>	Not Assessed	Not Assessed	No	-	Yes
20	Liocranidae	<i>Oedignatha scrobiculata</i>	Not Assessed	Not Assessed	No	BTNR	Yes
21	Liocranidae	<i>Sphingius vivax</i>	Not Assessed	Not Assessed	No	-	Yes
22	Lycosidae	<i>Pardosa pseudoannulata</i>	Not Assessed	Not Assessed	No	-	Yes
23	Lycosidae	<i>Pardosa sumatrana</i>	Not Assessed	Not Assessed	No	-	Yes
24	Lycosidae	<i>Trochosa ruricoloides</i>	Not Assessed	Not Assessed	No	-	Yes
25	Lycosidae	<i>Venonia coruscans</i>	Not Assessed	Not Assessed	No	BTNR	Yes
26	Mysmenidae	<i>cf. Mysmena DH</i>	Not Assessed	Not Assessed	No	-	Yes
27	Onopidae	<i>Ischnothyreus brunneus</i>	Not Assessed	Not Assessed	No	BTNR	Yes
28	Onopidae	<i>Orchestina SJ</i>	Not Assessed	Not Assessed	No	-	Yes
29	Onopidae	<i>Prethopalpus schwendingeri</i>	Not Assessed	Not Assessed	No	BTNR	Yes
30	Oxyopidae	<i>Oxyopes auratus</i>	Not Assessed	Not Assessed	No	BTNR	Yes
31	Oxyopidae	<i>Oxyopes lineatipes</i>	Not Assessed	Not Assessed	No	-	Yes
32	Palpimanidae	<i>Boagrius cf. pumilus</i>	Not Assessed	Not Assessed	Yes	BTNR	Yes
33	Philodromidae	<i>Philodromus SW</i>	Not Assessed	Not Assessed	No	-	Yes
34	Pholcidae	<i>Belisana PH</i>	Not Assessed	Not Assessed	No	-	Yes
35	Pholcidae	<i>Belisana YT</i>	Not Assessed	Not Assessed	No	-	Yes
36	Pholcidae	<i>Uthina luzonica</i>	Not Assessed	Not Assessed	No	BTNR	Yes
37	Salticidae	<i>Bavia sexpunctata</i>	Not Assessed	Not Assessed	No	BTNR	Yes
38	Salticidae	<i>Epeus SS</i>	Not Assessed	Not Assessed	No	-	Yes
39	Salticidae	<i>Myrmarachne cornuta</i>	Not Assessed	Not Assessed	No	-	Yes
40	Salticidae	<i>Phintella bifurcilinea</i>	Not Assessed	Not Assessed	No	-	Yes
41	Salticidae	<i>Phintella debilis</i>	Not Assessed	Not Assessed	No	BTNR	Yes
42	Salticidae	<i>Portia labiata</i>	Not Assessed	Not Assessed	Yes	BTNR	Yes
43	Salticidae	<i>Ptocasius weyersi</i>	Not Assessed	Not Assessed	No	BTNR	Yes
44	Salticidae	<i>Thorelliola ensifera</i>	Not Assessed	Not Assessed	No	BTNR	Yes
45	Salticidae	<i>Viciria pavesii</i>	Not Assessed	Not Assessed	No	-	Yes
46	Scytodidae	<i>Dictis CS</i>	Not Assessed	Not Assessed	No	-	Yes
47	Sparassidae	<i>Heteropoda tetrica</i>	Not Assessed	Not Assessed	No	BTNR	Yes
48	Sparassidae	<i>Olios CY</i>	Not Assessed	Not Assessed	No	-	Yes
49	Sparassidae	<i>Pandercetes sp.</i>	Not Assessed	Not Assessed	No	-	Yes
50	Telemidae	<i>Telemofila fabata</i>	Not Assessed	Not Assessed	No	BTNR	Yes
51	Tetragnathidae	<i>Leucauge argentina</i>	Not Assessed	Not Assessed	No	BTNR	Yes
52	Tetragnathidae	<i>Tetragnatha chauliodus</i>	Not Assessed	Not Assessed	No	-	Yes
53	Tetragnathidae	<i>Tetragnatha mandibulata</i>	Not Assessed	Not Assessed	No	-	Yes
54	Tetragnathidae	<i>Tylorella ventralis</i>	Not Assessed	Not Assessed	No	BTNR	Yes
55	Theraphosidae	<i>Phlogiellus sp.</i>	Not Assessed	Not Assessed	No	-	Yes
56	Theridiidae	<i>Carniella SL</i>	Not Assessed	Not Assessed	Yes	-	Yes
57	Theridiidae	<i>cf. Thymoites TH</i>	Not Assessed	Not Assessed	Yes	-	Yes
58	Theridiidae	<i>Chryssot TT</i>	Not Assessed	Not Assessed	No	BTNR	Yes
59	Theridiidae	<i>Coleosoma blandum</i>	Not Assessed	Not Assessed	No	-	Yes
60	Theridiidae	<i>Meotipa SF</i>	Not Assessed	Not Assessed	No	BTNR	Yes
61	Theridiidae	<i>Meotipa vesiculosa</i>	Not Assessed	Not Assessed	No	-	Yes
62	Theridiidae	<i>Nihonhimea mundula</i>	Not Assessed	Not Assessed	No	BTNR	Yes
63	Theridiidae	<i>Parasteatoda BS</i>	Not Assessed	Not Assessed	No	-	Yes
64	Theridiidae	<i>Phycosoma hana</i>	Not Assessed	Not Assessed	No	BTNR	Yes
65	Theridiidae	<i>Rhomphaea sinica</i>	Not Assessed	Not Assessed	No	BTNR	Yes
66	Theridiidae	<i>Theridion PP</i>	Not Assessed	Not Assessed	No	-	Yes
67	Theridiidae	<i>Theridion t-notatum</i>	Not Assessed	Not Assessed	No	BTNR	Yes
68	Theridiidae	<i>Yaginumena maculosa</i>	Not Assessed	Not Assessed	No	-	Yes
69	Theridiosomatidae	<i>Theridiosoma fasciatum</i>	Not Assessed	Not Assessed	No	BTNR	Yes
70	Theridiosomatidae	<i>Zoma YY</i>	Not Assessed	Not Assessed	No	-	Yes
71	Thomisidae	<i>Camaricus maugei</i>	Not Assessed	Not Assessed	No	-	Yes
72	Thomisidae	<i>Henriksenia hilaris</i>	Not Assessed	Not Assessed	No	-	Yes
73	Thomisidae	<i>Monaeses CF</i>	Not Assessed	Not Assessed	No	-	Yes

Appendix 6 - List of Probable Faunal Species at E

No.	Type	Family name	Scientific name	Common name	Global status (IUCN, 2012)	National status (Ascher et al., 2022; Lee, pers comm)	Species of conservation significance	Native status (The Biodiversity of Singapore, 2021; Lee, pers comm)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Ascher et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Bee	Apidae	<i>Amegilla andrewsi</i>	Andrew's blue-banded digger bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
2	Bee	Apidae	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
3	Bee	Apidae	<i>Apis andreniformis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	Nesting observed
4	Bee	Apidae	<i>Apis cerana</i>	Eastern honey bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	Nesting observed
5	Bee	Apidae	<i>Apis dorsata</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
6	Bee	Apidae	<i>Apis florea</i>	NA	Not Assessed	Not Assessed	No	Non-native	Tengah	Yes	
7	Bee	Apidae	<i>Ceratina fuliginosa</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
8	Bee	Apidae	<i>Ceratina lieftincki</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
9	Bee	Apidae	<i>Ceratina nigrolateralis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
10	Bee	Apidae	<i>Ceratina ridleyi</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
11	Bee	Apidae	<i>Ceratina unimaculata</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
12	Bee	Apidae	<i>Nomada malayana</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
13	Bee	Apidae	<i>Thyreus lilacinus</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
14	Bee	Apidae	<i>Thyreus himalayensis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
15	Bee	Apidae	<i>Xylocopa aestuans</i>	White-cheeked carpenter bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
16	Bee	Apidae	<i>Xylocopa flavonigrescens</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
17	Bee	Apidae	<i>Xylocopa latipes</i>	Broad-handed carpenter bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
18	Bee	Colletidae	<i>Hylaeus penangensis</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
19	Bee	Halictidae	<i>Lasioglossum semirussatum</i>	NA	Not Assessed	Critically Endangered	Yes	Native	BTNR	No	
20	Bee	Halictidae	<i>Lipotriches takauensis</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
21	Bee	Halictidae	<i>Nomia apicalis</i>	NA	Not Assessed	Critically Endangered	Yes	Native	BTNR	No	
22	Bee	Halictidae	<i>Nomia sp. aff. apicalis</i>	NA	Not Assessed	Near Threatened	No	Native	-	Yes	
23	Bee	Halictidae	<i>Nomia strigata</i>	Pearly-banded bee	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
24	Bee	Halictidae	<i>Patellapis intricata</i>	NA	Not Assessed	Critically Endangered	Yes	Native	BTNR	No	
25	Bee	Megachilidae	<i>Anthidiellum smithii</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
26	Bee	Megachilidae	<i>Euaspis polynesia</i>	NA	Not Assessed	Least Concern	No	Native	BTNR	Yes	
27	Bee	Megachilidae	<i>Megachile indonesica</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
28	Bee	Megachilidae	<i>Megachile laticeps</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
29	Bee	Megachilidae	<i>Megachile ornata</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
30	Bee	Megachilidae	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Yes	Native	BTNR	No	
31	Bee	Megachilidae	<i>Megachile subrixator</i>	NA	Not Assessed	Least Concern	No	Native	BTNR, Tengah	Yes	
32	Bee	Megachilidae	<i>Megachile umbripennis</i>	NA	Not Assessed	Least Concern	No	Non-native	-	Yes	
33	Wasp	Crabronidae	<i>Liris subtessellatus</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
34	Wasp	Pompilidae	<i>Auplopus sp.</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
35	Wasp	Vespidae	<i>Delta pyriforme</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
36	Wasp	Vespidae	<i>Liostenogaster nitidipennis</i>	NA	Not Assessed	Near Threatened	No	Native	-	Yes	Nesting observed
37	Wasp	Vespidae	<i>Parischnogaster mellyi</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed
38	Wasp	Vespidae	<i>Parischnogaster nigricans</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
39	Wasp	Vespidae	<i>Ropalidia stigma</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
40	Wasp	Vespidae	<i>Ropalidia sumatrae</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed
41	Wasp	Vespidae	<i>Stenodyneriellus guttulatus</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	
42	Wasp	Vespidae	<i>Vespa affinis</i>	Lesser banded hornet	Not Assessed	Least Concern	No	Native	Tengah	Yes	
43	Wasp	Vespidae	<i>Vespa analis</i>	NA	Not Assessed	Least Concern	No	Native	Tengah	Yes	Nesting observed

Appendix 6 - List of Probable Faunal Species at E

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Ngiam & Ng, 2022)	Species of Conservation Significance (Yes/No)	Distribution/Rarity (Ngiam & Ng, 2022)	Native status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Cai et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Damselfly	Coenagrionidae	<i>Aciagrion hisopa</i>	Blue slim	Least Concern	Vulnerable	Yes	Restricted and Very Rare	Native	BTNR	No	
2	Damselfly	Coenagrionidae	<i>Ceriagrion cerinorubellum</i>	Ornate coraltail	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
3	Damselfly	Platycnemididae	<i>Copera vittata</i>	Variable featherlegs	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	-	No	
4	Dragonfly	Aeshnidae	<i>Gynacantha basiguttata</i>	Spoon-tailed duskhawk	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	-	No	
5	Dragonfly	Aeshnidae	<i>Gynacantha subinterupta</i>	Dingy duskhawk	Least Concern	Least Concern	No	Widespread but Uncommon	Native	Tengah	Yes	
6	Dragonfly	Libellulidae	<i>Agrionoptera insignis</i>	Grenadier	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
7	Dragonfly	Libellulidae	<i>Brachydiplos chalybea</i>	Blue dasher	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
8	Dragonfly	Libellulidae	<i>Chalybiothemis fluvialis</i>	Green-eyed percher	Not Assessed	Vulnerable	Yes	Restricted and Uncommon	Native	-	No	
9	Dragonfly	Libellulidae	<i>Crocothemis servilia</i>	Common scarlet	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
10	Dragonfly	Libellulidae	<i>Neurothemis fluctuans</i>	Common parasol	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
11	Dragonfly	Libellulidae	<i>Orthetrum chrysostigma</i>	Spine-tufted skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Ovipositing observed
12	Dragonfly	Libellulidae	<i>Orthetrum glaucum</i>	Common blue skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Mating and ovipositing observed
13	Dragonfly	Libellulidae	<i>Orthetrum sabina</i>	Variegated green skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
14	Dragonfly	Libellulidae	<i>Orthetrum testaceum</i>	Scarlet skimmer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
15	Dragonfly	Libellulidae	<i>Pantala flavescens</i>	Wandering glider	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
16	Dragonfly	Libellulidae	<i>Rhyothemis phyllis</i>	Yellow-barred flutterer	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
17	Dragonfly	Libellulidae	<i>Tyriobapta torrida</i>	Treehugger	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	

Appendix 6 - List of Probable Faunal Species at E

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008; Jain et al, 2018)	Species of Conservation Significance (Yes/No)	Distribution/Abundance /Rarity (Khew, 2015)	Native status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Khew & Tan, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Hesperiidae	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
2	Hesperiidae	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	Yes	Moderately common	Resident	Tengah	No	
3	Hesperiidae	<i>Caltoris malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
4	Hesperiidae	<i>Gangara lebadea lebadea</i>	Banded redevye	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Very rare	Resident	-	No	
5	Hesperiidae	<i>Iambrix salsala salsala</i>	Chestnut bob	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
6	Hesperiidae	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	Yes	Moderately common	Resident	-	No	
7	Hesperiidae	<i>Pelopidas mathias mathias</i>	Small branded swift	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
8	Hesperiidae	<i>Potanthus omaha omaha</i>	Lesser dart	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
9	Hesperiidae	<i>Potanthus trachala tytleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
10	Hesperiidae	<i>Suaestus exvyx exvyx</i>	White palm bob	Not Assessed	Endangered	Yes	Rare	Resident	-	No	
11	Hesperiidae	<i>Tapera thwaitesi bornea</i>	Dark flat	Not Assessed	Endangered	Yes	Moderately rare	Resident	BTNR	No	
12	Hesperiidae	<i>Telicota colon stigma</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately common	Resident	-	No	
13	Hesperiidae	<i>Zela storeyi</i>	Storey's palmer	Not Assessed	Critically Endangered	Yes	Very rare	Resident	-	No	
14	Lycaenidae	<i>Ancema blanka blanka</i>	Silver royal	Not Assessed	Critically Endangered	Yes	Very rare	Resident	-	No	
15	Lycaenidae	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately common	Resident	-	No	
16	Lycaenidae	<i>Arhopala antimuta antimuta</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	Yes	Rare	Resident	-	No	
17	Lycaenidae	<i>Arhopala eumolpus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	BTNR	No	
18	Lycaenidae	<i>Arhopala silhetensis adorea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Rare	Resident	BTNR	No	
19	Lycaenidae	<i>Catopyrops ancyra</i>	Ancyra blue	Not Assessed	Vulnerable	Yes	Moderately rare	Resident	-	No	
20	Lycaenidae	<i>Eooxydles tharis distanti</i>	Branded imperial	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Overpositing observed
21	Lycaenidae	<i>Euchrysops cneus cneus</i>	Gram blue	Not Assessed	Not Assessed	No	Moderately common	Resident	Tengah	Yes	
22	Lycaenidae	<i>Jamides alecto ageladas</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
23	Lycaenidae	<i>Jamides celeno aelianus</i>	Common caerulean	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
24	Lycaenidae	<i>Manto hypoleuca terana</i>	Green imperial	Not Assessed	Nationally Extinct	Yes	Rare	Resident	-	No	
25	Lycaenidae	<i>Nacaduba kurava nemana</i>	Transparent sixline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately common	Resident	BTNR	No	
26	Lycaenidae	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	-	No	
27	Lycaenidae	<i>Nacaduba sanaya elioti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Moderately rare	Resident	Tengah	No	
28	Lycaenidae	<i>Rachana jalindra burbona</i>	Banded royal	Not Assessed	Critically Endangered	Yes	Very rare	Resident	BTNR	No	
29	Lycaenidae	<i>Zizina otis lampa</i>	Lesser grass blue	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	
30	Lycaenidae	<i>Zizula hylax pygmaea</i>	Pygmy grass blue	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
31	Nymphalidae	<i>Acaea terpsicore</i>	Tawny coster	Not Assessed	Not Assessed	No	Common	Non-native	Tengah	Yes	
32	Nymphalidae	<i>Amathusia phidippus phidippus</i>	Palm king	Not Assessed	Not Assessed	No	Moderately rare	Resident	Tengah	Yes	
33	Nymphalidae	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Yes	Very rare	Resident	-	No	
34	Nymphalidae	<i>Discophora sondaica despoliata</i>	Common duffer	Not Assessed	Critically Endangered	Yes	Rare	Resident	-	No	
35	Nymphalidae	<i>Elymnias hypermnestra agina</i>	Common palmfly	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
36	Nymphalidae	<i>Euthalia monina monina</i>	Malay baron	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Caterpillars observed
37	Nymphalidae	<i>Junonia almana javana</i>	Peacock pansy	Least Concern	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
38	Nymphalidae	<i>Junonia hedonia ida</i>	Chocolate pansy	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
39	Nymphalidae	<i>Lasippa tiga siaka</i>	Malayan lascar	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Mating observed
40	Nymphalidae	<i>Lethe europa malaya</i>	Bamboo tree brown	Not Assessed	Not Assessed	No	Moderately rare	Resident	-	Yes	
41	Nymphalidae	<i>Mycalecis perseoides perseoides</i>	Burmese bush brown	Not Assessed	Data Deficient	No	Common	Resident	Tengah	Yes	
42	Nymphalidae	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Yes	Rare	Resident	BTNR	No	
43	Nymphalidae	<i>Phalantha phalantha phalantha</i>	Leopard	Not Assessed	Not Assessed	No	Common	Resident	-	Yes	Overpositing observed
44	Nymphalidae	<i>Tanaecia iapis puseda</i>	Horsfield's baron	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Overpositing observed
45	Nymphalidae	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Yes	Very rare	Vagrant	-	No	
46	Papilionidae	<i>Graphium sarpedon luctatius</i>	Common bluebottle	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
47	Papilionidae	<i>Pachliopta aristolochiae asteris</i>	Common rose	Not Assessed	Vulnerable	Yes	Moderately common	Resident	-	No	
48	Papilionidae	<i>Papilio demoleus malayanus</i>	Lime butterfly	Not Assessed	Not Assessed	No	Common	Resident	BTNR	Yes	
49	Papilionidae	<i>Papilio polytes romulus</i>	Common mormon	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
50	Papilionidae	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Yes	Rare	Resident	BTNR	No	
51	Papilionidae	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES	Vulnerable	Yes	Moderately common	Resident	BTNR	No	
52	Pieridae	<i>Appias libythea olferna</i>	Striped albatross	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
53	Pieridae	<i>Catopsilia pomona pomona</i>	Lemon emigrant	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
54	Pieridae	<i>Delias hyparete metarete</i>	Painted jezebel	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	
55	Pieridae	<i>Eurema hecabe contubernalis</i>	Common grass yellow	Not Assessed	Not Assessed	No	Common	Resident	BTNR, Tengah	Yes	Mating observed
56	Riodinidae	<i>Abisara savitri savitri</i>	Malay tailed Judy	Not Assessed	Not Assessed	No	Moderately rare	Resident	BTNR, Tengah	Yes	

Appendix 6 - List of Probable Faunal Species at E

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (Davison et al., 2008)	Species of Conservation Significance (Yes/No)	Native Status	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Li et al., 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)
1	Osphronemidae	<i>Betta splendens</i>	Siamese fighting-fish	Vulnerable	Not Assessed	No	Non-native	-	Yes
2	Poeciliidae	<i>Poecilia reticulata</i>	Guppy	Least Concern	Not Assessed	No	Non-native	BTNR, Tengah	Yes
3	Synbranchidae	<i>Monopterus albus</i>	Asian swamp eel	Least Concern	Not Assessed	No	Native	BTNR, Tengah	Yes

Appendix 6 - List of Probable Faunal Species at E

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (Baker & Lim, 2012)	Native Status (Baker & Lim, 2012)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Frog	Dic平glossidae	<i>Limnonectes blythii</i>	Malayan giant frog	Near Threatened	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Frogspawn and tadpoles observed
2	Frog	Dic平glossidae	<i>Limnonectes malesianus</i>	Malesian frog	Near Threatened	Near Threatened	No	Restricted but Common	Native	BTNR	Yes	
3	Frog	Ranidae	<i>Lithobates catesbeianus</i>	American bullfrog	Least Concern	Not Assessed	No	Widespread and Common	Non-native	Tengah	Yes	
4	Frog	Ranidae	<i>Sylvirana guentheri</i>	Guenther's frog	Least Concern	Not Assessed	No	Widespread but Uncommon	Non-native	Tengah	Yes	Tadpoles observed
5	Frog	Microhylidae	<i>Microhyla heymonsi</i>	Dark-sided chorus frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Tadpoles observed
6	Frog	Microhylidae	<i>Microhyla mukhlesuri</i>	East Asian ornate chorus frog	Least Concern	Not Assessed	No	Restricted and Rare	Non-native	BTNR	Yes	
7	Frog	Rhacophoridae	<i>Polypedates leucomystax</i>	Four-lined tree frog	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Tadpoles observed
8	Toad	Bufo平idae	<i>Duttaphrynus bengalensis</i>	Indian toad	Least Concern	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	Tadpoles observed

Appendix 6 - List of Probable Faunal Species at E

No.	Type	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/ Abundance/ Rarity (Baker & Lim, 2012)	Native Status (Baker & Lim, 2012)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Non-marine lizard	Agamidae	<i>Calotes versicolor</i>	Changeable lizard	Not Assessed	Not Assessed	No	Widespread and Common	Non-native	BTNR, Tengah	Yes	
2	Non-marine lizard	Gekkonidae	<i>Gehyra mutilata</i>	Four-clawed gecko	Not Assessed	Not Assessed	No	Widespread and Common	Native	BTNR	Yes	
3	Non-marine lizard	Gekkonidae	<i>Gekko monarchus</i>	Spotted house gecko	Not Assessed	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	
4	Non-marine lizard	Gekkonidae	<i>Hemidactylus frenatus</i>	Spiny-tailed house gecko	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
5	Non-marine lizard	Scincidae	<i>Eutropis multifasciata</i>	Many-lined sun skink	Not Assessed	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
6	Non-marine snake	Colubridae	<i>Ahaetulla prasina</i>	Oriental whip snake	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
7	Non-marine snake	Colubridae	<i>Boiga cynodon</i>	Dog-toothed cat snake	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	
8	Non-marine snake	Colubridae	<i>Dendrelaphis pictus</i>	Painted bronzeback	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	
9	Non-marine snake	Colubridae	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	
10	Non-marine snake	Colubridae	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	Yes	Restricted and Rare	Native	BTNR, Tengah	No	Previously recorded in B1 (West of Lorong Sesuai) (Law et al., 2022)
11	Non-marine snake	Colubridae	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR, Tengah	No	
12	Non-marine snake	Colubridae	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	Yes	Widespread but Uncommon	Native	BTNR	No	
13	Non-marine snake	Pythonidae	<i>Malayopython reticulatus</i>	Reticulated python	Least Concern; CITES	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	
14	Non-marine turtle	Geomydidae	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES p	Near Threatened	Yes	Restricted but Common	Native	Tengah	No	

Appendix 6 - List of Probable Faunal Species at E

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2022)	Species of Conservation Significance (Yes/No)	Distribution/Abundance/ Rarity (NSS, 2020; Singapore Birds Project, 2020)	Primary Native Status (NSS, 2020; Singapre Birds Project, 2020)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Lim, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Accipitridae	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES	Vulnerable	Yes	Common	Resident breeder	BTNR, Tengah	No	Also recorded on camera trap
2	Accipitridae	<i>Pernis ptilorhynchus</i>	Crested honey-buzzard	Least Concern; CITES	Least Concern	No	Common	Passage migrant	-	Yes	
3	Accipitridae	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES	Critically Endangered	Yes	Rare	Resident, breeding not proven	BTNR, Tengah	No	
4	Aegithinidae	<i>Aegithina tiphia</i>	Common iora	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
5	Alcedinidae	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Yes	Uncommon	Resident breeder	BTNR, Tengah	No	
6	Alcedinidae	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Yes	Uncommon	Resident breeder	-	No	
7	Alcedinidae	<i>Halcyon smyrnensis</i>	White-throated kingfisher	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	Also recorded on camera trap
8	Alcedinidae	<i>Todiramphus chloris</i>	Collared kingfisher	Least Concern	Least Concern	No	Abundant	Resident breeder	Tengah	Yes	
9	Apodidae	<i>Aerodramus sp.</i>	Unidentified swiftlet	NA	NA	NA	NA	-	-	Yes	
10	Apodidae	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR, Tengah	No	
11	Ardeidae	<i>Ardea cinerea</i>	Grey heron	Least Concern	Least Concern	No	Common	Resident breeder	-	Yes	
12	Ardeidae	<i>Butorides striata</i>	Striated heron	Least Concern	Near Threatened	No	Common	Resident breeder	-	Yes	
13	Ardeidae	<i>Egretta garzetta</i>	Little egret	Least Concern	Least Concern	No	Common	Non-breeding visitor	-	Yes	
14	Campephagidae	<i>Pericrocotus divaricatus</i>	Ashy minivet	Least Concern	Least Concern	No	Common	Winter visitor	Tengah	Yes	
15	Cisticolidae	<i>Orthotomus atrogularis</i>	Dark-necked tailorbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
16	Cisticolidae	<i>Orthotomus sutorius</i>	Common tailorbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
17	Columbidae	<i>Chalcophaps indica</i>	Common emerald dove	Least Concern	Least Concern	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
18	Columbidae	<i>Columba livia</i>	Rock dove	Least Concern	Not Assessed	No	Abundant	Introduced resident breeder	-	Yes	Also recorded on camera trap
19	Columbidae	<i>Ducula bicolor</i>	Pied imperial pigeon	Least Concern	Data Deficient	No	Uncommon	Introduced resident breeder	Tengah	Yes	
20	Columbidae	<i>Geopelia striata</i>	Zebra dove	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	Also recorded on camera trap
21	Columbidae	<i>Spilopelia chinensis</i>	Spotted dove	Least Concern	Least Concern	No	Abundant	Resident breeder	Tengah	Yes	Also recorded on camera trap
22	Columbidae	<i>Teron vernans</i>	Pink-necked green pigeon	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	
23	Coraciidae	<i>Eurystomus orientalis</i>	Oriental dollarbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
24	Corvidae	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	Tengah	No	
25	Corvidae	<i>Corvus splendens</i>	House crow	Least Concern	Not Assessed	No	Common	Introduced resident breeder	Tengah	Yes	
26	Cuculidae	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	BTNR	No	
27	Cuculidae	<i>Eudynamys scolopaceus</i>	Asian koel	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
28	Dicaeidae	<i>Dicaeum cruentatum</i>	Scarlet-backed flowerpecker	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
29	Dicaeidae	<i>Dicaeum trigonostigma</i>	Orange-bellied flowerpecker	Least Concern	Near Threatened	No	Common	Resident breeder	BTNR	Yes	
30	Dicruridae	<i>Dicrurus paradiseus</i>	Greater racket-tailed drongo	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Nesting observed; also recorded on camera trap
31	Hirundinidae	<i>Hirundo tahitica</i>	Pacific swallow	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
32	Laniidae	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Yes	Common	Winter visitor	Tengah	Yes	
33	Leiothrichidae	<i>Garrulax leucolophus</i>	White-crested laughingthrush	Least Concern	Not Assessed	No	Common	Introduced resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
34	Megalaimidae	<i>Psilopogon lineatus</i>	Lineated barbet	Least Concern	Not Assessed	No	Common	Introduced resident breeder	BTNR, Tengah	Yes	
35	Meropidae	<i>Merops viridis</i>	Blue-throated bee-eater	Least Concern	Least Concern	No	Common	Migrant breeder	BTNR, Tengah	Yes	
36	Muscicapidae	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Yes	Uncommon	Resident breeder	Tengah	No	Also recorded on camera trap
37	Muscicapidae	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Yes	Uncommon	Winter visitor	BTNR, Tengah	No	
38	Muscicapidae	<i>Muscicapa dauurica</i>	Asian brown flycatcher	Least Concern	Least Concern	No	Common	Winter visitor	BTNR, Tengah	Yes	
39	Nectariniidae	<i>Aethopyga siparaja</i>	Crimson sunbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
40	Nectariniidae	<i>Anthreptes malaccensis</i>	Brown-throated sunbird	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
41	Nectariniidae	<i>Cinnyris jugularis</i>	Olive-backed sunbird	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	
42	Oriolidae	<i>Oriolus chinensis</i>	Black-naped oriole	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
43	Phasianidae	<i>Gallus gallus</i>	Red junglefowl	Least Concern	Near Threatened	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
44	Phylloscopidae	<i>Phylloscopus borealis</i>	Arctic warbler	Least Concern	Least Concern	No	Common	Winter visitor	BTNR, Tengah	Yes	Also recorded on camera trap
45	Picidae	<i>Chrysophlegma miniaceum</i>	Banded woodpecker	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
46	Picidae	<i>Dinopium javanense</i>	Common flameback	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
47	Picidae	<i>Picus vittatus</i>	Laced woodpecker	Least Concern	Least Concern	No	Common	Resident breeder	Tengah	Yes	Also recorded on camera trap
48	Psittaculidae	<i>Loriculus galgulus</i>	Blue-crowned hanging-parrot	Least Concern; CITES	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	
49	Psittaculidae	<i>Psittacula alexandri</i>	Red-breasted parakeet	Near Threatened; CITES	Not Assessed	No	Common	Introduced resident breeder	Tengah	Yes	Nesting observed
50	Psittaculidae	<i>Psittacula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES prot	Near Threatened	Yes	Common	Resident breeder	BTNR, Tengah	Yes	
51	Pycnonotidae	<i>Pycnonotus goiavier</i>	Yellow-vented bulbul	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
52	Pycnonotidae	<i>Pycnonotus plumosus</i>	Olive-winged bulbul	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
53	Pycnonotidae	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES	Endangered	Yes	Uncommon	Resident breeder	BTNR, Tengah	Yes	
54	Rallidae	<i>Amaurornis phoenicurus</i>	White-breasted waterhen	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
55	Rallidae	<i>Lewinia striata</i>	Slaty-breasted rail	Least Concern	Least Concern	No	Uncommon	Resident breeder	-	Yes	Also recorded on camera trap
56	Rallidae	<i>Rallina fasciata</i>	Red-legged crake	Least Concern	Near Threatened	No	Uncommon	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
57	Strigidae	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES	Vulnerable	Yes	Uncommon	Resident breeder	-	No	
58	Strigidae	<i>Otus temperi</i>	Sunda scops owl	Least Concern; CITES	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
59	Strigidae	<i>Strix seloputo</i>	Spotted wood owl	Least Concern; CITES	Vulnerable	Yes	Uncommon	Resident breeder	-	No	
60	Sturnidae	<i>Acridotheres javanicus</i>	Javan myna	Vulnerable	Not Assessed	No	Abundant	Introduced resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
61	Sturnidae	<i>Aplonis panayensis</i>	Asian glossy starling	Least Concern	Least Concern	No	Abundant	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
62	Timeliidae	<i>Mixornis gularis</i>	Pin-striped lit-babbler	Least Concern	Least Concern	No	Common	Resident breeder	BTNR, Tengah	Yes	Also recorded on camera trap
63	Zosteropidae	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Yes	Common	Introduced resident breeder	BTNR, Tengah	Yes	

Appendix 6 - List of Probable Faunal Species at E

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/Abundance/Rarity (Baker & Lim, 2012)	Native Status (NParks, 2021)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)	Remarks
1	Canidae	<i>Canis lupus familiaris</i>	Feral dog	Not Assessed	Not Assessed	No	Not Assessed	Non-native	Tengah	Yes	Recorded on camera trap
2	Cercopithecidae	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected	Least Concern	Yes	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
3	Felidae	<i>Felis catus</i>	Feral cat	Not Assessed	Not Assessed	No	Not Assessed	Non-native	Tengah	Yes	Also recorded on camera trap
4	Felidae	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected	Critically Endangered	Yes	Restricted and Rare	Native	-	No	Previously recorded in D (O'Dempsey, pers comms)
5	Manidae	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected	Critically Endangered	Yes	Widespread but Rare	Native	BTNR, Tengah	No	Recorded on camera trap
6	Muridae	<i>Rattus tiomanicus</i>	Malaysian wood rat	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
7	Sciuridae	<i>Callosciurus notatus</i>	Plantain squirrel	Least Concern	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	Roadkill observed; also recorded on camera trap
8	Sciuridae	<i>Sundasciurus tenuis</i>	Slender squirrel	Least Concern	Least Concern	No	Restricted but Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
9	Suidae	<i>Sus scrofa</i>	Eurasian wild boar	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
10	Tupaiidae	<i>Tupaia glis</i>	Common tree shrew	Least Concern	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes	Also recorded on camera trap
11	Viverridae	<i>Paradoxurus musangus</i>	Sumatran palm civet	Least Concern	Least Concern	No	Widespread but Uncommon	Native	BTNR, Tengah	Yes	Also recorded on camera trap

Appendix 6 - List of Probable Faunal Species at E

No.	Family	Scientific Name	Common Name	Global Status (IUCN/CITES)	National Status (NParks, 2021)	Species of Conservation Significance (Yes/No)	Distribution/Abundance/Rarity (Baker & Lim, 2012)	Native Status (NParks, 2021)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Teo & Thomas, 2019; Housing Development Board, 2021)	Recorded Species (Yes/No)
1	Emballonuridae	<i>Saccopteryx saccolaimus</i>	Pouch tomb bat	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes
2	Pteropodidae	<i>Cynopterus brachyotis</i>	Lesser short-nosed fruit bat	Least Concern	Not Assessed	No	Widespread and Common	Native	BTNR, Tengah	Yes
3	Pteropodidae	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Yes	Widespread but Uncommon	Native	BTNR	No
4	Pteropodidae	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CI	Critically Endangered	Yes	NA	Visitor	BTNR	No
5	Vespertilionidae	<i>Scotophilus kuhlii</i>	Lesser Asian house bat	Least Concern	Least Concern	No	Widespread and Common	Native	BTNR, Tengah	Yes
6	Vespertilionidae	<i>Tylonycteris fulvida</i>	Lesser bamboo bat	Least Concern	Vulnerable	Yes	Restricted and Rare	Native	BTNR	No
7	Vespertilionidae	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Yes	Widespread and Common	Native	BTNR	No
-	Vespertilionidae	<i>Tylonycteris</i> sp.	Unidentified bamboo bat	Least Concern	Vulnerable	Yes	NA	Native	BTNR, Tengah	Yes

No.	Family	Scientific Name	Global Status (IUCN/CITES)	National Status	Species of Interest (Yes/No)	Bukit Timah Nature Reserve (BTNR) and/or Tengah records (Koh & Court, 2019)	Recorded Species (Yes/No)
1	Araneidae	<i>Araneus nox</i>	Not Assessed	Not Assessed	No	-	Yes
2	Araneidae	<i>Bijoaraneus mitificus</i>	Not Assessed	Not Assessed	No	-	Yes
3	Araneidae	<i>Eriovixia laglaizei</i>	Not Assessed	Not Assessed	No	BTNR	Yes
4	Araneidae	<i>Macracantha hasselti</i>	Not Assessed	Not Assessed	No	-	Yes
5	Araneidae	<i>Neoscona vigilans</i>	Not Assessed	Not Assessed	No	BTNR	Yes
6	Araneidae	<i>Nephila pilipes</i>	Not Assessed	Not Assessed	No	-	Yes
7	Clubionidae	<i>Clubiona cf. meraukensis</i>	Not Assessed	Not Assessed	No	-	Yes
8	Clubionidae	<i>Nusatidia camouflata</i>	Not Assessed	Not Assessed	No	BTNR	Yes
9	Corinnidae	<i>Echinax oxyopoides</i>	Not Assessed	Not Assessed	No	-	Yes
10	Euagridae	<i>aff. Malayathele</i> SC	Not Assessed	Not Assessed	Yes	-	Yes
11	Hersiliidae	<i>Hersilia lelabah</i>	Not Assessed	Not Assessed	No	BTNR	Yes
12	Liocranidae	<i>Oedignatha scrobiculata</i>	Not Assessed	Not Assessed	No	BTNR	Yes
13	Lycosidae	<i>Draposa GP</i>	Not Assessed	Not Assessed	No	-	Yes
14	Lycosidae	<i>Pardosa sumatrana</i>	Not Assessed	Not Assessed	No	-	Yes
15	Lycosidae	<i>Trochosa ruricoloides</i>	Not Assessed	Not Assessed	No	-	Yes
16	Lycosidae	<i>Venonia coruscans</i>	Not Assessed	Not Assessed	No	BTNR	Yes
17	Oonopidae	<i>Ischnothyreus brunneus</i>	Not Assessed	Not Assessed	No	BTNR	Yes
18	Oonopidae	<i>Ischnothyreus cf. serpentinum</i>	Not Assessed	Not Assessed	No	-	Yes
19	Oonopidae	<i>Prethopalpus schwendingeri</i>	Not Assessed	Not Assessed	No	BTNR	Yes
20	Oxyopidae	<i>Oxyopes auratus</i>	Not Assessed	Not Assessed	No	BTNR	Yes
21	Oxyopidae	<i>Oxyopes cf. birmanicus</i>	Not Assessed	Not Assessed	No	-	Yes
22	Pholcidae	<i>Belisana PH</i>	Not Assessed	Not Assessed	No	-	Yes
23	Pholcidae	<i>Belisana YT</i>	Not Assessed	Not Assessed	No	-	Yes
24	Pisauridae	<i>Dolomedes LS</i>	Not Assessed	Not Assessed	No	-	Yes
25	Salticidae	<i>Epeus flavobilineatus</i>	Not Assessed	Not Assessed	No	BTNR	Yes
26	Salticidae	<i>Epeus SS</i>	Not Assessed	Not Assessed	No	-	Yes
27	Salticidae	<i>Ptocasius weyersi</i>	Not Assessed	Not Assessed	No	BTNR	Yes
28	Salticidae	<i>Thorelliola ensifera</i>	Not Assessed	Not Assessed	No	BTNR	Yes
29	Salticidae	<i>Viciria pavesii</i>	Not Assessed	Not Assessed	No	-	Yes
30	Scytodidae	<i>Scytodes fusca</i>	Not Assessed	Not Assessed	No	BTNR	Yes
31	Sparassidae	<i>Olios CY</i>	Not Assessed	Not Assessed	No	-	Yes
32	Tetramyrmidae	<i>Brignoliella michaeli</i>	Not Assessed	Not Assessed	Yes	-	Yes
33	Tetragnathidae	<i>Leucauge argentina</i>	Not Assessed	Not Assessed	No	BTNR	Yes
34	Tetragnathidae	<i>Leucauge decorata</i>	Not Assessed	Not Assessed	No	-	Yes
35	Tetragnathidae	<i>Tetragnatha chauliodus</i>	Not Assessed	Not Assessed	No	-	Yes
36	Tetragnathidae	<i>Typhlosa ventralis</i>	Not Assessed	Not Assessed	No	BTNR	Yes
37	Theridiidae	<i>Argyrodes flavescens</i>	Not Assessed	Not Assessed	No	BTNR	Yes
38	Theridiidae	<i>Chikunia ST</i>	Not Assessed	Not Assessed	No	-	Yes
39	Theridiidae	<i>Chrysso RB</i>	Not Assessed	Not Assessed	No	-	Yes
40	Theridiidae	<i>Chrysso TT</i>	Not Assessed	Not Assessed	No	BTNR	Yes
41	Theridiidae	<i>Coscinida SB</i>	Not Assessed	Not Assessed	No	-	Yes
42	Theridiidae	<i>Emertonella GH</i>	Not Assessed	Not Assessed	No	-	Yes
43	Theridiidae	<i>Janula batman</i>	Not Assessed	Not Assessed	No	-	Yes
44	Theridiidae	<i>Janula MF</i>	Not Assessed	Not Assessed	No	-	Yes
45	Theridiidae	<i>Nihonhimea mundula</i>	Not Assessed	Not Assessed	No	BTNR	Yes
46	Theridiidae	<i>Phycosoma digitula</i>	Not Assessed	Not Assessed	No	-	Yes
47	Theridiidae	<i>Phycosoma hana</i>	Not Assessed	Not Assessed	No	BTNR	Yes
48	Theridiidae	<i>Stemmops nigrabdomenus</i>	Not Assessed	Not Assessed	No	-	Yes
49	Theridiidae	<i>Theridion t-notatum</i>	Not Assessed	Not Assessed	No	BTNR	Yes
50	Thomisidae	<i>Pharta bimaculata</i>	Not Assessed	Not Assessed	No	BTNR	Yes
51	Thomisidae	<i>Tmarus SH</i>	Not Assessed	Not Assessed	No	-	Yes
52	Uloboridae	<i>Miagrammopes BS</i>	Not Assessed	Not Assessed	No	-	Yes
53	Zodariidae	<i>Asceua VB</i>	Not Assessed	Not Assessed	No	-	Yes
54	Zodariidae	<i>Mallinella annulipes</i>	Not Assessed	Not Assessed	No	BTNR	Yes

**APPENDIX 7
IMPACT ASSESSMENT ON PLANTS AT BBNP [AREA B1 (WEST OF
LORONG SESUAI)], B2, B3, B4, C1, C2**

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bat	No	<i>Cheiromeles torquatus</i>	Naked bulldog bat	Least Concern	Critically Endangered	No	Construction	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Not Expected to Occur	Not expected to happen at construction sites	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	No	Construction	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Not Expected to Occur	Not expected to happen at construction sites	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Yes	Construction	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Not Expected to Occur	Not expected to happen at construction sites	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Bicoloured roundleaf bat	Least Concern	Endangered	No	Construction	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Not Expected to Occur	Not expected to happen at construction sites	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Penthetor lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	No	Construction	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Not Expected to Occur	Not expected to happen at construction sites	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	No	Construction	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Not Expected to Occur	Not expected to happen at construction sites	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Tylonycteris fulvida</i>	Lesser bamboo bat	Least Concern	Vulnerable	No	Construction	Accidental injury or mortality	High	High	Susceptible to injury and mortality during bamboo felling	High	Likely	Bamboo clusters located within impact zones	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Major	> Conduct regular site inspections to ensure contractor compliance with the EMMP > Train site personnel on biodiversity awareness and actions to take when encountering wildlife > Formulate a wildlife response plan to be executed when trapped injured/dead dangerous fauna is found on-site > Conduct bamboo bat rescue and translocation	High	High	Less likely	Minor
Fauna	Bat	No	<i>Tylonycteris malaysana</i>	Greater bamboo bat	Least Concern	Vulnerable	No	Construction	Accidental injury or mortality	High	High	Susceptible to injury and mortality during bamboo felling	High	Likely	Bamboo clusters located within impact zones	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Major	> Conduct regular site inspections to ensure contractor compliance with the EMMP > Train site personnel on biodiversity awareness and actions to take when encountering wildlife > Formulate a wildlife response plan to be executed when trapped injured/dead dangerous fauna is found on-site > Conduct bamboo bat rescue and translocation	High	High	Less likely	Minor
Fauna	Bee	Yes	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Yes	Construction	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Not Expected to Occur	Not expected to happen at construction sites	> Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e., Main Entrance, Plaza and play area areas) to prevent fauna entry > Avoid logging > No night works (except security critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Not Expected to Occur	Negligible

Fauna	Bird	No	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Chrysococcyx xanthorhynchus</i>	Violet cuckoo	Least Concern	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Dendrocygna javanica</i>	Lesser whistling duck	Least Concern	Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Dicaeum chrysorhous</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Helicopais personatus</i>	Masked finfoot	Endangered	Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Psittacula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Psittinus cyanurus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bird	Yes	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix I)	Endangered	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Strix seloputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Sumiculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Treron curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Yes	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Anemina blanca blanca</i>	Silver royal	Not Assessed	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Arhopala antimuta antimuta</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Arhopala eumolphus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Arhopala silhetensis adorea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Caloris malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	Impact is not expected to happen during construction		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Catopyrops aenigma</i>	Aenigma blue	Not Assessed	Vulnerable	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	Impact is not expected to happen during construction		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Discophora sondaica despolata</i>	Common duffer	Not Assessed	Critically Endangered	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Gangera lebadea lebadea</i>	Banded reudeye	Not Assessed	Nationally Extinct (Rediscovered)	No	Construction	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	Impact is not expected to happen during construction		Minor		High	High	Not Expected to Occur	Minor

Fauna	Bird	Yes	<i>Chrysococcyx xanthorhynchus</i>	Violet cuckoo	Least Concern	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plum-tailed swiftlet	Least Concern	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Dendrocygna javanica</i>	Lesser whistling duck	Least Concern	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Dicaeum chrysorhynchum</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Helicops personatus</i>	Masked finfoot	Endangered	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Psittacula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Ptilinurus cyanurus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix I)	Endangered	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bird	No	<i>Strix seloputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Sumiculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Treron curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Anaea blanca blanca</i>	Silver royal	Not Assessed	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Arhopala antimuta antimuta</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Arhopala eumolphus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Arhopala silhetensis adorea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Calotris malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Catopyrops aenya</i>	Aenya blue	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Discophora sondaica despolata</i>	Common duffer	Not Assessed	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Gangera lebadea lebadea</i>	Banded redeye	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Jamides alecto ageladas</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Manto hypoleuca terana</i>	Green imperial	Not Assessed	Nationally Extinct	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Nacaduba kurava nemana</i>	Transparent sidine blue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Nacaduba sanaya elioti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	Yes	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Pachliopta aristolochiae asteris</i>	Common rose	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Butterfly	No	<i>Potanthus trachala tyleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Rachana jalindra burbona</i>	Banded royal	Not Assessed	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Suastus everyx everyx</i>	White palm bob	Not Assessed	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Tapena thwaitesi bornea</i>	Dark flat	Not Assessed	Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Telicota colon stings</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Trides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Zela storeyi</i>	Storey's palmer	Not Assessed	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Decapod	No	<i>Geosesarma peraccae</i>	Peracca's land crab	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Non-volant mammal	Yes	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Yes	Operational	Human-Wildlife conflict	High	Low	Possibly perceived as nuisance; less tolerant of human presence	Low	Less Likely	Impact is not likely to happen during operation		Minor		Negligible	Low	Less likely	Minor
Fauna	Non-volant mammal	No	<i>Iomys horsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	No	Operational	Human-Wildlife conflict	High	Low	Possibly perceived as nuisance; less tolerant of human presence	Low	Less Likely	Impact is not likely to happen during operation		Minor		Low	Low	Less likely	Minor
Fauna	Non-volant mammal	No	<i>Lutrogale perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	No	Operational	Human-Wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Mammal - possibly implicated in human-wildlife conflict		Minor	> Put up signages to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	Medium	Medium	Less likely	Minor
Fauna	Non-volant mammal	Yes	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Yes	Operational	Human-Wildlife conflict	High	High	Typically perceived as both nuisance and threat	High	Less Likely	Impact is not implicated in human-wildlife conflict		Minor	> Put up signages to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Yes	Operational	Human-Wildlife conflict	High	Low	Possibly perceived as nuisance; less tolerant of human presence	Low	Less Likely	Impact is not likely to happen during operation		Minor		Low	Low	Less likely	Minor
Fauna	Non-volant mammal	No	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Low	Possibly perceived as threat; less tolerant of human presence	Low	Less Likely	Impact is not likely to happen during operation		Minor		Low	Low	Less likely	Minor
Fauna	Odonate	No	<i>Aciagrion hisopa</i>	Blue slim	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Acromorphus malayanus</i>	Malayan hooktail	Near Threatened	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Amphicnemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Chalybeothemis fluviatilis</i>	Green-eyed perchler	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Copera vittata</i>	Variable featherlegs	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Drepanosticta quadrata</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Gynacantha basiguttata</i>	Spoon-tailed duskhawk	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Indothemis carnatica</i>	White-tipped demon	Near Threatened	Critically Endangered	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Podolestes orientalis</i>	Blue-spotted flatwing	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Odonate	No	<i>Vestalis amethystina</i>	Common flashwing	Not Assessed	Vulnerable	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Reptiles	Yes	<i>Anyda cartilaginea</i>	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Reptiles	No	<i>Boliga cynodon</i>	Dog-toothed cat snake	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	High	Typically perceived as both nuisance and threat	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict		Minor	> Put up signage to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor
Fauna	Reptiles	No	<i>Boiga melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	High	Typically perceived as both nuisance and threat	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict		Minor	> Put up signage to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor
Fauna	Reptiles	No	<i>Callophis bivirgatus</i>	Malayan blue coral snake	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	High	Typically perceived as both nuisance and threat	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict		Minor	> Put up signage to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor
Fauna	Reptiles	No	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	No	Operational	Human-Wildlife conflict	High	Negligible	Not perceived as nuisance or threat	Very Low	Not Expected to Occur	Impact is not expected to happen during operation	Wildlife-human coexistence education programs	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Reptiles	No	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Low	Possibly perceived as nuisance; less tolerant of human presence	Low	Less Likely	Impact is not likely to happen during operation		Minor		Low	Low	Less likely	Minor
Fauna	Reptiles	No	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	No	Operational	Human-Wildlife conflict	High	Low	Possibly perceived as nuisance; less tolerant of human presence	Low	Less Likely	Impact is not likely to happen during operation		Minor		Low	Low	Less likely	Minor
Fauna	Reptiles	No	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	No	Operational	Human-Wildlife conflict	High	High	Typically perceived as both nuisance and threat	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict		Minor	> Put up signage to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor
Fauna	Reptiles	No	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	Low	Possibly perceived as nuisance; less tolerant of human presence	Low	Less Likely	Impact is not likely to happen during operation		Minor		Low	Low	Less likely	Minor
Fauna	Reptiles	No	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	No	Operational	Human-Wildlife conflict	High	High	Typically perceived as both nuisance and threat	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict		Minor	> Put up signage to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor
Fauna	Bat	No	<i>Cheiromeles torquatus</i>	Naked bulldog bat	Least Concern	Critically Endangered	No	Operational	Light disturbance	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Not Expected to Occur	Lighting will only be provided along proposed trails towards quarry and the southern part of Stream Loop, which are currently lit (i.e., worse off from baseline).		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	No	Operational	Light disturbance	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Not Expected to Occur	Lighting will only be provided along proposed trails towards quarry and the southern part of Stream Loop, which are currently lit (i.e., worse off from baseline).		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Yes	Operational	Light disturbance	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Not Expected to Occur	Lighting will only be provided along proposed trails towards quarry and the southern part of Stream Loop, which are currently lit (i.e., worse off from baseline).		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Bicoloured roundleaf bat	Least Concern	Endangered	No	Operational	Light disturbance	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Not Expected to Occur	Lighting will only be provided along proposed trails towards quarry and the southern part of Stream Loop, which are currently lit (i.e., worse off from baseline).		Minor		High	High	Not Expected to Occur	Minor

Fauna	Bird	No	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Brachyptodus melanopechalis</i>	Black-headed bulbul	Least Concern	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Dendrocyanina javanica</i>	Lesser whistling duck	Least Concern	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Dicaeum chrysorhous</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Heliosciurus personatus</i>	Masked finfoot	Endangered	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Psephotus longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Psephotus cyanurus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix II)	Endangered	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	No	<i>Strix selaputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Bird	Yes	<i>Sumichrastus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Bird	No	<i>Treron curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Ancema blanka blanka</i>	Silver royal	Not Assessed	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Butterfly	No	<i>Arhopala antimuta antimuta</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Arhopala eumolphus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Arhopala silhetensis adorea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Calotis malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Catopyrops aenara</i>	Aenara blue	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructures if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Discophora sondaica despiciens</i>	Common duffer	Not Assessed	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Gangara lebadea lebadea</i>	Banded redevy	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Jamides alecto ageladas</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructures if needed	Low	Not Expected to Occur	No major new buildings		Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Manto hypoleuca terana</i>	Green imperial	Not Assessed	Nationally Extinct	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Nacaduba kurava nemana</i>	Transparent sirdine blue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Nacaduba sanaya elioti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	Yes	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Pachliopta aristolochiae asteris</i>	Common rose	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Potanthus trachala tytleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Rachana jalindra burbona</i>	Banded royal	Not Assessed	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Fauna	Butterfly	No	<i>Sasastus everyx everyx</i>	White palm bob	Not Assessed	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Tapena thwaitesi bornea</i>	Dark flat	Not Assessed	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Butterfly	No	<i>Telicota colon stings</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Zela storeyi</i>	Storey's palmer	Not Assessed	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Decapod	No	<i>Geosesarma peraccae</i>	Peracca's land crab	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Considerable changes in waterbody that may affect connectivity for aquatic species	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Non-volant mammal	Yes	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Non-volant mammal	No	<i>Iomys horsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Non-volant mammal	No	<i>Lutrogale perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Non-volant mammal	Yes	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Not Expected to Occur	No major new buildings		Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Non-volant mammal	Yes	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Non-volant mammal	No	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Aciagrion hisopa</i>	Blue slim	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Acrognathus malayanus</i>	Malayan hooktail	Near Threatened	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Amphicnemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Chalybeothemis fluviatilis</i>	Green-eyed perch	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	No major new buildings		Negligible		High	Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Copera vittata</i>	Variable featherlegs	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Drepanosticta quadrata</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Gynacantha basiguttata</i>	Spoon-tailed duskhawker	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Indothemis camatica</i>	White-tipped demon	Near Threatened	Critically Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructures if needed	Low	Not Expected to Occur	No major new buildings		Negligible		High	Low	Not Expected to Occur	Negligible

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Odonate	No	<i>Podolestes orientalis</i>	Blue-spotted flatwing	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Odonate	No	<i>Vestals amethystina</i>	Common flashwing	Not Assessed	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	Yes	<i>Amyda cartilaginea</i>	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Bogia cynodon</i>	Dog-toothed cat snake	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Bogia melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Callophis bivirgatus</i>	Malayan blue coral snake	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Not Expected to Occur	No major new buildings		Minor		Medium	Medium	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Reptiles	No	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	No	Operational	Loss of/reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Not Expected to Occur	No major new buildings		Minor		High	High	Not Expected to Occur	Minor
Fauna	Bat	No	<i>Cheiromeles torquatus</i>	Naked bulldog bat	Least Concern	Critically Endangered	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Yes	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Bicoloured roundleaf bat	Least Concern	Endangered	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Perimyotus lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	No	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bat	No	<i>Tylonycteris fulviva</i>	Lesser bamboo bat	Least Concern	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bat	No	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bee	Yes	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Yes	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bee	No	<i>Anthidiellum smithii</i>	NA	Not Assessed	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bee	No	<i>Ceratina fulginosa</i>	NA	Not Assessed	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Bee	No	<i>Ceratina ridleyi</i>	NA	Not Assessed	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible

Fauna	Butterfly	No	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Butterfly	No	<i>Zela storeyi</i>	Storey's palmer	Not Assessed	Critically Endangered	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Decapod	No	<i>Geosesarma peraccae</i>	Peracca's land crab	Not Assessed	Vulnerable	No	Operational	Poaching	High	Medium	Species that are possibly susceptible to poaching; commonly traded as pets	Medium	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		Medium	Medium	Less likely	Minor
Fauna	Non-volant mammal	Yes	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Yes	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Non-volant mammal	No	<i>Iomys horsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible
Fauna	Non-volant mammal	No	<i>Lutrogale perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	No	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Yes	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Yes	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	No	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	No	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Odonate	No	<i>Aciagrion hisope</i>	Blue slim	Least Concern	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Acrogomphus malayanus</i>	Malayan hooktail	Near Threatened	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Amphicnemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Chalybeothemis fluviatilis</i>	Green-eyed percher	Not Assessed	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible
Fauna	Odonate	No	<i>Copera vittata</i>	Variable featherlegs	Least Concern	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible

Appendix 7 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Recorded Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity (I)	Residual consequence	Residual likelihood	Residual impact significance	
Fauna	Odonate	No	<i>Drepanosticta quadridens</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible	
Fauna	Odonate	No	<i>Gynacantha basiguttata</i>	Spoon-tailed duskhawker	Least Concern	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible	
Fauna	Odonate	No	<i>Indothemis carnatica</i>	White-tipped demon	Near Threatened	Critically Endangered	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible	
Fauna	Odonate	No	<i>Podolestes orientalis</i>	Blue-spotted flatwing	Least Concern	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible	
Fauna	Odonate	No	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible	
Fauna	Odonate	No	<i>Vestalis amethystina</i>	Common flashwing	Not Assessed	Vulnerable	No	Operational	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Not Expected to Occur	Negligible	
Fauna	Reptiles	Yes	<i>Anya cartilaginea</i>	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Yes	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	High	Less Likely		Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Reptiles	No	<i>Boiga cynodon</i>	Dog-toothed cat snake	Least Concern	Vulnerable	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible	
Fauna	Reptiles	No	<i>Boiga melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible	
Fauna	Reptiles	No	<i>Callophis bivirgatus</i>	Malayan blue coral snake	Least Concern	Vulnerable	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible	
Fauna	Reptiles	No	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	No	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	High	Less Likely		Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Reptiles	No	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible	
Fauna	Reptiles	No	<i>Oligodon signatus</i>	Barred kukri snake	Least Concern	Endangered	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible	
Fauna	Reptiles	No	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	No	Operational	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	High	Less Likely		Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Reptiles	No	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible	
Fauna	Reptiles	No	<i>Sibynophis melanocephalus</i>	Black-headed collared snake	Least Concern	Vulnerable	No	Operational	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Not Expected to Occur	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Not Expected to Occur	Negligible	

APPENDIX 8
**IMPACT ASSESSMENT ON FAUNA AT BBNP [AREA B1 (WEST OF LORONG
SESUAI)], B2, B3, B4, C1, C2**

Receptor Type	Type	Habitat	Phase	Impact type	Impact category	Sensitivity (S)	Key minimum controls	Impact intensity (I)	Reason	Consequence (C = S x I)	Likelihood (L)	Reason	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Habitat	Terrestrial	Native-dominated secondary forest	Construction	Loss of habitat	Direct	Priority 1		Low	< 10%	Low	Certain	Overlaps with slope stabilisation worksite	Moderate	> Avoid areas of high conservation value > Erect hoardings to delineate worksites involving heavy machinery (i.e., Main Entrance, Plaza and Nature Play, Quarry Trail)	Low	Low	Certain	Moderate
Habitat	Terrestrial	Ioned kampong and/or plantation with native recu	Construction	Loss of habitat	Direct	Priority 2		Low	< 10%	Very Low	Certain	Overlaps with slope stabilisation worksite	Minor	> For worksites involving manual work only (i.e., trails, boardwalks, stream edge enhancement), ensure the extent of the working space is clearly demarcated on-site and cross-checked by a Flora Specialist to avoid unnecessary vegetation clearance	Low	Very Low	Certain	Minor
Habitat	Terrestrial	Abandoned kampong and/or plantation	Construction	Loss of habitat	Direct	Priority 2		Low	< 10%	Very Low	Certain	Overlaps with slope stabilisation worksite	Minor	> Avoid areas of high conservation value > Erect hoardings to delineate worksites involving heavy machinery (i.e., Main Entrance, Plaza and Nature Play, Quarry Trail)	Low	Very Low	Certain	Minor
Habitat	Terrestrial	Grassland	Construction	Loss of habitat	Direct	Priority 2		Negligible	No overlap	Imperceptible	Unlikely	No development	Negligible	Imperceptible	Unlikely	Negligible		
Habitat	Terrestrial	Scrubland	Construction	Loss of habitat	Direct	Priority 3		Negligible	No overlap	Imperceptible	Unlikely	No development	Negligible	Imperceptible	Unlikely	Negligible

Flora	Indirect	<i>Alangium griffithii</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Anaxagorea javanica</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Angelesia splendens</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Antidesma velutinum</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Aporosa cf. lucida</i> var. <i>lucida</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Aporosa frutescens</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Archidendron clypearia</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Aspidopterys concava</i>	Construction	Decline in plant health	High	Negligible	1/29 (<10%) specimens affected indirectly by development of boardwalk/trail plaza	Very Low	Not Expected to Occur	Developments will be done at existing pathway area.	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Baccarea polynera</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Bambusa bambos</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Bambusa heterostachya</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Breynia discigera</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Calophyllum ferrugineum</i> var. <i>ferrugineum</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C x S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Calophyllum pulcherrimum</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Calophyllum teysmannii var. teysmannii</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Campnosperma auriculatum</i>	Construction	Decline in plant health	High	Negligible	2/50 (~10%) trees indirectly affected by development of boardwalk/trail	Very Low	Not Expected to Occur	Developments will be done at existing pathway area.	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Causonis japonica</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Chonemorpha fragrans</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Cryptocarya griffithiana</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Dacryodes cf. costata</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Diplazium cf. phanerotis</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Deprananthus cf. rideleyi</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Direct	<i>Durio singaporense</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Elaeocarpus mastersii</i>	Construction	Decline in plant health	High	Negligible	1/6 (~10%) specimen affected indirectly by development of boardwalk/trail	Very Low	Not Expected to Occur	Developments will be done at existing pathway area.	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Elaeocarpus nitidus</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Elaeocarpus obtusus ssp. apiculatus</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Elaeocarpus pedunculatus</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Elaeocarpus petiolatus</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Endospermum diadenum</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Entada spiralis</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus benghalensis</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus caulocarpa</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus elastica</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus microcarpa</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus sagittata</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus variegata</i>	Construction	Decline in plant health	High	Low	2/5 large specimen of this species will be indirectly affected by development of main plaza	Low	Not Expected to Occur	Developments will be done at existing built up area	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus villosa</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Garcinia cf. griffithii</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C x S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Gluta cf. wallichii</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Goniophlebium percussum</i>	Construction	Decline in plant health	High	Negligible	2/10 (<10%) specimens affected indirectly by development of main plaza and play area area	Low	Not Expected to Occur	Developments will be done at existing built up area	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Guioa pleuropteris</i>	Construction	Decline in plant health	High	Low	2/6 specimens affected indirectly by the development of boardwalk/trail	Low	Not Expected to Occur	Developments will be done at existing pathway area.	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Gymnacranthera farquhariana var. eugenifolia</i>	Construction	Decline in plant health	High	Low	1/9 specimen affected indirectly by development of main plaza	Low	Not Expected to Occur	Developments will be done at existing built up area	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Gynochthodes rigidia</i>	Construction	Decline in plant health	High	Negligible	8/150 (>10%) specimen affected indirectly by development of main plaza as well as boardwalk and trails	Low	Not Expected to Occur	Developments will be done at existing built up area	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Krema intermedia</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Krema malayana</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Limacia scandens</i>	Construction	Decline in plant health	High	Low	2/7 specimens affected indirectly by development of boardwalk/trails	Low	Not Expected to Occur	Developments will be done at existing pathway area.	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Litsea accedens</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Litsea grandis</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Litsea umbellata</i>	Construction	Decline in plant health	High	Negligible	5/33 (<10%) specimens affected indirectly by development of boardwalk/trail	Low	Not Expected to Occur	Developments will be done at existing pathway area.	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Lomariopsis lineata</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Macaranga griffithiana</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Macaranga hullettii</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Maesa sumatrana</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Melicope lunu-ankenda</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Memecylon cf. garcinoides</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Monocarpia maingayi</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Morinda elliptica</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Neolitsea cassia</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Nothaphoebe umbelliflora</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Oxyceros longiflorus</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Parishia insignis</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Pellacalyx saccardianus</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Piper ramjipilum</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible

Flora	Indirect	<i>Canthiumera robusta</i>	Construction	Decline in plant health	High	Assuming the only specimen has been cleared during construction phase											
Flora	Indirect	<i>Oxyceros cf. spinosus</i>	Construction	Decline in plant health	High												
Flora	Indirect	<i>Strophanthus caudatus</i>	Construction	Decline in plant health	High												
Flora	Indirect	<i>Hetaeria oblongifolia</i>	Operational	Poaching	High	High	Many specimens of this species could get stolen as plant possess charismatic properties (orchid flowers but only obvious when its flowering)	High	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor			No change	No change	No change	Minor
Flora	Indirect	<i>Agelaea macrophylla</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor			No change	No change	No change	Minor

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S × I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C × L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Aglaia tomentosa</i> ssp. <i>cordata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Aidia densiflora</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Anaxagorea javanica</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Angelesia splendens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Aspidopterys concava</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Beilschmiedia madang</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Breynia discigera</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Calophyllum tetramerum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Causonis japonica</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Chonemorpha fragrans</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Clerodendrum villosum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Cryptocarya griffithiana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Dasymaschalon dasymaschalon</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Dialium platysepalum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Dibridsonia cf. conferta</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Drepananthus c. ridleyi</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Elaeocarpus mastersii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are spread out, and accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Elaeocarpus nitidus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Elaeocarpus pedunculatus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Elaeocarpus petiolatus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor

Flora	Indirect	<i>Entada spiralis</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Ficus sagittata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Ficus vesculosa</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Garcinia cf. griffithii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Garcinia forbesii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Goniophlebium percussum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are spread out, and accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Guioa pleuropteris</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Guioa pubescens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Gynochthodes rigidia</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Horsfieldia polysphera var. polysphera</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Knema communis</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Knema intermedia</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Limacia scandens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Litsea umbellata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Macaranga griffithiana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Macaranga hullettii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Maesa sumatrana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Melicope lunu-ankenda</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Memecylon cf. garcinoides</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Monocarpia maingayi</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor

Flora	Indirect	<i>Uncaria longiflora</i> var. <i>pteropoda</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Xanthophyllum vitellinum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Xylopia malayana</i> var. <i>malayana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		No change	No change	No change	Minor	
Flora	Indirect	<i>Lindera lucida</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor		Low	Low	No change	Minor	
Flora	Indirect	<i>Aporosa benthamiana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signage to remind visitors not to stay off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Aporosa cf. lucida</i> var. <i>lucida</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signage to remind visitors not to stay off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Aporosa frutescens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signage to remind visitors not to stay off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Archidendron clypearia</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signage to remind visitors not to stay off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Cratoxylum formosum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signage to remind visitors not to stay off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S × I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C × L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Dacryodes cf. costata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Gymnacranthera farquhariana var. eugeniiifolia</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Litsea grandis</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Neolitsea cassia</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Indirect	<i>Sandoricum koetjape</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	No change	No change	No change	Minor	
Flora	Direct	<i>Durio singaporense</i>	Operational	Poaching	High	Medium	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Medium	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Bambusa bambos</i>	Operational	Poaching	High	Medium	Some plant specimens of this species could get stolen (i.e., plant species with ethnobotanical value)	Medium	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor			No change	No change	No change	Minor
Flora	Indirect	<i>Bambusa heterostachya</i>	Operational	Poaching	High	Medium	Some plant specimens of this species could get stolen (i.e., plant species with ethnobotanical value)	Medium	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor			No change	No change	No change	Minor
Flora	Indirect	<i>Bambusa vulgaris</i>	Operational	Poaching	High	Medium	Some plant specimens of this species could get stolen (i.e., plant species with ethnobotanical value)	Medium	Less likely	Specimens are clustered/spread out, and are accessible to members of public	Minor			No change	No change	No change	Minor

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Alangium griffithii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Anodendron candolleanum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Antidesma coriaceum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Antidesma velutinosa</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Baccaurea polynera</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Calophyllum ferrugineum</i> var. <i>ferrugineum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Calophyllum pulcherrimum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Calophyllum teysmannii</i> var. <i>teysmannii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Canarium patentinervium</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Diplazium cf. phanerotis</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Elaeocarpus ferrugineus</i> ssp. <i>ferrugineus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Elaeocarpus obtusus</i> ssp. <i>apiculatus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Ficus villosa</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Gluta cf. wallichii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Gnetum cf. microcarpum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Knema malayana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Litsea accedens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Lomariopsis lineata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Salacia cf. korthalsiana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Santria cf. rubiginosa</i> var. <i>rubiginosa</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Sterculia cf. coccinea</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	

Appendix 9 - Impact Assessment on Plants at BBNP [Area B1 (West of Lorong Sesuai), B2, B3, B4, C1, C2]

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Ziziphus calophylla</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Ziziphus elegans</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Less likely	BBNP already accessible to public	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Put up signages to remind visitors not to stray off-trail > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail > Conduct regular patrols to deter poaching activities > Transplant specimens of conservation significance away from publicly accessible areas	Low	Low	Less likely	Minor	
Flora	Indirect	<i>Adinandra dumosa</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are spread out, and accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Campnosperma auriculatum</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Endospermum diadenum</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Ficus berghalensis</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Ficus caulocarpa</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Ficus cf. rumphii</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Ficus elastica</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Ficus microcarpa</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Ficus variegata</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are clustered/spread out, and are accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Rhodamnia cinerea</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are spread out, and accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Timonius wallichianus</i>	Operational	Poaching	High	Negligible	Specimens are too large to be poached	Very Low	Not Expected to Occur	Specimens are spread out, and accessible to members of public	Negligible		No change	No change	No change	Negligible	
Flora	Indirect	<i>Canthiumera robusta</i>	Operational	Poaching	High	1 has been cleared during construction phase											
Flora	Indirect	<i>Oxycedrus cf. bispinosus</i>	Operational	Poaching	High	1 has been cleared during construction phase											
Flora	Indirect	<i>Strophanthus caudatus</i>	Operational	Poaching	High	1 has been cleared during construction phase											

**APPENDIX 10
IMPACT ASSESSMENT ON PLANTS AT BBTP (AREA D)**

Receptor Type	Type	Receptor	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Abrodicty whole obscurum</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Actinostachys digitata</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Aglaea macrophylla</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Aglaia tomentosa ssp. cordata</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Aidia densiflora</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ampelocissus ascendiflora</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Ampelocissus gracilis</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Arundina graminifolia</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Aspidopterys concava</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Bambusa heterostachya</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Bambusa vulgaris</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Bouea oppositifolia</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Brachypteron scandens</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Not Expected to Occur	No specimen will lie within impact zones of proposed constructions	Implement soil erosion control measures	Negligible		No change	No change	No change	Negligible
Flora	Indirect	<i>Breynia discigera</i>	Construction	Decline in plant health	High	Negligible	No specimen affected directly by development	Very Low	Not Expected to Occur	No specimen will be affected by impact of mortality	NIL	Negligible		No change	No change	No change	Negligible

Flora	Indirect	<i>Oncosperma tigillarium</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Oxyceros bispinosus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Oxyceros longiflorus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Pandanus houletii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Pellacalyx saccardianus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Phytocrene bracteata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Piper cf. ribesioides</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible

Flora	Indirect	<i>Psychotria polycarpa</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Pternandra coerulescens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Radermachera quadripinnata ssp. lobbii</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Rubus moluccanus var. moluccanus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Strophanthus caudatus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Teratophyllum ludens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Tetracera fagifolia var. borneensis</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Uncaria cf. elliptica</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Uncaria cordata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Aglaia tomentosa ssp. cordata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Ampelocissus ascendiflora</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Ampelocissus gracilis</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Brachypterum scandens</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Calamus cf. melanochaetes</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Calophyllum tetapterum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Canarium pilosum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Capparis micracantha</i> subsp. <i>korthalsiana</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Chassalia curviflora</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Cratoxylum formosum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible

Flora	Indirect	<i>Diplazium tomentosum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Elaeocarpus ferrugineus ssp. ferrugineus</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus villosa</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Gardenia cf. subcarinata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Heritiera elata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Nervilia singaporensis</i>	Operational	Poaching	High	High	Most plant specimens of this species could get stolen (i.e., orchids, pitcher plants), and are of small to medium sizes, which can be removed	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Phaeanthus intermedius</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Piper ramiplum</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Psychotria maingayi</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Psychotria ovoidea</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Rourea mimosoides</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Rourea minor</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Tectaria semipinnata</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Ziziphus elegans</i>	Operational	Poaching	High	Low	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Low	Not Expected to Occur	Specimen is inaccessible	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Bouea oppositifolia</i>	Operational	Poaching	High	Negligible	No specimen can be stolen as the only record on site is a large specimen	Very Low	Not Expected to Occur	Specimen is too large to be poached	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus caulocarpa</i>	Operational	Poaching	High	Negligible	No specimen can be stolen as the only record on site is a large specimen	Very Low	Not Expected to Occur	Specimen is too large to be poached	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Ficus variegata</i>	Operational	Poaching	High	Negligible	No specimen can be stolen as the only record on site is a large specimen	Very Low	Not Expected to Occur	Specimen is too large to be poached	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Morinda elliptica</i>	Operational	Poaching	High	Negligible	No specimen can be stolen as the only record on site is a large specimen	Very Low	Not Expected to Occur	Specimen is too large to be poached	NIL	Negligible	No change	No change	No change	Negligible
Flora	Indirect	<i>Sandoricum koetjape</i>	Operational	Poaching	High	Negligible	Few plant specimens of this species could get stolen (i.e., not charismatic, no ethnobotanical value)	Very Low	Not Expected to Occur	Specimen is too large to be poached	NIL	Negligible	No change	No change	No change	Negligible

**APPENDIX 11
IMPACT ASSESSMENT ON FAUNA AT BBTP (AREA D)**

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for Likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact Intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bat	No	<i>Cheiromeles torquatus</i>	Naked bulldog bat	Least Concern	Critically Endangered	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bat	Yes	<i>Eonycteris spasea</i>	Cave nectar bat	Least Concern	Vulnerable	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Bicoloured roundleaf bat	Least Concern	Endangered	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Penthetor lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Tylonycteris fulviva</i>	Lesser bamboo bat	Least Concern	Vulnerable	Construction	Accidental injury or mortality	High	High	Species with high susceptibility to accidental injury/mortality from construction activite	High	Unlikely	Impact is not expected to happen during construction because construction-bamboo clusters do not overlap with impact zone	> Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works)	Negligible		High	High	Unlikely	Negligible
Fauna	Bat	No	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Construction	Accidental injury or mortality	High	High	Species with high susceptibility to accidental injury/mortality from construction activite	High	Unlikely	Impact is not expected to happen during construction because construction-bamboo clusters do not overlap with impact zone	> Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works)	Negligible		High	High	Unlikely	Negligible
Fauna	Bee	No	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bee	No	<i>Anthidium smithii</i>	NA	Not Assessed	Vulnerable	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bee	No	<i>Ceratinia fulginea</i>	NA	Not Assessed	Vulnerable	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activite	Low	Unlikely	Impact is not expected to happen during construction	> Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum conditions	Impact significance (C x L)	Key mitigation measures	Residual Impact Intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bee	No	Ceratina didyma	NA	Not Assessed	Vulnerable	Construction	Accidental injury or mortality	High	Low	Species with low susceptibility to accidental injury/mortality from construction activities	Low	Unlikely	Impact is not expected to happen during construction	> Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections > Erect hoardings around worksites involving heavy machinery (i.e. Main Entrance) to prevent fauna entry > Avoid felling > No right works (except security-critical works) > Pre-felling fauna inspections	Negligible		Low	Low	Unlikely	Negligible

Fauna	Bee	No	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Construction	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Less Likely	Safety-critical right works only	No night works	Negligible	Negligible	Very Low	Less likely	Negligible	
Fauna	Bee	No	<i>Normata malayana</i>	NA	Not Assessed	Vulnerable	Construction	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Less Likely	Safety-critical right works only	No night works	Negligible	Negligible	Very Low	Less likely	Negligible	
Fauna	Bee	No	<i>Nomia apicalis</i>	NA	Not Assessed	Critically Endangered	Construction	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Less Likely	Safety-critical right works only	No night works	Negligible	Negligible	Very Low	Less likely	Negligible	
Fauna	Bee	No	<i>Patellapis intricata</i>	NA	Not Assessed	Critically Endangered	Construction	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Less Likely	Safety-critical right works only	No night works	Negligible	Negligible	Very Low	Less likely	Negligible	
Fauna	Bird	No	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Ardesa purpurea</i>	Purple heron	Least Concern	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Brachypodium melanocaphos</i>	Black-headed bulbul	Least Concern	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Chloropsis sonorensis</i>	Greater green leafbird	Endangered	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Coppsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	Yes	<i>Coppsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	No	<i>Dendrocitta javanica</i>	Lesser whistling duck	Least Concern	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Dicaeum chrysostigma</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	Yes	<i>Ictyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Heliopais personatus</i>	Masked finfoot	Endangered	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	Yes	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	No	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor		
Fauna	Bird	Yes	<i>Palliceps longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Patagioenas cyanocephala</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	No	<i>Pycnonotus barbatus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	Yes	<i>Pycnonotus simplex</i>	Creem-vented bulbul	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix II)	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Sturnia seippeleii</i>	Spotted wood swallow	Least Concern; CITES protected (Appendix II)	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	Yes	<i>Sturniculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor	High	High	Less likely	Minor	
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Trogon curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor	Medium	Medium	Less likely	Minor	
Fauna	Butterfly	No	<i>Anomia blanca blanca</i>	Silver royal	Not Assessed	Critically Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor	Low	Low	Less likely	Minor	
Fauna	Butterfly	No	<i>Ariopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor	Low	Low	Less likely	Minor	
Fauna	Butterfly	No	<i>Ariopala amputata amputata</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor	Low	Low	Less likely	Minor	
Fauna	Butterfly	No	<i>Arhopala euphorbus maxwelli</i>	Green calabue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor	Low	Low	Less likely	Minor	
Fauna	Butterfly	No	<i>Arhopala althesensis adorea</i>	Sylhet calabue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor	Low	Low	Less likely	Minor	
Fauna	Butterfly	No	<i>Ascidopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor	Low	Low	Less likely	Minor	
Fauna	Butterfly	Yes	<i>Bubo cinerea</i>	Formosan swift	Not Assessed	Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor	Low	Low	Less likely	Minor

Fauna	Butterfly	No	Merion hypoleuca kerana	Green imperial	Not Assessed	Nationally Extinct	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Macaduba kurava remana	Transparent violetine blue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Macaduba paulus odon	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Macaduba sanaya elidi	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Neptis hylas hylas	Chocolate salibr	Not Assessed	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Pachliopta aristochiona asteris	Common rose	Not Assessed	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Papilio prexaspes prexaspes	Blue helen	Not Assessed	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Papilio agnia agnia	Bengal swift	Not Assessed	Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	Yes	Rotanitis trachala tytleri	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Rachana jalindra burbona	Banded royal	Not Assessed	Critically Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Saustus everyx everyx	White palm bob	Not Assessed	Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Tapena thwaitesi bomea	Dark flat	Not Assessed	Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Telicota color attinga	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Troides helena cerberus	Common broadwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Vagrans sinha sinha	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Butterfly	No	Zela storeyi	Storey's palmer	Not Assessed	Critically Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Non-marine snake	No	Bolitoglossa melanota	Gold-ringed cat snake	Least Concern	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-marine snake	No	Gonyosoma oxycephalum	Red-tailed racer	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor		Medium	Medium	Less likely	Minor
Fauna	Non-marine snake	No	Oligodon signatus	Banded kulei snake	Least Concern	Endangered	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-marine snake	No	Ophiophagus hannah	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor		Medium	Medium	Less likely	Minor
Fauna	Non-marine snake	No	Physa fusca	White-bellied rat snake	Least Concern	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-marine snake	No	Sibynophis melanopeplus	Black-headed collared snake	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor		Medium	Medium	Less likely	Minor
Fauna	Non-marine turtle	No	Amyda cartilaginea	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-marine turtle	No	Cuora amboinensis	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	Galeopterus variegatus	Sunda colugo	Least Concern	Near Threatened	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	Iomya horstfeldi	Horsfield's flying squirrel	Least Concern	Endangered	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	Lutrogale perspicillata	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor		Medium	Medium	Less likely	Minor
Fauna	Non-volant mammal	Yes	Macaca fasciularis	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Critically Endangered	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor		Medium	Medium	Less likely	Minor
Fauna	Non-volant mammal	No	Macaca javanica	Sunda pengon	CITES protected (Appendix I)	Critically Endangered	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	No	Prionailurus bengalensis	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Construction	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Less Likely	Safety-critical right works only	No night works	Minor		High	High	Less likely	Minor
Fauna	Odontate	No	Acromyrmex malayanus	Malayan hortak	Near Threatened	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Odontate	No	Amphonicus gracilis	Willow-wisp	Not Assessed	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Odontate	No	Chalybeothemis fluviatilis	Green-eyed perchet	Not Assessed	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Odontate	No	Copera vittata	Variable featherleg	Least Concern	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Odontate	No	Drepanosticta quadriplaga	Singapore shadowdamsel	Not Assessed	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Odontate	No	Gymnacantha basiguttata	Spoon-tailed duskhawker	Least Concern	Vulnerable	Construction	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Less Likely	Safety-critical right works only	No night works	Minor		Medium	Medium	Less likely	Minor
Fauna	Odontate	No	Indothemis carnatica	White-tipped demon	Near Threatened	Critically Endangered	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Odontate	No	Podolestes orientalis	Blue-spotted flatwing	Least Concern	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Odontate	No	Prodasineura collaris	Collared threadtail	Least Concern	Vulnerable	Construction	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Less Likely	Safety-critical right works only	No night works	Minor		Low	Low	Less likely	Minor
Fauna	Bat	No	Chiroderma torquatum	Naked bulldog bat	Least Concern	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction		Minor		High	High	Unlikely	Minor

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave neotropical bat	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Biocououred roundleaf bat	Least Concern	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bat	No	<i>Penthetor lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bat	No	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bat	No	<i>Tylonycteris fulviventer</i>	Lesser bamboo bat	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bat	No	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bee	No	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Anthidium smithii</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Ceratina fulgurosa</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Ceratina ridleyi</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Lasiglossum semivassatum</i>	NA	Not Assessed	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Lipotriches takauensis</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Megachile indonesica</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Megachile omata</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Nomada malayana</i>	NA	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Nomia apicalis</i>	NA	Not Assessed	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bee	No	<i>Patellapis intricata</i>	NA	Not Assessed	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bird	No	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Ardeo purpurea</i>	Purple heron	Least Concern	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bird	No	<i>Brachyptodus melanochlorus</i>	Black-headed bulbul	Least Concern	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Flame-tailed swiftlet	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	Yes	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Cyanis brunneata</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	<i>Dendrocitta javanica</i>	Lesser whistling duck	Least Concern	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Dicaeum chrysorrheum</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor		
Fauna	Bird	Yes	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible		

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity	Residual consequence	Residual likelihood	Residual Impact significance		
Fauna	Bird	No	<i>Heliopais personatus</i>	Masked finfoot	Endangered	Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible			
Fauna	Bird	No	<i>Katapa katapu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor
Fauna	Bird	Yes	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Negligible	
Fauna	Bird	No	<i>Nettapus coromandianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor
Fauna	Bird	Yes	<i>Ptilocichla longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Construction	Loss reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Ptilotis cyanurus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Bird	No	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Bird	Yes	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix II)	Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Bird	No	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Strix selaputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Bird	Yes	<i>Sturniculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor
Fauna	Bird	No	<i>Tenen curvirostra</i>	Thick-billed green pidgeon	Least Concern	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Anorma blanka blanka</i>	Silver royal	Not Assessed	Critically Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor
Fauna	Butterfly	No	<i>Anthopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor
Fauna	Butterfly	No	<i>Anthopala amintima amintima</i>	Small talless calidre	Not Assessed	Nationally Extinct	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Artogolla euomphalus maxwelli</i>	Green calidre	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Artogolla althensis adriosa</i>	Sylhet calidre	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	Yes	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Calotropis malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor
Fauna	Butterfly	No	<i>Calotropis aencrea</i>	Aencrea blue	Not Assessed	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Discophora sonaca despiciens</i>	Common duffer	Not Assessed	Critically Endangered	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Gangara labacea labacea</i>	Banded reideye	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Jamides alecto agelades</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Manto hypoleuca terrena</i>	Green imperial	Not Assessed	Nationally Extinct	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Nacaduba kurava nemana</i>	Transparent sline blue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Nacaduba pactolus odys</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Nacaduba sanaya elidi</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Neptis harita harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Butterfly	No	<i>Pachliopta aristochrea asteris</i>	Common rose	Not Assessed	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Construction	Loss reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance			
Fauna	Butterfly	No	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible				
Fauna	Butterfly	Yes	<i>Rotanthurus trachala tyleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible				
Fauna	Butterfly	No	<i>Rachana jalindra burtona</i>	Banded royal	Not Assessed	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Impact is not expected to happen during construction	Minor	Medium	Medium	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Sasakia eyvix eyvix</i>	White palm bob	Not Assessed	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Tapena thwaitesi bornea</i>	Dark flat	Not Assessed	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Telicota colon sticta</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Troides helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Zela storeyi</i>	Storey's palmier	Not Assessed	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact is not expected to happen during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	<i>Boliga melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	<i>Oligodon signatus</i>	Barred lizard snake	Least Concern	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Hoarding will not be erected during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor	
Fauna	Non-marine snake	No	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	<i>Sibynophis melanopeltatus</i>	Black-headed collared snake	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-marine turtle	No	<i>Aniodytes cartaginea</i>	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	No change to waterbody	Very Low	Unlikely	Streams is far away from the trails	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	Negligible	
Fauna	Non-marine turtle	No	<i>Cuora amboinensis</i>	Malayan box terrapin	Not Assessed	Near Threatened	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	No change to waterbody	Very Low	Unlikely	Streams is far away from the trails	Negligible	Negligible	High	High	Unlikely	Minor	High	High	Unlikely	Minor
Fauna	Non-volant mammal	Yes	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected at trails during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-volant mammal	Yes	<i>Iomyx horsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected at trails during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Non-volant mammal	Yes	<i>Lutreola perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	Hoarding will not be erected at trails during construction	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-volant mammal	Yes	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal	Very Low	Unlikely	Hoarding will not be erected at trails during construction	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-volant mammal	No	<i>Meris javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	Hoarding will not be erected at trails during construction	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely	Minor	
Fauna	Non-volant mammal	No	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Hoarding will not be erected at trails during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Odontate	No	<i>Acropomphus malayanus</i>	Malayan hocktail	Near Threatened	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact could possibly happen or has been known to occur during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Odontate	No	<i>Amphicnemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact could possibly happen or has been known to occur during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Odontate	No	<i>Chalybeothemis fluviatilis</i>	Green-eyed perchet	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructures if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Odontate	No	<i>Copera vittata</i>	Variable featherleg	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact could possibly happen or has been known to occur during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Odontate	No	<i>Drepanosticta quadriata</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact could possibly happen or has been known to occur during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Odontate	No	<i>Gymnarchus basiguttata</i>	Spoon-tailed duckhawk	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact could possibly happen or has been known to occur during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Odontate	No	<i>Inobdella carnatica</i>	White-tipped demon	Near Threatened	Critically Endangered	Construction	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructures if needed	Low	Unlikely	Impact is not expected to happen during construction	Negligible	Negligible	Low	Low	Unlikely	Negligible	Low	Low	Unlikely	Negligible
Fauna	Odontate	No	<i>Podolestes orientalis</i>	Blue-spotted fangtooth	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact could possibly happen or has been known to occur during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Odontate	No	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	Construction	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	Impact could possibly happen or has been known to occur during construction	Minor	High	High	Unlikely	Minor	High	High	Unlikely	Minor	
Fauna	Bat	No	<i>Chiropterus torquatus</i>	Naked bulldog bat	Least Concern	Critically Endangered	Construction	Loss of reduction in habitats and food sources	High	Low	Loss of <10% of habitat	Low	Certain	> Avoid areas of high conservation value Effect hoardings to delineate worksites involving heavy machinery (i.e., Main Entrance) (For activities involving manual work only (i.e., trails and boardwalks), avoid the extent of the working space Is clearly marking the trails and cross-check by a Flora Specialist to avoid impact to vegetation > Remove understorey plants only; replant somewhere else in BBTP	Moderate	Low	Low	Possible	Minor	Low	Low	Possible	Minor	
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Construction	Loss of reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	> Avoid areas of high conservation value Effect hoardings to delineate worksites involving heavy machinery (i.e., Main Entrance) (For activities involving manual work only (i.e., trails and boardwalks), avoid the extent of the working space Is clearly marking the trails and cross-check by a Flora Specialist to avoid impact to vegetation > Remove understorey plants only; replant somewhere else in BBTP	Negligible	Negligible	Very Low	Unlikely	Negligible	Negligible	Very Low	Unlikely	Negligible

Fauna	Non-marine turtle	No	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-volant mammal	Yes	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-volant mammal	Yes	<i>Iomyshorsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-volant mammal	Yes	<i>Lutreola perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-volant mammal	Yes	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Construction	Loss of/reduction in habitats and food sources	High	Low	Loss of <10% of habitat	Low	Certain	Moderate		> Avoid areas of high conservation value > Erect hoardings to delineate worksites involving heavy machinery (i.e., Main Entrance) > For worksites involving manual work only (i.e., trails and boardwalks), ensure the extent of the working space is clearly demarcated on-site and cross-checked by a Flora Specialist to avoid unnecessary vegetation clearance > Remove understorey plants only, replant somewhere else in BBTP	Low	Low	Possible	Minor	
Fauna	Non-volant mammal	No	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Construction	Loss of/reduction in habitats and food sources	High	Low	Loss of <10% of habitat	Low	Certain	Moderate		> Avoid areas of high conservation value > Erect hoardings to delineate worksites involving heavy machinery (i.e., Main Entrance) > For worksites involving manual work only (i.e., trails and boardwalks), ensure the extent of the working space is clearly demarcated on-site and cross-checked by a Flora Specialist to avoid unnecessary vegetation clearance > Remove understorey plants only, replant somewhere else in BBTP	Low	Low	Possible	Minor	
Fauna	Non-volant mammal	No	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Acrogomphus malayanus</i>	Malayan hocktail	Near Threatened	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Amphotis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Chalybeothemis fluvialis</i>	Green-eyed perchar	Not Assessed	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Copera vittata</i>	Variable featherleg	Least Concern	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Drapetisca quadriplagiata</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Gynacantha basiguttata</i>	Spoon-tailed dushawker	Least Concern	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Indothemis carnatica</i>	White-lipped demon	Near Threatened	Critically Endangered	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Potoleotes orientalis</i>	Blas-spotted flatwing	Least Concern	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Odontate	No	<i>Prodasineura collaris</i>	Collared flatthead	Least Concern	Vulnerable	Construction	Loss of/reduction in habitats and food sources	High	Negligible	No loss of habitat	Very Low	Unlikely	Negligible			Negligible	Very Low	Unlikely	Negligible	
Fauna	Bat	No	<i>Chiroderma torquatum</i>	Naked bulldog bat	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Emballonura mirensis</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Biicoloured roundleaf bat	Least Concern	Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Penthetor luctuus</i>	Dusky flat bat	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Ptenopus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Tylonycteris fulvida</i>	Lesser bamboo bat	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bat	No	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Low	Low	Unlikely	Negligible
Fauna	Bee	No	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Negligible	Low	Low	Unlikely	Negligible

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact Intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bee	No	<i>Anthidium smithi</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Ceratina fulgurosa</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Ceratina idyfyl</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Lasiosotus semivittatum</i>	NA	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Lipotriches takaunensis</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Megachile indonesica</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Megachile omata</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Normata malayana</i>	NA	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Normia apicalis</i>	NA	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Patalotis intricata</i>	NA	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during construction	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Brachyptodus melanochlorus</i>	Black-headed bulbul	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>CMopups orangapeka</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Chloropsis sonorensis</i>	Greater green leafbird	Endangered	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Chrysococcyx xanthorhous</i>	Violet cuckoo	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Migratory	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plum-tail swiftlet	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Coppsychus malabaricus</i>	White-rumped shama	Least Concern CITES protected (Appendix II)	Endangered	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Coppsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Operation	Accidental injury or mortality	High	High	Resident with known records of bird-building collision	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Dendrocitta formosa</i>	Lesser whistling duck	Least Concern	Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Dicæum chrysostigma</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	High	Migratory	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Ictyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened CITES protected (Appendix II)	Vulnerable	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Heliopais personata</i>	Masked finfoot	Endangered	Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Kitupa ketupu</i>	Buffy fish owl	Least Concern CITES protected (Appendix II)	Vulnerable	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Migratory	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Nettapus pulcherrimus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern CITES protected (Appendix II)	Vulnerable	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	Yes	<i>Paticula longicauda</i>	Long-tailed parakeet	Near Threatened	CITES protected (Appendix II)	Operation	Accidental injury or mortality	High	High	Forest-edge frugivore	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Pattinus cyanurus</i>	Blue-rumped parrot	Least Concern	Near Threatened CITES protected (Appendix II)	Endangered	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor
Fauna	Bird	No	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Pycnonotus simplex</i>	Creem-vented bulbul	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	High	Forest-edge frugivore	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	CITES protected (Appendix II)	Endangered	Operation	Accidental injury or mortality	High	High	Forest-edge frugivore	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Spleniops caerulea</i>	Crested serpent eagle	Least Concern CITES protected (Appendix II)	Critically Endangered	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Strix selaputo</i>	Spotted wood owl	Least Concern CITES protected (Appendix II)	Vulnerable	Operation	Accidental injury or mortality	High	Medium	Resident with known records of bird-building collision	Medium	Unlikely	No major buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Sumichrastus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Migratory	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Trogon curvipennis</i>	Thick-billed green pigeon	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Forest-edge frugivore	High	Unlikely	No major buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Low susceptibility to bird building collision	Low	Unlikely	No major buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Anosima blanca blanca</i>	Silver royal	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Archipalai amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Archipalai amputata amputata</i>	Small tailless calceate	Not Assessed	Nationally Extinct	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Artogeia euploea maxwelli</i>	Green calceate	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Archipalai altheensis adreva</i>	Sylhet calceate	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Ascia monuste jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	Yes	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Catopsilia malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Catopsilia ancyla</i>	Ancyla blue	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Discophora sondaica despotilla</i>	Common duffer	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Gangara labdaea labdaea</i>	Banded redeye	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible		Low	Low	Unlikely	Negligible	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Butterfly	No	Jamides electo agelas	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Marito hypoleuca terana	Green imperial	Not Assessed	Nationally Extinct	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Nacaduba kurava nemana	Transparent silene blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Nacaduba pactolus odon	Large fountaine blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Nacaduba sanaya elidi	Jewel fountaine blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Neptis harita harita	Chocolate salmir	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Pachliopta aristophane asteris	Common rose	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Papilio prexaspes presaspes	Blue Helen	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Pelopidas agna agna	Bengal swift	Not Assessed	Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	Yes	Potanthus trachala tytleri	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Rachana jainiandra burbonia	Banded royal	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Sustus euryx euryx	White palm bob	Not Assessed	Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Tapena thwaitesi bornea	Dark flat	Not Assessed	Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Talicola colon sticta	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Troides helena cerberus	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Vagrans sinha sinha	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Zeta storeyi	Storey's palmer	Not Assessed	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Non-marine snake	No	Boliga melanota	Gold-ringed cat snake	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Terrestrial reptile - high susceptibility	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-marine snake	No	Dipsasoreia oxycephalum	Red-tailed racer	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Terrestrial reptile - high susceptibility	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-marine snake	No	Oligodon signatus	Barred kulei snake	Least Concern	Endangered	Operation	Accidental injury or mortality	High	High	Terrestrial reptile - high susceptibility	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-marine snake	No	Ophiophagus hannah	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Accidental injury or mortality	High	High	Terrestrial reptile - high susceptibility	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-marine snake	No	Ptyas fusca	White-bellied rat snake	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Terrestrial reptile - high susceptibility	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-marine snake	No	Shynghys melanostomus	Black-headed collared snake	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	High	Terrestrial reptile - high susceptibility	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-marine turtle	No	Amyda cartilaginea	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Accidental injury or mortality	High	Low	Aquatic - low susceptibility	Low	Unlikely	Impact could possibly happen if has been allowed to occur during construction	Negligible			Low	Low	Unlikely	Negligible
Fauna	Non-marine turtle	No	Cuora amboinensis	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Accidental injury or mortality	High	High	Terrestrial reptile - high susceptibility	High	Unlikely	Advent. marine - mobile but possibly susceptible to roadsides	Minor			High	High	Unlikely	Minor
Fauna	Non-volant mammal	Yes	Galeopterus variegatus	Sunda colugo	Least Concern	Near Threatened	Operation	Accidental injury or mortality	High	Medium	Advent. marine - mobile but possibly susceptible to roadsides	Medium	Unlikely	Arboreal	Minor			Medium	Medium	Unlikely	Minor
Fauna	Non-volant mammal	Yes	Iomyz horsfieldii	Horsfield's flying squirrel	Least Concern	Endangered	Operation	Accidental injury or mortality	High	Medium	Advent. marine - mobile but possibly susceptible to roadsides	Medium	Unlikely	Arboreal	Minor			Medium	Medium	Unlikely	Minor
Fauna	Non-volant mammal	Yes	Lutrogale perspicillata	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Operation	Accidental injury or mortality	High	High	Advent. marine - highly susceptible to roadsides	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	Macaca fascicularis	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Operation	Accidental injury or mortality	High	High	Known to use roads - highly susceptible to roadsides	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-volant mammal	No	Maris javanica	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Operation	Accidental injury or mortality	High	High	Ground-dwelling mammal - highly susceptible to roadsides	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Non-volant mammal	No	Prionailurus bengalensis	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Operation	Accidental injury or mortality	High	High	Ground-dwelling mammal - highly susceptible to roadsides	High	Less Likely	Impact is not likely to happen during operation	Minor			High	High	Less likely	Minor
Fauna	Odontate	No	Acromyrmex malayanus	Malayan cocktail	Near Threatened	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Amphipnemis gracilis	Will-o-wisp	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Chalybeothemis fluvialis	Green-eyed perchler	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Copera vittata	Variable featherleg	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Drepanocleista quadrata	Singapore shadowdamsel	Not Assessed	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Gymcantha basiguttata	Spoon-tailed duskhawker	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Indothemis carnatica	White-tipped demon	Near Threatened	Critically Endangered	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Potolestes orientalis	Blue-spotted flatwing	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Odontate	No	Prasinocyme collaris	Collared threatfall	Least Concern	Vulnerable	Operation	Accidental injury or mortality	High	Low	Volant - low susceptibility	Low	Unlikely	Impact is not expected to happen during operation	Negligible			Low	Low	Unlikely	Negligible
Fauna	Bat	No	Chiropterus torquatus	Naked bulldog bat	Least Concern	Critically Endangered	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor			Medium	Medium	Less likely	Minor

> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species
> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)
> Design for dense landscaping along the boardwalks and trails to deter visitors from venturing off-trail

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for Likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact Intensity	Residual consequence	Residual likelihood	Residual impact significance	
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor		
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor		
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Biocoloured roundleaf bat	Least Concern	Endangered	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor		
Fauna	Bat	No	<i>Ptenochirus lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor

Fauna	Butterfly	No	Anomia blanka blanka	Silver royal	Not Assessed	Critically Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Arhopala amphimuta amphimuta	NA	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Arhopala antimuta antimuta	Small talless cabble	Not Assessed	Nationally Extinct	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Arhopala europhus maxwelli	Green cabble	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Arhopala sithethesis adrexa	Sylhet cabble	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Astictopterus jama jama	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	Yes	Borbo cinnara	Formosan swift	Not Assessed	Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Catopsilia malaya	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Catopsilia aenaria	Aenaria blue	Not Assessed	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Charaxes solon echo	Black rajah	Not Assessed	Critically Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Discophora sonada despolata	Common duffer	Not Assessed	Critically Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Gangara lidaea lidaea	Barred redeye	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Jamides alecto agelades	Metalic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Manis hypoleuca larana	Green imperial	Not Assessed	Nationally Extinct	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Nacaduba kurava nemana	Transparent silene blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Nacaduba paradoxa odore	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Nacaduba sanaya elicti	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Neptis hylas hylas	Chocolate salitr	Not Assessed	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Pachliopta aristophontes asteria	Common rose	Not Assessed	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Papilio preussae preussae	Blue Helen	Not Assessed	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Papilio agnia agnia	Bengal swift	Not Assessed	Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	Yes	Potanthus trachaeta tytleri	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Rachana jainiandra burtonia	Banded royal	Not Assessed	Critically Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Sutasuyu everetti everetti	White palm bob	Not Assessed	Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Tapeina thewesi thewesi	Dark flat	Not Assessed	Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Telicota celia attinga	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Troides helena cerberus	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Vagrans sinha sinha	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Butterfly	No	Zela stoeysi	Storey's palmer	Not Assessed	Critically Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor		Low	Low	Less likely	Minor	
Fauna	Non-marine snake	No	Bolitoglossa melanota	Gold-ringed cat snake	Least Concern	Vulnerable	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species > Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact Intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Non-marine snake	No	Gonyosoma oxycephalum	Red-tailed racer	Least Concern	Vulnerable	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor	
Fauna	Non-marine snake	No	Oligodon signatus	Banded krait snake	Least Concern	Endangered	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor	
Fauna	Non-marine snake	No	Ophiophagus hannah	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor	
Fauna	Non-marine snake	No	Ptyas fusca	White-bellied rat snake	Least Concern	Vulnerable	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor	
Fauna	Non-marine snake	No	Stenorrhina melanostethus	Black-headed colubrid snake	Least Concern	Vulnerable	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor	
Fauna	Non-marine turtle	No	Amyda cartilaginea	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Human disturbances	High	Medium	Species that are possibly sensitive to human presence	Medium	Unlikely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Medium	Medium	Unlikely	Minor	
Fauna	Non-marine turtle	No	Coosa amboinensis	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Human disturbances	High	Low	Species slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Low	Low	Less likely	Minor	
Fauna	Non-volant mammal	Yes	Galeopterus variegatus	Sunda colugo	Least Concern	Near Threatened	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Low	Low	Less likely	Minor	
Fauna	Non-volant mammal	Yes	Iomyz horsfieldii	Horsfield's flying squirrel	Least Concern	Endangered	Operation	Human disturbances	High	High	Species that are extremely sensitive to human presence	High	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	High	High	Less likely	Minor	
Fauna	Non-volant mammal	Yes	Lutreola perspicillata	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor	
Fauna	Non-volant mammal	Yes	Macaca fascicularis	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Low	Low	Less likely	Minor	
Fauna	Non-volant mammal	No	Manis javanica	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Operation	Human disturbances	High	Medium	Species that are sensitive to human presence	Medium	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitation has affected fauna species >> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	High	Less likely	Minor	
Fauna	Non-volant mammal	No	Prionailurus bengalensis	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Operation	Human disturbances	High	High	Species that are extremely sensitive to human presence	High	Less Likely	Human traffic confined within built-up areas and trails/boardwalks	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) >> Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	High	High	Less likely	Minor	
Fauna	Odonate	No	Acropomphus malayanus	Malayan hawktail	Near Threatened	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Amphionemis gracilis	Will-o-wisp	Not Assessed	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Chalybeothemis fluvialis	Green-eyed perchler	Not Assessed	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Copera vittata	Variable featherlegs	Least Concern	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Drapetisca quadriplagiata	Singapore shadowdamsel	Not Assessed	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Gynacantha basiguttata	Spoon-tailed dushkawler	Least Concern	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Indothemis carnatica	White-tipped demon	Near Threatened	Critically Endangered	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Podolestes orientalis	Blue-spotted flatwing	Least Concern	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	
Fauna	Odonate	No	Prasinagrion coeruleoguttatum	Collared threadtail	Least Concern	Vulnerable	Operation	Human disturbances	High	Low	Species that are slightly sensitive to human presence	Low	Less Likely	Tolerant of human presence	Minor	> Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings)	Low	Low	Less likely	Minor	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bat	No	<i>Cheiromeles torquatus</i>	Naked buldog bat	Least Concern	Critically Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Biocoloured roundleaf bat	Least Concern	Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bat	No	<i>Pteronotus lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bat	No	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bat	No	<i>Tylonycteris fulviva</i>	Lesser bamboo bat	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bat	No	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public; less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Bee	No	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Anthidium smithi</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Ceratina fulgurosa</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Ceratina ridleyi</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Lasiglossum seminassatum</i>	NA	Not Assessed	Critically Endangered	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Lipotriches takauensis</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Megachile indonesica</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Megachile ornata</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Normada malayana</i>	NA	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Normia apicalis</i>	NA	Not Assessed	Critically Endangered	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bee	No	<i>Pastellapis intricata</i>	NA	Not Assessed	Critically Endangered	Operation	Human-wildlife conflict	High	Medium	Possibly perceived as threat; highly tolerant of human presence	Medium	Less Likely	Acuteata - possibly implicated in human-wildlife conflict	Minor	> Put up signage to educate visitors on appropriate behaviours when encountering bees	Medium	Medium	Less likely	Minor	
Fauna	Bird	No	<i>Alcedo meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Brachyptodius melanoccephalus</i>	Black-headed bulbul	Least Concern	Critically Endangered	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Chrysococcyx xanthostethus</i>	Violet cuckoo	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plum-toed swiftlet	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	Yes	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Cyanis brunneata</i>	Brown-cheasted jungle flycatcher	Vulnerable	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Dendrocitta javanica</i>	Lesser whistling duck	Least Concern	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible

Fauna	Bird	No	Dicaeum chrysostigma	Yellow-winged flowerpecker	Least Concern	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Helycogramma compta	Ruddy kingfisher	Least Concern	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Ictyophaga ichthyaetus	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Heliosciurus personatus	Masked finfoot	Endangered	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Ketupa ketupu	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Lanius cristatus	Brown shrike	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Nettapus coromandelianus	Cotton pygmy goose	Least Concern	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Nisaetus cirrhatus	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Nycticorax nycticorax	Black-crowned night heron	Least Concern	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Pattacula longicauda	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Patagioenas cyanoptera	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not likely to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Pycnonotus brunneus	Asian red-eyed bulbul	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Pycnonotus simplex	Cream-vented bulbul	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Pycnonotus zeylanicus	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix II)	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Spilornis cheela	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Strix selaputo	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Surniculus lugubris	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Tachybaptus ruficollis	Little grebe	Least Concern	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	No	Teron curvirostra	Thick-billed green pigeon	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Bird	Yes	Zosterops simplex	Swinhoe's white-eye	Least Concern	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Butterfly	No	Anomia blanca blanca	Silver royal	Not Assessed	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Archolaeschna amphimuta	Amphimuta	NA	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Archolaeschna amputata	Small tailless oakblue	Not Assessed	Nationally Extinct	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Antopha euploea maxwelli	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Antopha sithene adreana	Syhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Asiotropaea jama jama	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	Yes	Borbo cinnara	Formosan swift	Not Assessed	Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Calotris malaya	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Catopyrops aenigma	Aenigma blue	Not Assessed	Vulnerable	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Charaxes solon echo	Black rajah	Not Assessed	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Discophora sondaica despolata	Common dutter	Not Assessed	Critically Endangered	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Gangara labadea labadea	Banded reideye	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Jamides electo ageladus	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Manto hypoleuca kerana	Green imperial	Not Assessed	Nationally Extinct	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Nacaduba kurava nemana	Transparent siene blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-Wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Butterfly	No	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Nacaduba sanaya elioti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Neptis hylas harita</i>	Chocolate sailor	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Pachliopta aristochiae asteris</i>	Common rose	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Peltopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	Yes	<i>Potanthus trachaës tyleri</i>	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Rachana jainidra burtona</i>	Banded royal	Not Assessed	Critically Endangered	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Sasakia everya everyx</i>	White palm bob	Not Assessed	Endangered	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Tapena thwaitesi bomsea</i>	Dark flat	Not Assessed	Endangered	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Telicota colon atsinga</i>	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Triclema helena cerberus</i>	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Vagrans sinha sinha</i>	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Butterfly	No	<i>Zela stoeysi</i>	Storey's palmer	Not Assessed	Critically Endangered	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by construction personnel	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible	Low	Low	Unlikely	Negligible		
Fauna	Non-marine snake	No	<i>Boliga melanota</i>	Gold-ringed cat snake	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	High	Species that are typically perceived as both nuisances and threats by public; may deliver venomous bite if provoked	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict	Minor	> Put up signs to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor	
Fauna	Non-marine snake	No	<i>Gonyosoma oxycephalum</i>	Red-tailed racer	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	High	Species that are typically perceived as both nuisances and threats by public; may deliver venomous bite if provoked	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict	Minor	> Put up signs to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor	
Fauna	Non-marine snake	No	<i>Oligodon signatus</i>	Banded kulei snake	Least Concern	Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public, less tolerant of human presence and urban environments	Low	Less Likely	Species less tolerant of human	Minor		Low	Low	Less likely	Minor	
Fauna	Non-marine snake	No	<i>Ophiophagus hannah</i>	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Human-wildlife conflict	High	High	Species that are typically perceived as both nuisances and threats by public; less tolerant of human presence and urban environments	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict	Minor	> Put up signs to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor	
Fauna	Non-marine snake	No	<i>Ptyas fusca</i>	White-bellied rat snake	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public, less tolerant of human presence and urban environments	Low	Less Likely	Species less tolerant of human	Minor		Low	Low	Less likely	Minor	
Fauna	Non-marine snake	No	<i>Shynophis melanopeltatus</i>	Black-headed collared snake	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	High	Species that are typically perceived as both nuisances and threats by public; may deliver venomous bite if provoked	High	Less Likely	Reptile - possibly implicated in human-wildlife conflict	Minor	> Put up signs to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor	
Fauna	Non-marine turtle	No	<i>Amyda cartilaginea</i>	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-marine turtle	No	<i>Cuora amboinensis</i>	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Non-volant mammal	Yes	<i>Galeopterus variegatus</i>	Sunda colugo	Least Concern	Near Threatened	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Less Likely	Impact is not likely to happen during operation	Negligible		Negligible	Very Low	Less likely	Negligible	
Fauna	Non-volant mammal	Yes	<i>Iomyz horsfieldii</i>	Horsfield's flying squirrel	Least Concern	Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public, less tolerant of human presence and urban environments	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	
Fauna	Non-volant mammal	Yes	<i>Lutreola perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix II)	Endangered	Operation	Human-wildlife conflict	High	Medium	Species that are typically perceived as both nuisances and possibly as threats by members of the public, highly tolerant of human presence and urban environments, and are frequently implicated in human-wildlife conflict	Medium	Less Likely	Mammal - possibly implicated in human-wildlife conflict	Minor	> Put up signs to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	Medium	Medium	Less likely	Minor	
Fauna	Non-volant mammal	Yes	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Operation	Human-wildlife conflict	High	High	Species that are typically perceived as both nuisances and threats by members of the public, highly tolerant of human presence and urban environments, and are frequently implicated in human-wildlife conflict	High	Less Likely	Mammal - possibly implicated in human-wildlife conflict	Minor	> Put up signs to educate visitors on appropriate behaviours when encountering fauna > Design bins to be wildlife-proof	High	High	Less likely	Minor	
Fauna	Non-volant mammal	No	<i>Meris javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public, less tolerant of human presence and urban environments	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less likely	Minor	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Non-volant mammal	No	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Operation	Human-wildlife conflict	High	Low	Species that are possibly perceived as both nuisances and threats by members of the public, less tolerant of human presence and urban environments.	Low	Less Likely	Impact is not likely to happen during operation	Minor		Low	Low	Less Likely	Minor	
Fauna	Odonate	No	<i>Acropomphus malayanus</i>	Malayan hocktail	Near Threatened	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Amphionemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Chalybeothemis fluvialis</i>	Green-eyed perchet	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Copera vittata</i>	Variable featherlegs	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Dysoxystola quadrata</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Gynacantha basiguttata</i>	Spoon-tailed dushawker	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Indothemis carnatica</i>	White-tipped demon	Near Threatened	Critically Endangered	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Podolestes orientalis</i>	Blue-spotted fishing	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Odonate	No	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	Operation	Human-wildlife conflict	High	Negligible	Species that are not perceived as nuisances or threats by members of the public	Very Low	Unlikely	Impact is not expected to happen during operation	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bat	No	<i>Chiroderma torquatum</i>	Naked bulldog bat	Least Concern	Critically Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bat	Yes	<i>Eonycteris spilacea</i>	Cave nectar bat	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Biocoloured roundleaf bat	Least Concern	Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	<i>Penthetor lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	<i>Tylonycteris fulviva</i>	Lesser bamboo bat	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels nocturnal crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bee	No	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Anthidium smithii</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Ceratinia fulginea</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Ceratinia ridleyi</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>LasioGLOSSUM seminassatum</i>	NA	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Lipotriches takaunensis</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Megachile indonesica</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Megachile omata</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Normada malayana</i>	NA	Not Assessed	Vulnerable	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bee	No	<i>Normida apicalis</i>	NA	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Negligible	Very Low	Unlikely	Negligible	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bee	No	<i>Patellapis intricata</i>	NA	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Negligible	Species that are not sensitive to changes in light levels	Very Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Alocoo melanotis</i>	Blue-eared kingfisher	Least Concern	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Brachypodium melanoccephalum</i>	Black-headed bulbul	Least Concern	Critically Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	High	High	Unlikely	Minor		
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plume-toed swiftlet	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	Yes	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Dendrocygna javanica</i>	Lesser whistling duck	Least Concern	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Dicaeum chrysostigma</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Haloxylo comandensis</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	High	High	Unlikely	Minor		
Fauna	Bird	Yes	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Heliosciurus personatus</i>	Masked finfoot	Endangered	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Ketupa ketupu</i>	Buffy owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	High	High	Unlikely	Minor		
Fauna	Bird	Yes	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	High	High	Unlikely	Minor		
Fauna	Bird	Yes	<i>Ptilotula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	No	<i>Ptilinopus cyanocephalus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	High	High	Unlikely	Minor		
Fauna	Bird	No	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	Yes	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix II)	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor	Medium	Medium	Unlikely	Minor		

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact Intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bird	No	<i>Splonis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Strix selaputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Surniculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Treron curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Butterfly	No	<i>Anorma blanka blanka</i>	Silver royal	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Arhopala amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Arhopala amimuta amimuta</i>	Small talless oakblue	Not Assessed	Nationally Extinct	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Arhopala eumolpus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Arhopala altheensis adreza</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Astatopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	Yes	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Calotropis malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Catopyrops aenicta</i>	Aenicta blue	Not Assessed	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Discophora sondaica despotata</i>	Common duffer	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Gangara lebedea lebedea</i>	Banded ideye	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Jamides alecto aglaodes</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Manto hypoleuca terana</i>	Green imperial	Not Assessed	Nationally Extinct	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Nacaduba kurava nemana</i>	Transparent sylvie blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Nacaduba pactolus odon</i>	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Nacaduba sanaya oloti</i>	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Neptis harita harita</i>	Chocolate salibr	Not Assessed	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Pachliopta aristophane asteris</i>	Common rose	Not Assessed	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Papilio prexaspes prexaspes</i>	Blue helen	Not Assessed	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Pelopidas agna agna</i>	Bengal swift	Not Assessed	Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Butterfly	Yes	Potanthus trachala tytleri	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Rachana jainitor burbona	Banded royal	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Suaestes eversy eversy	White palm bob	Not Assessed	Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Tapena thwaitesi bornea	Dark flat	Not Assessed	Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Telicola colon stigma	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Troides helena cerberus	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Vagrans sinha sinha	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	Zela storeyi	Storey's palmer	Not Assessed	Critically Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Non-marine snake	No	Bolitoglossa melanota	Gold-ringed cat snake	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	Gonyosoma oxycephalum	Red-tailed racer	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Non-marine snake	No	Oligodon signatus	Banded kulei snake	Least Concern	Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	Ophiophagus hannah	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Non-marine snake	No	Ptyas fusca	White-bellied rat snake	Least Concern	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-marine snake	No	Stenorrhina melanostephana	Black-headed collared snake	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Non-marine turtle	No	Amyda cartilaginea	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-marine turtle	No	Cuora amboinensis	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels: nocturnal, crepuscular fauna	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-volant mammal	Yes	Galeopterus variegatus	Sunda colugo	Least Concern	Near Threatened	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-volant mammal	Yes	Iomyz horsfieldii	Horsfield's flying squirrel	Least Concern	Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-volant mammal	Yes	Lutrogale perspicillata	Smooth otter	Vulnerable; CITES protected (Appendix I)	Endangered	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Non-volant mammal	Yes	Macaca fascicularis	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Non-volant mammal	No	Meris javanica	Sunda pangolin	Critically Endangered; CITES protected (Appendix II)	Critically Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Non-volant mammal	No	Prionailurus bengalensis	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Operation	Light disturbances	High	High	Species that are extremely sensitive to changes in light levels	High	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		High	High	Unlikely	Minor	
Fauna	Odonate	No	Acromorphus malayanus	Malayan hawktail	Near Threatened	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Minor		Low	Low	Unlikely	Negligible	
Fauna	Odonate	No	Amphicnemis gracilis	Will-o-wisp	Not Assessed	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Odonate	No	Chalybeothemis fluviatilis	Green-eyed perchler	Not Assessed	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Odonate	No	Copera vittata	Variable featherleg	Least Concern	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Odonate	No	Drepanosticta quadriplagiata	Singapore shadowdamsel	Not Assessed	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently II (i.e., worse off from baseline).	Negligible		Low	Low	Unlikely	Negligible	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Odontate	No	Gymnacantha basiguttata	Spoon-tailed duskhawker	Least Concern	Vulnerable	Operation	Light disturbances	High	Medium	Species that are sensitive to changes in light levels	Medium	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Odontate	No	Indothamnus carinatus	White-tipped demon	Near Threatened	Critically Endangered	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Odontate	No	Podolestes orientalis	Blue-spotted fowleri	Least Concern	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Odontate	No	Prodasineura collaris	Collared threadtail	Least Concern	Vulnerable	Operation	Light disturbances	High	Low	Species that are slightly sensitive to changes in light levels	Low	Unlikely	Lighting will only be provided at Main Entrance, which is currently off baseline.	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bat	No	Chiroderma torquatum	Naked bulldog bat	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	Emballonura monticola	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bat	Yes	Eonycteris spelaea	Cave neart bat	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bat	No	Hipposideros bicolor	Blotched roundleaf bat	Least Concern	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	Pteronotus lucasi	Dusky fruit bat	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	Pteropus vampyrus	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bat	No	Tylonycteris fulviva	Lesser bamboo bat	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bat	No	Tylocypterus malayana	Greater bamboo bat	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bee	No	Amegilla insularis	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats or dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Anthidium smithii	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Ceratina fulginea	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Ceratina ridleyi	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Lasiglossum seminassum	NA	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Lipotriches takauensis	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Megachile indonesica	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Megachile ornata	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Megachile ramera	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Nomada malayana	NA	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Nomia apicalis	NA	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bee	No	Patellapis intricata	NA	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	Aloofo meninting	Blue-eared kingfisher	Least Concern	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	Ardea purpurea	Purple heron	Least Concern	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	Brachypodium melanocaphos	Black-headed bulbul	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	Chloropsis cyanopogon	Lesser green leafbird	Near Threatened	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	Chloropsis sonnerat	Greater green leafbird	Endangered	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	Chrysococcyx xanthorhynchos	Violet cuckoo	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	Collocalia affinis	Plumbeous swiftlet	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	Copcytus malabaricus	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	Copcytus saularis	Oriental magpie-robin	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CTES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal and able to traverse urban infrastructure	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Dendrocitta javanica</i>	Lesser whistling duck	Least Concern	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Dicaeum chrysostigma</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Ichthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Heliopsalis personata</i>	Masked finfoot	Endangered	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Nettapus coronaedulus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	Yes	<i>Paticula longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Pitheciorus cyanurus</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix II)	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Splonius cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	No	<i>Strix selaputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Bird	Yes	<i>Surniculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	No	<i>Tachybaptus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Bird	No	<i>Teron curvirostra</i>	Thick-billed green pidgeon	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Anconia blanca blanca</i>	Silver royal	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Butterfly	No	<i>Aralia amphidita amphiditus</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Butterfly	No	<i>Aralia amputata amputata</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Aralia eurotophus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Aralia athletensis atrea</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Astictopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Butterfly	Yes	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible		Negligible	Very Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Calotropis malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor		Medium	Medium	Unlikely	Minor	
Fauna	Butterfly	No	<i>Catopyrops aenigma</i>	Aenigma blue	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Discophora sonorensis despoliata</i>	Common duffer	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Gangara lebadea lebadea</i>	Banded redeye	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	
Fauna	Butterfly	No	<i>Jamides alecto agelades</i>	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible		Low	Low	Unlikely	Negligible	
Fauna	Butterfly	No	<i>Manto hypoleuca terrena</i>	Green imperial	Not Assessed	Nationally Extinct	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Hightly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor		High	High	Unlikely	Minor	

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact intensity	Residual consequence	Residual likelihood	Residual impact significance			
Fauna	Butterfly	No	Nacaduba kurava nemana	Transparent sylvine blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible				
Fauna	Butterfly	No	Nacaduba partita odon	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Butterfly	No	Nacaduba sanaya elioti	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Butterfly	No	Neptis hylas hylas	Chocolate salitr	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Butterfly	No	Pachliopta aristochrea asteris	Common rose	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible				
Fauna	Butterfly	No	Papilio prexaspes prexaspes	Blue helen	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Butterfly	No	Peloides agna agna	Bengal swift	Not Assessed	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Butterfly	Yes	Potanthus trachaetus tytleri	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Butterfly	No	Rachana jalindra burtona	Banded royal	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely		
Fauna	Butterfly	No	Saururus erythroxylon	White palm bob	Not Assessed	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Butterfly	No	Tapena thessalus bornea	Dark flat	Not Assessed	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Butterfly	No	Talicota colon stigia	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Butterfly	No	Troides helena cerberus	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Butterfly	No	Vagrans sinha sinha	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Butterfly	No	Zeta storeyi	Storey's palmer	Not Assessed	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-marine snake	No	Bolitoglossa melanota	Gold-ringed cat snake	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-marine snake	No	Gonyosoma oxycephalum	Red-tailed racer	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-marine snake	No	Oligodon signatus	Banded kulei snake	Least Concern	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-marine snake	No	Ophophagus hannah	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely		
Fauna	Non-marine snake	No	Phryas fusca	White-bellied rat snake	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-marine snake	No	Sibynophis melanopeplus	Black-headed collared snake	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-marine turtle	No	Amyda cartilaginea	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	No change to waterbody	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Non-marine turtle	No	Cuora amboinensis	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	No change to waterbody	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	High	High	Unlikely	Minor	High	High	Unlikely
Fauna	Non-volant mammal	Yes	Galeoleptos variegatus	Sunda colugo	Least Concern	Near Threatened	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-volant mammal	Yes	Iomyx horsfieldii	Horsfield's flying squirrel	Least Concern	Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Non-volant mammal	Yes	Lutrogale perspicillata	Smooth otter	Vulnerable; CITES protected (Appendix I)	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Non-volant mammal	Yes	Macaca fascicularis	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Negligible	Not dependent on connected habitats for dispersal and able to traverse urban infrastructure	Very Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely	
Fauna	Non-volant mammal	No	Manis javanica	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Medium	Dependent on connected habitats for dispersal	Medium	Unlikely	No major new buildings	Minor	Medium	Medium	Unlikely	Minor	Medium	Medium	Unlikely		
Fauna	Non-volant mammal	No	Prionailurus bengalensis	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Odontate	No	Acropomops malayanus	Malayan hoolock	Near Threatened	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Odontate	No	Amphonicus gracilis	Who-o-wisp	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Odontate	No	Chalybeothemis fluviatilis	Green-eyed perchler	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and able to traverse urban infrastructure if needed	Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible			
Fauna	Odontate	No	Copera vittata	Variable featherleg	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Odontate	No	Drepanosticta quadriplagiata	Singapore shadowdamsel	Not Assessed	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Odontate	No	Gymcantha basiguttata	Spoon-tailed dushawker	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Odontate	No	Indothemis carnatica	White-tipped demon	Near Threatened	Critically Endangered	Operation	Loss of reduction in ecological connectivity for faunal movement	High	Low	Slightly dependent on connected habitats for dispersal and adaptable to urban infrastructures if needed	Low	Unlikely	No major new buildings	Negligible	Negligible	Negligible	Low	Low	Unlikely	Negligible			
Fauna	Odontate	No	Podolestes orientalis	Blue-spotted fishing	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Odontate	No	Prasinohaema collaris	Collared threadtail	Least Concern	Vulnerable	Operation	Loss of reduction in ecological connectivity for faunal movement	High	High	Highly dependent on connected habitats for dispersal	High	Unlikely	No major new buildings	Minor	High	High	Unlikely	Minor	High	High	Unlikely		
Fauna	Bat	No	Chiroderma torquatum	Naked bulldog bat	Least Concern	Critically Endangered	Poaching	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible	Negligible	Negligible	Very Low	Unlikely	Negligible	High	High	Unlikely

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Bat	No	<i>Emballonura monticola</i>	Lesser sheath-tailed bat	Least Concern	Critically Endangered	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bat	Yes	<i>Eonycteris spelaea</i>	Cave nectar bat	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bat	No	<i>Hipposideros bicolor</i>	Biicoloured roundleaf bat	Least Concern	Endangered	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bat	No	<i>Penthetor lucasi</i>	Dusky fruit bat	Least Concern	Critically Endangered	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bat	No	<i>Pteropus vampyrus</i>	Large flying-fox	Near Threatened; CITES protected (Appendix II)	Critically Endangered	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bat	No	<i>Tylonycteris fulviventer</i>	Lesser bamboo bat	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bat	No	<i>Tylonycteris malyana</i>	Greater bamboo bat	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Amegilla insularis</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Anthidium smithii</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Ceratina fuliginea</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Ceratina idyia</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Lasiosigillina semirussatum</i>	NA	Not Assessed	Critically Endangered	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Lipotriches takuensis</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Megachile indonesica</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Megachile ornata</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Megachile ramera</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Normada malayana</i>	NA	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Normia apicalis</i>	NA	Not Assessed	Critically Endangered	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bee	No	<i>Patellapis intricata</i>	NA	Not Assessed	Critically Endangered	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bird	No	<i>Aloeta meninting</i>	Blue-eared kingfisher	Least Concern	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Ardea purpurea</i>	Purple heron	Least Concern	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Brachypodium melanoccephalum</i>	Black-headed bulbul	Least Concern	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Chloropsis cyanopogon</i>	Lesser green leafbird	Near Threatened	Critically Endangered	Operation	Poaching	High	Medium	Species that are possibly susceptible to poaching; commonly traded as pets	Medium	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		Medium	Medium	Less likely	Minor
Fauna	Bird	No	<i>Chloropsis sonneratii</i>	Greater green leafbird	Endangered	Critically Endangered	Operation	Poaching	High	Medium	Species that are possibly susceptible to poaching; commonly traded as pets	Medium	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		Medium	Medium	Less likely	Minor
Fauna	Bird	No	<i>Chrysococcyx xanthorhynchos</i>	Violet cuckoo	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	Yes	<i>Collocalia affinis</i>	Plum-tailed swiftlet	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Bird	No	<i>Copsychus malabaricus</i>	White-rumped shama	Least Concern; CITES protected (Appendix II)	Endangered	Operation	Poaching	High	Medium	Species that are possibly susceptible to poaching; commonly traded as pets	Medium	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		Medium	Medium	Less likely	Minor
Fauna	Bird	Yes	<i>Copsychus saularis</i>	Oriental magpie-robin	Least Concern	Vulnerable	Operation	Poaching	High	Medium	Species that are possibly susceptible to poaching; commonly traded as pets	Medium	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		Medium	Medium	Less likely	Minor
Fauna	Bird	Yes	<i>Corvus macrorhynchos</i>	Large-billed crow	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Cyornis brunneatus</i>	Brown-chested jungle flycatcher	Vulnerable	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Dendrocitta javanica</i>	Lesser whistling duck	Least Concern	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Dicaeum chrysorrheum</i>	Yellow-vented flowerpecker	Least Concern	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Halcyon coromanda</i>	Ruddy kingfisher	Least Concern	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	Yes	<i>Icthyophaga ichthyaetus</i>	Grey-headed fish eagle	Near Threatened; CITES protected (Appendix II)	Vulnerable	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	No	<i>Helopsalis personatus</i>	Masked finfoot	Endangered	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact Intensity (I)	Rationale for Impact Intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual Impact Intensity	Residual consequence	Residual likelihood	Residual Impact significance
Fauna	Bird	No	<i>Ketupa ketupu</i>	Buffy fish owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	Yes	<i>Lanius cristatus</i>	Brown shrike	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Nettapus coromandelianus</i>	Cotton pygmy goose	Least Concern	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	Yes	<i>Nisaetus cirrhatus</i>	Changeable hawk-eagle	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	No	<i>Nycticorax nycticorax</i>	Black-crowned night heron	Least Concern	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	Yes	<i>Patagioenas longicauda</i>	Long-tailed parakeet	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	No	<i>Patagioenas cyanocephala</i>	Blue-rumped parrot	Near Threatened; CITES protected (Appendix II)	Endangered	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	No	<i>Pycnonotus brunneus</i>	Asian red-eyed bulbul	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	Yes	<i>Pycnonotus simplex</i>	Cream-vented bulbul	Least Concern	Vulnerable	Operation	Poaching	High	Medium	Species that are possibly susceptible to poaching; commonly traded as pets	Medium	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		Medium	Medium	Less likely	Minor
Fauna	Bird	Yes	<i>Pycnonotus zeylanicus</i>	Straw-headed bulbul	Critically Endangered; CITES protected (Appendix I)	Endangered	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	No	<i>Spilornis cheela</i>	Crested serpent eagle	Least Concern; CITES protected (Appendix II)	Critically Endangered	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	No	<i>Strix selaputo</i>	Spotted wood owl	Least Concern; CITES protected (Appendix II)	Vulnerable	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Bird	Yes	<i>Sumiculus lugubris</i>	Square-tailed drongo-cuckoo	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Tachyphonus ruficollis</i>	Little grebe	Least Concern	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	No	<i>Treron curvirostra</i>	Thick-billed green pigeon	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Bird	Yes	<i>Zosterops simplex</i>	Swinhoe's white-eye	Least Concern	Vulnerable	Operation	Poaching	High	Medium	Species that are possibly susceptible to poaching; commonly traded as pets	Medium	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		Medium	Medium	Less likely	Minor
Fauna	Butterfly	No	<i>Anemone blanka blanka</i>	Silver royal	Not Assessed	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Anthopalia amphimuta amphimuta</i>	NA	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Anthopalia amictina amictina</i>	Small tailless oakblue	Not Assessed	Nationally Extinct	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Ariopelta euphorbus maxwelli</i>	Green oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Ariopelta sphenoptera adriana</i>	Sylhet oakblue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Asticopterus jama jama</i>	Forest hopper	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	Yes	<i>Borbo cinnara</i>	Formosan swift	Not Assessed	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Calotropis malaya</i>	Malayan swift	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Catopyrops aenigma</i>	Aenigma blue	Not Assessed	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Charaxes solon echo</i>	Black rajah	Not Assessed	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	<i>Discophora sonorensis despoliata</i>	Common dutter	Not Assessed	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible

Fauna	Butterfly	No	Gangara labacea labacea	Banded ideye	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Jamides alecto aglaodes	Metallic caerulean	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Merops hypoleucus larana	Green imperial	Not Assessed	Nationally Extinct	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Nacaduba kurava nemana	Transparent sylvie blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Nacaduba pactolus odon	Large fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Nacaduba sanaya elioti	Jewel fourline blue	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Neptis hylas hylas	Chocolate salitr	Not Assessed	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Pachliopta aristochiae asteris	Common rose	Not Assessed	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Papilio prexaspes prexaspes	Blue helen	Not Assessed	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Peloides agna agna	Bengal swift	Not Assessed	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	Yes	Potanthus trachala tytleri	Detached dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Rachana jalindra burbona	Banded royal	Not Assessed	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Sasakia eyvix eyvix	White palm bob	Not Assessed	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Tropida trivialis bona	Dark flat	Not Assessed	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Talicoda colon stigma	Common palm dart	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Troides helena cerberus	Common birdwing	Not Assessed; CITES protected (Appendix II)	Vulnerable	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Butterfly	No	Vagrans sinha sinha	Vagrant	Not Assessed	Nationally Extinct (Rediscovered)	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Butterfly	No	Zela storeyi	Storey's palmer	Not Assessed	Critically Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Non-marine snake	No	Bolitoglossa melanota	Gold-ringed cat snake	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Non-marine snake	No	Gonyosoma oiocephalum	Red-tailed racer	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Non-marine snake	No	Oligodon signatus	Banded kulei snake	Least Concern	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Non-marine snake	No	Ophryphagus hanrahan	King cobra	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Non-marine snake	No	Pyas fuscus	White-bellied rat snake	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Non-marine snake	No	Sibynophis melanopeplus	Black-headed collared snake	Least Concern	Vulnerable	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible
Fauna	Non-marine turtle	No	Amyda cartaginæa	Asian softshell turtle	Vulnerable; CITES protected (Appendix II)	Vulnerable	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix II	High	Less Likely	Species spends most time in stream, which is far away from trails	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Non-marine turtle	No	Cuora amboinensis	Malayan box terrapin	Vulnerable; CITES protected (Appendix II)	Near Threatened	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix II	High	Less Likely	Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act	Minor		High	High	Less likely	Minor
Fauna	Non-volant mammal	Yes	Galeopterus variegatus	Sunda colugo	Least Concern	Near Threatened	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Negligible	Very Low	Unlikely	Negligible
Fauna	Non-volant mammal	Yes	Iomyz horsfieldii	Horsfield's flying squirrel	Least Concern	Endangered	Operation	Poaching	High	Low	Species with low susceptibility to poaching; not commonly known to be traded as pets	Low	Unlikely	Not likely to be poached	Wildlife Act	Negligible		Low	Low	Unlikely	Negligible

Appendix 11 - Impact Assessment on Fauna at D

Receptor Type	Type	Recorded	Receptor (Scientific Name)	Receptor (Common Name)	Global Status (IUCN/CITES)	National Status	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Fauna	Non-volant mammal	Yes	<i>Lutreola perspicillata</i>	Smooth otter	Vulnerable; CITES protected (Appendix II)	Endangered	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Wildlife Act Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act Minor	High	High	Less likely	Minor		
Fauna	Non-volant mammal	Yes	<i>Macaca fascicularis</i>	Long-tailed macaque	Vulnerable; CITES protected (Appendix II)	Least Concern	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Wildlife Act Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act Minor	High	High	Less likely	Minor		
Fauna	Non-volant mammal	No	<i>Manis javanica</i>	Sunda pangolin	Critically Endangered; CITES protected (Appendix I)	Critically Endangered	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Wildlife Act Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act Minor	High	High	Less likely	Minor		
Fauna	Non-volant mammal	No	<i>Prionailurus bengalensis</i>	Leopard cat	Least Concern; CITES protected (Appendix I)	Critically Endangered	Operation	Poaching	High	High	Species that are highly susceptible to poaching; listed on CITES Appendix I or II	High	Less Likely	Wildlife Act Currently already accessible to public; Singapore's zero-tolerance stance to illegal wildlife trade	Wildlife Act Minor	High	High	Less likely	Minor		
Fauna	Odonate	No	<i>Acromyrmex malayanus</i>	Malayan hooktail	Near Threatened	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Amphicnemis gracilis</i>	Will-o-wisp	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Chalybeothemis fluviatilis</i>	Green-eyed perchet	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Copera vitata</i>	Variable featherleg	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Drepanosticta quadriplaga</i>	Singapore shadowdamsel	Not Assessed	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Gynacantha basiguttata</i>	Spoon-tailed duskhawket	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Indothemis carnatica</i>	White-tipped demon	Near Threatened	Critically Endangered	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Podolestes orientalis</i>	Blue-spotted flanwing	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible		
Fauna	Odonate	No	<i>Prodasineura collaris</i>	Collared threadtail	Least Concern	Vulnerable	Operation	Poaching	High	Negligible	Species with negligible susceptibility to poaching	Very Low	Unlikely	Not likely to be poached	Wildlife Act Negligible	Negligible	Very Low	Unlikely	Negligible

**APPENDIX 13
IMPACT ASSESSMENT ON PLANTS AT BBHNP (AREA E)**

Receptor Type	Type	Species	Phase	Impact type	Sensitivity (S)	Impact intensity (I)	Rationale for impact intensity	Consequence (C = S x I)	Likelihood (L)	Rationale for likelihood	Key minimum controls	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance
Flora	Indirect	<i>Lomariopsis lineata</i>	Construction	Decline in plant health	High	High	1 specimen (only sole specimen in Study Area) affected indirectly by development of entrance and hydrology changes to stream	High	Likely	This species will likely be affected by the hydrological changes of the stream	NIL	Major	> Design for and implement dense landscaping and infill planting at areas that are cleared, at existing gaps in forested areas, and along the sides of the proposed trails and boardwalks to buffer the surrounding forested areas from changes in microclimatic conditions >> conduct regular inspections to ensure contractor compliance with the EMMP > Adjust design footprint to ensure Priority 1 plant species are not within the impact zones > Adjust the construction footprint of boardwalks and trails to avoid Priority 1 plant species, in consultation with a Flora Specialist	Negligible	Very Low	Unlikely	Negligible
Flora	Indirect	<i>Bambusa vulgaris</i>	Construction	Decline in plant health	High	Low	5/14 specimen affected indirectly by development of trails and southern entrance/pond area	Low	Possible	Formation of some forest edges in a mix of forested and scrubland, areas; plant specimens previously in forested areas now exposed to some edge habitats	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Breynia discigera</i>	Construction	Decline in plant health	High	Low	2/5 specimens affected indirectly by the development of trails	Low	Possible	Formation of some forest edges in a mix of forested and scrubland, areas; plant specimens previously in forested areas now exposed to some edge habitats	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Bridelia stipularis</i>	Construction	Decline in plant health	High	Low	7/16 specimens affected indirectly by development of trails	Low	Possible	Formation of some forest edges in a mix of forested, scrubland, and urban vegetation areas; plant specimens previously in forested areas now exposed to some edge habitats	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Camposperma auriculatum</i>	Construction	Decline in plant health	High	Medium	1/2 specimen will be indirectly affected by the development of secondary entrance at the north	Medium	Unlikely	No formation of forest edges (i.e., construction activities will be at existing GFRC trail which is already non-forested)	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Clerodendrum villosum</i>	Construction	Decline in plant health	High	High	All remaining specimens indirectly affected by the construction of arrival node and proposed wetland	High	Less likely	Formation of some forest edges in a mix of forested and scrubland area ; plant specimens previously in forested areas now exposed to some edge habitats	Implement soil erosion control measures	Minor	> Design for and implement dense landscaping and infill planting at areas that are cleared, at existing gaps in forested areas, and along the sides of the proposed trails and boardwalks to buffer the surrounding forested areas from changes in microclimatic conditions >> conduct regular inspections to ensure contractor compliance with the EMMP > Adjust design footprint to ensure Priority 1 plant species are not within the impact zones > Adjust the construction footprint of boardwalks and trails to avoid Priority 1 plant species, in consultation with a Flora Specialist	No change	No change	No change	Minor
Flora	Indirect	<i>Cyrtococcum patens</i>	Construction	Decline in plant health	High	High	All specimens indirectly affected by the primary entrance and pond construction	High	Unlikely	No formation of forest edges. Plant specimens remain in their original forested habitats	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Ficus apiocarpa</i>	Construction	Decline in plant health	High	Low	10/44 specimens affected by proposed trails	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area ; plant specimens previously in forested areas now exposed to some edge habitats	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Glochidion zeylanicum var. zeylanicum</i>	Construction	Decline in plant health	High	High	6/7 specimens affected indirectly by construction of main entrance	High	Less likely	Formation of some forest edges in a mix of forested and scrubland area ; plant specimens in forested area are already acclimatised to edge habitats..	Implement soil erosion control measures	Minor	> Design for and implement dense landscaping and infill planting at areas that are cleared, at existing gaps in forested areas, and along the sides of the proposed trails and boardwalks to buffer the surrounding forested areas from changes in microclimatic conditions >> conduct regular inspections to ensure contractor compliance with the EMMP > Adjust design footprint to ensure Priority 1 plant species are not within the impact zones > Adjust the construction footprint of boardwalks and trails to avoid Priority 1 plant species, in consultation with a Flora Specialist	No change	No change	No change	Minor
Flora	Indirect	<i>Goniophlebium perissum</i>	Construction	Decline in plant health	High	Low	4/10 specimens indirectly affected by construction of proposed trails	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area ; plant specimens previously in forested areas now exposed to some edge habitats.	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Guioa pubescens</i>	Construction	Decline in plant health	High	Low	1/3 specimens indirectly affected by construction of trails	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area; plant specimens previously in forested areas now exposed to some edge habitats.	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Gynochthodes rigidia</i>	Construction	Decline in plant health	High	Low	9/39 specimens affected indirectly by construction of trail	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area; plant specimens previously in forested areas now exposed to some edge habitats.	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Limacia scandens</i>	Construction	Decline in plant health	High	Low	3/12 specimens indirectly affected by construction of primary entrance	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area; plant specimens previously in forested areas now exposed to some edge habitats.	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Melicope lunu-ankenda</i>	Construction	Decline in plant health	High	Low	6/13 specimens indirectly affected by construction of trails and possible stream enhancement works	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area; plant specimens previously in forested areas now exposed to some edge habitats.	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor

Flora	Indirect	<i>Oxyceros longiflorus</i>	Construction	Decline in plant health	High	Low	2/7 specimens indirectly affected by construction of the primary entrance and possible stream enhancement works	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area; plant specimens previously in forested areas now exposed to some edge habitats.	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Tetracera fagifolia var. borneensis</i>	Construction	Decline in plant health	High	Low	3/15 specimens indirectly affected by construction of trails	Low	Possible	Formation of some forest edges in a mix of forested and scrubland area; plant specimens previously in forested areas now exposed to some edge habitats.	Implement soil erosion control measures	Minor	NA	No change	No change	No change	Minor
Flora	Indirect	<i>Angelesia splendens</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Unlikely	No specimen affected indirectly by development	NIL	Negligible	NA	No change	No change	No change	Negligible
Flora	Indirect	<i>Connarus semidecandrus</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Unlikely	No specimen affected indirectly by development	NIL	Negligible	NA	No change	No change	No change	Negligible
Flora	Indirect	<i>Curculigo capitulata</i>	Construction	Decline in plant health	High	Negligible	No specimen affected indirectly by development	Very Low	Unlikely	No specimen affected indirectly by development	NIL	Negligible	NA	No change	No change	No change	Negligible

Fauna	Bat	No	<i>Tylonycteris malayana</i>	Greater bamboo bat	Least Concern	Vulnerable	Operational	Human disturbance	High	Medium	sensitive to human ↗	Medium	Likely	Human traffic confined within built-up areas, trails/boardwalks; park expected to be opened till 2200h	Moderate	> Conduct regular post-construction biodiversity monitoring to determine if the increased visitorship has affected fauna species > Design the boardwalks and trails to deter visitors from venturing off-trail (e.g., install railings) > Close park during the night (1900-0700h) > Design for dense landscaping along the sides of the proposed trails and boardwalks to deter visitors from venturing off-trail	Medium	Medium	Less likely	Minor

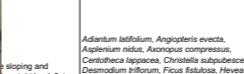

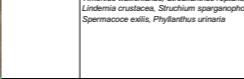

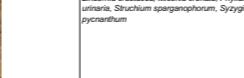

**APPENDIX 15
IMPACT ASSESSMENT ON HABITATS AT BBHNP (AREA E)**

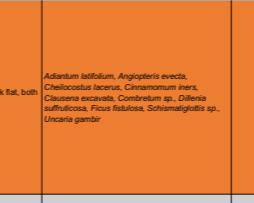

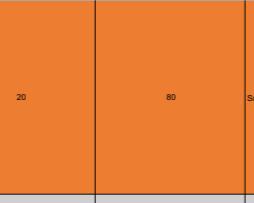

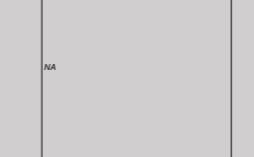

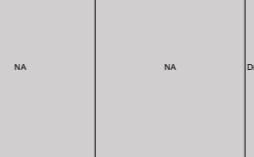

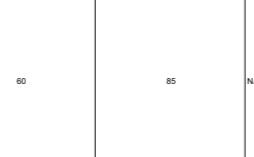

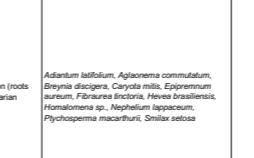

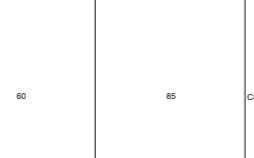

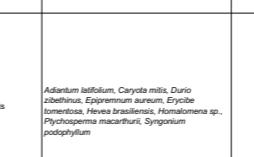

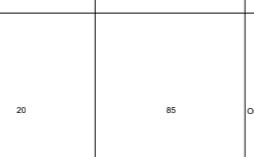

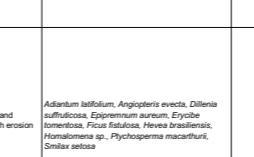

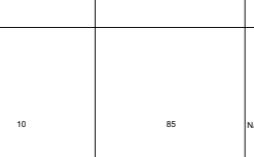

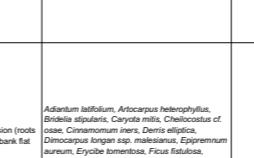

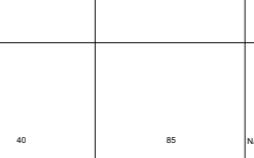

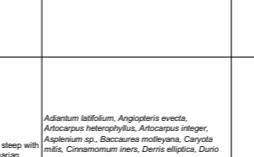

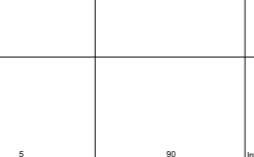

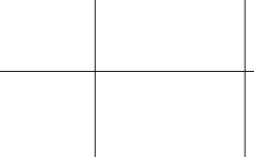

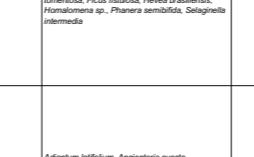

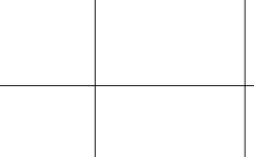

Receptor Type	Type	Habitat	Phase	Impact type	Impact category	Sensitivity (S)	Key minimum controls	Impact intensity (I)	Reason	Consequence (C = S x I)	Likelihood (L)	Reason	Impact significance (C x L)	Key mitigation measures	Residual impact intensity	Residual consequence	Residual likelihood	Residual impact significance	Remarks	
Habitat	Terrestrial	Native-dominated secondary forest	Construction	Loss of habitat	Direct	Priority 1		Negligible	No overlap	Very Low	Unlikely	No development	Negligible		Very Low	Unlikely	Negligible			
Habitat	Terrestrial	Abandoned-land forest with native recruitment	Construction	Loss of habitat	Direct	Priority 2		Low	< 10%	Very Low	Certain	Overlaps with worksite	Minor		Very Low	Certain	Minor			
Habitat	Terrestrial	Abandoned-land forest	Construction	Loss of habitat	Direct	Priority 2		Hoarding installation, TPZ installation, daily checks by EM	< 10%	Very Low	Certain	Overlaps with worksite	Minor		Very Low	Certain	Minor			
Habitat	Terrestrial	Scrubland	Construction	Loss of habitat	Direct	Priority 3		Low	< 10%	Very Low	Certain	Overlaps with worksite	Minor		Very Low	Certain	Minor			
Habitat	Aquatic	Stream E1a	Construction	Loss of habitat	Direct	Priority 2		Negligible	No loss (stream enhancement and wetland creation)	Imperceptible	Unlikely	No loss (stream enhancement and wetland creation)	Negligible		Negligible	Imperceptible	Unlikely	Negligible		
Habitat	Terrestrial	Native-dominated secondary forest	Construction	Habitat degradation	Indirect	Priority 1		Negligible	No overlap	Very Low	Unlikely	No development	Negligible		Very Low	Unlikely	Negligible			
Habitat	Terrestrial	Abandoned-land forest with native recruitment	Construction	Habitat degradation	Indirect	Priority 2		ECM implementation, proper stockpiling, DCM implementation, ensure noise levels within approved limits, daily checks by EM, avoid fogging	Medium	14.2% (1.06 ha)	Low	Less likely	Minimum controls	Minor		Medium	Low	Less likely		
Habitat	Terrestrial	Abandoned-land forest	Construction	Habitat degradation	Indirect	Priority 2		Medium	42.3% (1.06 ha)	Medium	Less likely	Minimum controls	Minor		High	Medium	Less likely	Minor		
Habitat	Terrestrial	Scrubland	Construction	Habitat degradation	Indirect	Priority 3		Medium	12.1% (0.261 ha)	Very Low	Less likely	Minimum controls	Negligible		Medium	Very Low	Less likely	Negligible		
Habitat	Aquatic	Stream E1a	Construction	Habitat degradation	Indirect	Priority 2		Low	Some changes in surface water quality	Very Low	Less likely	Minimum controls	Negligible		Low	Very Low	Less likely	Negligible		
Habitat	Terrestrial	Native-dominated secondary forest	Construction	Formation of edge effects	Indirect	Priority 1		Negligible	No overlap	Very Low	Unlikely	No overlap	Negligible		Negligible	Very Low	Unlikely	Negligible	NIL	
Habitat	Terrestrial	Abandoned-land forest with native recruitment	Construction	Formation of edge effects	Indirect	Priority 2		High	> 40% increase in P/A	Medium	Less likely	Small development (trail)	Minor		High	Medium	Less likely	Minor	NIL	
																			No change to impact significance. Impact cannot be lowered anymore.	
Habitat	Terrestrial	Abandoned-land forest	Construction	Formation of edge effects	Indirect	Priority 2		High	> 40% increase in P/A	Medium	Less likely	The proposed entrance [i.e., arrival node] and wetland creation will be created mostly within the footprint of existing old trails within BBHNP. Clearance within the understorey layer of this habitat type would be done selectively with the aim to retain as much existing vegetation/forest structure as possible.	Minor		High	Medium	Less likely	Minor		
Habitat	Terrestrial	Scrubland	Construction	Formation of edge effects	Indirect	Priority 3	NA	High	> 40% increase in P/A	Low	Less likely	Considerable development (main entrance and wetland creation) but habitat is already edge habitat	Minor		Infill planting at certain areas within this habitat type, especially near the proposed arrival node and wetland.	High	Low	Less likely	Minor	NIL
												This impact was qualitatively assessed.								
Habitat	Aquatic	Stream E1a	Construction	Formation of edge effects	Indirect	Priority 2		NA	NA	NA	NA	Currently, the stream is already exposed to changes to microclimate and edge effects due to the ongoing site clearance and development adjacent to BBHNP. Proposed trails will be created within the footprint of existing old trails within BBHNP. As such, clearance within the understorey layer of this habitat type shall be done selectively to retain as much existing vegetation/forest structure as possible.	Minor	Enhancement works	NA	NA	NA	Minor	The proposed enhancement works to this habitat may result in positive impact significance during the operational phase.	
Habitat	Terrestrial	Native-dominated secondary forest	Operational	Habitat degradation	Indirect	Priority 1		Negligible	No overlap	Very Low	Unlikely	No development	Negligible		Very Low	Unlikely	Negligible			
Habitat	Terrestrial	Abandoned-land forest with native recruitment	Operational	Habitat degradation	Indirect	Priority 2		Medium	14.2% (1.06 ha)	Low	Less likely	Trail with rope railing	Minor		Medium	Low	Less likely	Minor		
Habitat	Terrestrial	Abandoned-land forest	Operational	Habitat degradation	Indirect	Priority 2	Avoid fogging	High	42.3% (1.06 ha)	Medium	Less likely	Trail with rope railing	Minor		High	Medium	Less likely	Minor		
Habitat	Terrestrial	Scrubland	Operational	Habitat degradation	Indirect	Priority 3		Medium	12.1% (0.261 ha)	Very Low	Less likely	Trail with rope railing	Negligible		Medium	Very Low	Less likely	Negligible		
Habitat	Aquatic	Stream E1a	Operational	Habitat degradation	Indirect	Priority 2		Low	Some changes in surface water quality	Very Low	Less likely	Trails with rope railing, surface runoff controlled and littering not expected	Negligible		Low	Very Low	Less likely	Negligible		
Habitat	Terrestrial	Native-dominated secondary forest	Operational	Changes in microclimatic conditions	Indirect	Priority 1		Negligible	No overlap	Very Low	Unlikely	No development	Negligible		Negligible	Very Low	Unlikely	Negligible		
Habitat	Terrestrial	Abandoned-land forest with native recruitment	Operational	Changes in microclimatic conditions	Indirect	Priority 2		Medium	14.2% (1.06 ha)	Low	Unlikely	Development is largely green	Negligible		Medium	Low	Unlikely	Negligible
